

Prospectus Supplement to Prospectus dated January 22, 1998.

[KENNAMETAL INC. LOGO]

\$300,000,000
KENNAMETAL INC.
7.20% Senior Notes due 2012

We will pay interest on the notes on June 15th and December 15th of each year. The first such payment will be made on December 15, 2002. The notes will be issued only in denominations of \$1,000 and integral multiples of \$1,000.

We have the option to redeem all or a portion of the notes at any time at a redemption price described in this prospectus supplement. We must give at least 30 but not more than 60 days' notice of our intention to redeem the notes.

Concurrently with this offering, we are also offering 3,200,000 shares of our capital stock, par value \$1.25 per share (common stock), plus up to an additional 480,000 shares if the underwriters for the common stock offering exercise their option to purchase additional shares. Our offering of the notes is not conditioned on our common stock offering.

See "Risk Factors" beginning on page S-9 to read about certain factors you should consider before buying notes.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY OTHER REGULATORY BODY HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS SUPPLEMENT OR THE ACCOMPANYING PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

Per Note Total ----- Initial public
offering price.....
99.629% \$298,887,000 Underwriting
discount.....
1.250% \$ 3,750,000 Proceeds, before expenses,
to Kennametal..... 98.379%
\$295,137,000

The initial public offering price set forth above does not include accrued interest, if any. Interest on the notes will accrue from June 19, 2002 and must be paid by the purchaser if the notes are delivered after June 19, 2002.

The underwriters expect to deliver the notes in book-entry form only through the facilities of The Depository Trust Company against payment in New York, New York on June 19, 2002.

Prospectus Supplement dated June 14, 2002.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus (including the documents incorporated by reference) contain certain "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. You can identify these forward-looking statements by the fact they use words such as "should," "anticipate," "estimate," "approximate," "expect," "may," "will," "project," "intend," "plan," "believe," and others words of similar meaning and expression in connection with any discussion of future operating or financial performance. One can also identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements are likely to relate to, among other things, our goals, plans and projections regarding our financial position, results of operations, market position and product development, which are based on current expectations that involve inherent risks and uncertainties, including factors that could delay, divert or change any of them in the next several years.

Although it is not possible to predict or identify all factors, they may include the following:

- global economic conditions;
- risks associated with integrating and divesting businesses and achieving the expected savings and synergies;
- demands on management resources;
- risks associated with international markets such as currency exchange rates, and social and political environments;
- competition;
- labor relations;
- commodity prices;
- demand for and market acceptance of new and existing products; and
- risks associated with the implementation of restructuring plans and environmental remediation matters.

We can give no assurance that any goal or plan set forth in forward-looking statements can be achieved and readers are cautioned not to place undue reliance on such statements, which speak only as of the date made. We undertake no obligation to release publicly any revisions to forward-looking statements as a result of future events or developments.

PROSPECTUS SUPPLEMENT SUMMARY

This summary only highlights information contained elsewhere in this prospectus supplement and the accompanying prospectus. As a result, it does not contain all of the information that you should consider before purchasing the notes. You should read the entire prospectus supplement, including the accompanying prospectus and the documents incorporated by reference, which are described under the caption "Where You Can Find More Information." When used in this prospectus supplement, unless the context requires otherwise, the terms "we," "our," and "us" refer to Kennametal Inc. and its subsidiaries. Unless otherwise specified, any reference to a "year" is to a fiscal year ended June 30.

On May 3, 2002, we signed a definitive agreement to purchase the Widia Group (Widia) in Europe and India from Milacron Inc. for E188 million, subject to a purchase price adjustment based on the change in the net assets of Widia from December 31, 2001 to the closing date. The acquisition remains subject to European regulatory approvals and negotiated conditions of closing. Assuming regulatory approvals, we expect to close the Widia acquisition by July 1, 2002.

KENNAMETAL INC.

We are a leading global manufacturer, marketer and distributor of a broad range of cutting tools, tooling systems, supplies and technical services, as well as wear-resistant parts. We believe that our reputation for manufacturing excellence and technological expertise and innovation in our principal products has helped us achieve a leading market presence in our primary markets. We believe we are the largest North American and the second largest global provider of metalcutting tools and tooling systems. End users of our products include metalworking manufacturers and suppliers in the aerospace, automotive, machine tool and farm machinery industries, as well as manufacturers and suppliers in the highway construction, coal mining, quarrying and oil and gas exploration industries.

We operate through four principal business segments:

METALWORKING SOLUTIONS & SERVICES GROUP (MSSG). MSSG specializes in developing and manufacturing tools and tooling systems that are used to cut metal through applications such as turning, milling and drilling. A metalworking tooling system usually consists of a steel toolholder and a consumable cutting tool called an insert. During a metalworking operation, the insert contacts the workpiece and cuts it to a desired shape while the workpiece or tooling system is rapidly rotated. The insert is consumed during use, providing us with an ongoing opportunity for sales of additional inserts. Our inserts are made of cemented carbides, ceramics, cermets and other hard materials. We manufacture a complete line of toolholders and toolholding systems by machining and fabricating steel bars and other metal alloys. We believe that we are the largest North American and the second largest global provider of metalcutting tools and tooling systems.

ADVANCED MATERIALS SOLUTIONS GROUP (AMSG). Building on our expertise in making inserts, we have developed innovative consumable tools utilizing tungsten carbide powder metallurgy for a wide variety of demanding industrial applications. We believe we are the largest global manufacturer, marketer and distributor of tools for the underground coal mining and highway construction industries. These tools are made from steel parts and tipped with cemented tungsten carbide to cut through materials such as coal, rock and pavement. Examples of these tools are bits for longwall shearer and continuous miner drums and grader and snowplow blades. We also manufacture parts made of tungsten carbide, which we call wear products, for customers who need parts that are extremely strong and can withstand severe abrasion or wear.

J&L INDUSTRIAL SUPPLY (J&L). J&L is one of the largest distributors of a broad range of metalworking consumables and related products to small and medium-sized metalworking

customers in the United States. Our direct-marketing program offers 130,000 stock keeping units through our 2,065 page master catalog, a monthly promotional sales flyer called the "Advantage," additional mailings and advertisements, telemarketing efforts, and a direct sales effort. We offer customers the advantages of (1) a single source of supply for all metalworking consumables and related products, (2) same-day direct shipping and (3) a state-of-the-art order entry system that tracks product availability and pricing. We also provide product application support through our "Tech Team," a source of technical product information.

FULL SERVICE SUPPLY (FSS). FSS is one of the largest integrated suppliers of a broad range of metalworking consumables and related products to large metalworking customers in the United States and Canada. FSS enables customers to achieve substantial cost savings in metalworking consumables and overall manufacturing processes by outsourcing the procurement, inventory management and distribution to the factory floor. Customers, such as General Motors Corporation, Honeywell and Emerson Electric, use FSS programs at designated manufacturing facilities to (1) consolidate all of their metalworking consumables and related product purchases with one vendor, (2) eliminate a significant portion of the administrative overhead burden associated with the internal purchasing function, (3) ensure appropriate technical expertise in the selection and use of supplies for complex metalworking processes and (4) minimize the level of investment in tooling inventory, thereby reducing inventory carrying costs. Our technical experts customize and manage a comprehensive computerized product identification, tracking and purchasing system that analyzes and optimizes supply usage, helps select appropriate products and allows for "just-in-time" replacement of inventory. We believe that FSS programs typically reduce a customer's costs of acquiring, possessing and using metalworking products by approximately 5% to 20% per year.

With approximately 11,800 employees worldwide at March 31, 2002, our total revenues for the twelve months ended March 31, 2002 were \$1.6 billion, with approximately one-third of those revenues coming from outside the United States. Revenue and operating income for the twelve months ended March 31, 2002, by business segment, are described in the following charts:

[2001 REVENUE/OPERATING INCOME PIE CHARTS]
REVENUE BY SEGMENT

Metalworking Solutions & Services Group.....	56.0%

* Before restructuring, asset impairment and other special charges.

INDUSTRY OVERVIEW

We estimate the size of our global market for metalworking consumables and wear-resistant parts to be approximately \$13 billion, including an approximately \$8.5 billion market for metalworking consumables and other related products. We believe five significant trends are currently impacting the metalworking industry:

- Continuing advances in customers' metalworking manufacturing technology, requiring more technologically advanced tools;
- Demand for world class capabilities including customer service, technical application support and information and product technology while, at the same time, maintaining or reducing costs;
- Growing demand for suppliers that can provide a complete selection of tools, supplies and services globally;
- Increasing demand from large customers to outsource procurement and inventory management processes through integrated supply programs; and
- Consolidation of manufacturing and of fragmented distribution channels as customers seek a single source of supply for their metalworking needs.

BUSINESS STRATEGY

Our aspiration is to become the premier tooling solutions supplier of consumable tools, related supplies and services to the global metalworking industry and to other industries that can benefit from tungsten carbide products. We believe our market-leadership position is the result of our successful implementation of our business strategy, the major elements of which include:

- Strengthen Leading Global Market Position. We are the #1 tooling solutions provider in North America and #2 in the world. We believe our #2 position in Europe will be strengthened upon completion of the Widia acquisition, which combines our complementary European businesses which have little customer overlap.
- Offer Most Comprehensive Range of Products and Services. We strive to provide the most comprehensive product offering in the metalworking industry. As a result of strong research and development and various acquisitions, we market and distribute what we believe to be one of the broadest lines of tools, tooling systems and services typically used by metalworking customers. We also manufacture all of the major consumable tools needed by customers in their metalcutting manufacturing processes.
- Provide Innovative and Technologically Superior Products. We supply high quality and technologically innovative consumable metalcutting tools and tooling systems to the metalworking industry which we believe has been instrumental in achieving our leading market position. We believe we operate one of the most advanced metalworking technology centers in the world. For the first nine months of fiscal 2002, we estimate that 34% of our sales came from products introduced within the last five years.
- Leverage Customer-Focused Selling Culture. We have positioned ourselves to become the premier tooling solutions supplier as well as a full-service tooling manufacturer and distributor. Our solutions-based, value-added services and products differentiate us from our competitors and continue to strengthen our relationships with valued customers allowing us to achieve a high level of customer intimacy.
- Provide Superior Customer Service, Product Availability and Technical Support. Our skills in rapidly filling orders, maintaining high levels of product availability and providing technical product application support are vital to the ability of our customers to meet their

production and delivery schedules in a cost-effective manner. Our sophisticated order entry and inventory management systems enable us to ship more than 90 percent of our products from stock. In addition, our technically skilled sales force of more than 900 people provides product selection and application support to enable customers to optimize their industrial processes.

- Maintain Commitment to Strong Balance Sheet and Cash Flow Generation. We are firmly committed to maintaining a strong financial profile. We have generated consistent levels of free operating cash flow since 1999 and expect to generate at least \$100 million of free cash flow each year in the future. In addition, management has reduced the ratio of total debt to total capital from 51.9% at June 30, 1999 to 39.9% at March 31, 2002 (before we record the non-cash charge related to the adoption of SFAS No. 142).
- Focus on Aggressively Reducing Costs. In November 1999, we embarked on a program to streamline our manufacturing operations in order to continually improve our competitive position. In September 2000, we announced a similar plan focused on improving the operating performance of J&L. Since November 1999, we closed or downsized seven plants and over 30 warehouses and J&L satellite stores. Also, in this same period, we reduced our work force by approximately 1,400 people, or 10%. By the end of fiscal 2003, we expect to have realized annual cost savings of \$35 - 40 million as a result of these actions. We expect to realize further efficiencies from our continuing efforts to reduce our manufacturing and administrative costs through our lean initiatives. In addition, we believe the effective integration of Widia into our European and Asia/Pacific operations will afford further opportunities to increase efficiency and improve productivity.

In addition to the above business strategies, we seek to further improve operating efficiencies, as well as to pursue selected acquisitions that enhance our existing product offerings and strengthen our geographic presence.

RECENT DEVELOPMENTS

COMMON STOCK OFFERING

Concurrent with this notes offering, we are undertaking a public offering of 3,200,000 shares of our capital stock, par value \$1.25 per share (common stock), or 3,680,000 shares if the underwriters exercise their option to purchase additional shares from us in full. Net proceeds, after deducting underwriting discounts and commissions and offering expenses, from the common stock offering are expected to be approximately \$108.8 million (or \$125.1 million if the underwriters exercise their option to purchase additional shares from us in full). We expect to use the net proceeds, together with the net proceeds of this notes offering and borrowings under the new bank credit facility, to repay senior bank indebtedness, to pay the purchase price of the Widia acquisition and for general corporate purposes, including capital expenditures, other acquisitions and investments. See "Use of Proceeds." This notes offering and the common stock offering are independent offerings and are not conditioned upon each other.

PROPOSED NEW BANK CREDIT FACILITY

We expect to enter into a \$650 million 3-year senior unsecured revolving credit facility arranged by J.P. Morgan Securities Inc. on or before July 1, 2002. We cannot assure you that we will successfully negotiate and arrange this bank credit transaction or a similar transaction. We intend to use the new bank credit facility to refinance our existing bank credit facilities, which are comprised of a \$700 million 5-year revolving credit facility, which matures on August 30, 2002, and a \$212 million 3-year revolving credit facility, which matures on December 20, 2003.

THE WIDIA GROUP ACQUISITION

On May 3, 2002, we signed a definitive agreement to purchase the Widia Group (Widia) in Europe and India from Milacron Inc. for E188 million, subject to a purchase price adjustment based on the change in the net assets of Widia from December 31, 2001 to the closing date. The acquisition remains subject to European regulatory approval and negotiated conditions of closing. Assuming regulatory approval, we expect to close the Widia acquisition by July 1, 2002.

Widia is a leading manufacturer and marketer of metalworking tools, engineered products and related services in Europe and India. Widia has an extensive product line of metalworking consumables, and is a recognized leader in milling applications. Widia employs approximately 3,400 employees, and operates eight manufacturing facilities in Europe and two in India. We currently intend to integrate the operations of Widia into existing operations. In addition, we expect to merge Widia's German operations into a new Kennametal European subsidiary at the closing. Widia sells primarily through direct sales and has sales and service personnel in many European countries.

We intend to fund the acquisition through the proposed new bank credit facility, this notes offering or the common stock offering, or a combination of these financing transactions. Sufficient capacity exists under our existing bank credit facilities to fund the acquisition should the transaction close prior to completion of one or all of these financing transactions.

DISPOSITION OF STRONG TOOL COMPANY

On April 19, 2002, consistent with our business strategy, we sold Strong Tool Company, our industrial supply distributor based in Cleveland, Ohio, for \$8.6 million consisting of cash proceeds of \$4.0 million and a seller note of \$4.6 million. This disposition resulted in a pretax loss of \$3.5 million and is in line with our strategy to refocus our J&L business segment on its core catalog business. Annualized sales of this business were approximately \$34 million.

CHANGE OF INDEPENDENT AUDITORS

Effective May 14, 2002, we dismissed Arthur Andersen LLP as our independent auditors and engaged PricewaterhouseCoopers LLP as our independent auditors for our fiscal year ending June 30, 2002.

SFAS NO. 142

Effective July 1, 2001, we adopted SFAS No. 142, "Goodwill and Other Intangible Assets." Under SFAS No. 142, all goodwill amortization ceased effective July 1, 2001. As a result of the adoption of this rule, we expect to record a non-cash charge of \$230 million to \$260 million, specific to the electronics (AMSG segment) and the industrial product group (MSSG segment) businesses, which were acquired in 1998. We will record the actual charge in our financial statements for the fiscal year ended June 30, 2002.

Our executive offices are located at 1600 Technology Way, P.O. Box 231, Latrobe, Pennsylvania 15650, and our telephone number is (724) 539-5000.

THE OFFERING

Issuer.....	Kennametal Inc.
Aggregate amount.....	\$300,000,000 7.20% Senior Notes due 2012.
Interest.....	Interest will accrue on the notes from the date of delivery at a rate of 7.20% per annum. Interest will be payable semi-annually, in cash, on June 15 and December 15 of each year, commencing December 15, 2002.
Maturity.....	June 15, 2012.
Ranking.....	The notes will be: <ul style="list-style-type: none">- senior unsecured obligations of Kennametal and rank equally in right of payment with all of Kennametal's existing and future senior unsecured indebtedness; and- junior to all existing and future liabilities of our subsidiaries (at March 31, 2002, after giving effect to this notes offering, the common stock offering, the new bank credit facility and the Widia acquisition, our subsidiaries would have had approximately \$327 million of indebtedness, including \$301 million of guarantees under the new bank credit facility but excluding intercompany indebtedness).
Optional redemption.....	We have the option to redeem the notes in whole or in part for the greater of: <ul style="list-style-type: none">- 100% of the principal amount of the notes being redeemed, or- the sum of the present values of the remaining scheduled payments of principal and interest on the notes being redeemed, discounted at an adjusted treasury rate, plus, in each case, accrued and unpaid interest to the redemption date.
Certain covenants.....	The indenture under which the notes will be issued will contain covenants for your benefit which, among other things and subject to certain exceptions, restrict our ability to: <ul style="list-style-type: none">- create liens;- engage in sale-leaseback transactions;- enter into certain consolidations or mergers; or <ul style="list-style-type: none">- sell all or substantially all of our assets.
Use of proceeds.....	We intend to use the net proceeds of this notes offering, together with the net proceeds of the common stock offering and borrowings under the new bank credit facility, to repay senior bank indebtedness, to finance the Widia acquisition and for general corporate purposes. See "Use of Proceeds."

RISK FACTORS

In evaluating an investment in the notes, prospective investors should carefully consider, along with the other information set forth in or incorporated by reference into this prospectus supplement, the specific factors set forth under "Risk Factors" for risks involved with an investment in the notes.

SUMMARY CONSOLIDATED FINANCIAL INFORMATION

The following table sets forth summary consolidated historical financial data for each of the fiscal years in the three year period ended June 30, 2001. Also included is summary consolidated financial data for the nine-month periods ended March 31, 2002 and 2001. You should read the information set forth in this table in conjunction with our consolidated financial statements and the related notes thereto and other financial data contained elsewhere or incorporated by reference in this prospectus supplement. Interim results for the nine months ended March 31, 2002 are not necessarily indicative of, and are not projections for, the results to be expected for the full fiscal year.

- - - - -

(1) Amounts reflect costs associated with restructuring and related period costs, and asset impairment charges in the nine months ended March 31, 2002; restructuring and asset impairment charges and

costs primarily associated with the JLK tender offer in the nine months ended March 31, 2001; costs associated with restructuring and asset impairment charges related to operational improvement programs, a loss on divestiture and costs primarily associated with the JLK tender offer in the nine months ended March 31, 2001; costs associated with environmental remediation, strategic alternative, and restructuring and asset impairment charges related to operational improvement programs initiated in 2000; costs associated with the acquisition of shares of Toshiba Tungaloy and restructuring and asset impairment charges related to operational improvement programs initiated in 1999.

- (2) Accounting changes in 2001 reflect the change in the method of accounting for derivative financial instruments (SFAS No. 133).
- (3) For the nine months ended March 31, 2002, amounts are not reflective of a non-cash charge of \$230,000 to \$260,000 related to the adoption of SFAS No. 142. We will record the actual charge in our financial statements for the fiscal year ended June 30, 2002.
- (4) Excluding restructuring, asset impairment and other special charges in the nine months ended March 31, 2002, net income was \$40,141 and diluted earnings per share were \$1.28. Excluding restructuring, asset impairment and other special charges in the nine months ended March 31, 2001, net income was \$48,053 and diluted earnings per share was \$1.57. Excluding restructuring, asset impairment and other special charges in 2001 and the charge for the accounting principle change of \$599, net of tax, net income was \$66,587 and diluted earnings per share were \$2.17. Excluding restructuring, asset impairment and other special charges in 2000 and an extraordinary loss of \$267, net of tax, net income was \$64,689 and diluted earnings per share were \$2.13. Excluding restructuring, asset impairment and other special charges in 1999, net income was \$54,299 and diluted earnings per share were \$1.82.
- (5) EBITDA is defined as income before provision for income taxes and minority interest, plus interest expense, depreciation and amortization. EBITDA is commonly presented as an indicator of operating performance. It is not, however, intended as an alternative measure of operating results or cash flow from operations as determined in accordance with generally accepted accounting principles in the United States. EBITDA is not necessarily comparable to similarly titled measures for other companies.
- (6) For purposes of calculating this ratio, earnings represents income from continuing operations before fixed charges, minority interest, provision for income taxes and the cumulative effect of accounting changes. Fixed charges includes interest expense, including amounts capitalized and the portion (approximately one-third) of rental expenses considered to be representative of interest expense.
- (7) After giving effect to the application of the proceeds of this notes offering, the common stock offering, the new bank credit facility and the Widia acquisition.

RISK FACTORS

You should consider carefully the following risk factors, in addition to the other information set forth in this prospectus supplement and the accompanying prospectus, before deciding to invest in the notes.

RISKS ASSOCIATED WITH OUR BUSINESS

THE CYCLICAL NATURE OF OUR BUSINESS COULD CAUSE FLUCTUATIONS IN OPERATING RESULTS.

Our business is cyclical in nature. As a result of this cyclicity, we have experienced, and in the future we can be expected to experience, significant fluctuation in our sales and operating income, which may affect our ability to service the notes and our other debt obligations.

OUR INTERNATIONAL OPERATIONS ARE SUBJECT TO MANY UNCERTAINTIES, AND A SIGNIFICANT REDUCTION IN INTERNATIONAL SALES OF OUR PRODUCTS COULD HAVE A MATERIAL ADVERSE EFFECT ON US.

Our international operations are subject to various political, economic and other uncertainties and risks that are not present in domestic operations, which could adversely affect our business. A significant reduction of our international business due to any of these risks would adversely affect our sales. In fiscal 2001, we derived approximately one-third of our revenues from sources outside the United States. If the Widia acquisition is consummated, this percentage is expected to increase. Risks faced by our international operations include:

- periodic economic downturns;
- fluctuations in currency exchange rates;
- customs matters and changes in trade policy or tariff regulations;
- unexpected changes in regulatory requirements;
- higher tax rates and potentially adverse tax consequences including restrictions on repatriating earnings, adverse tax withholding requirements and "double taxation;"
- intellectual property protection difficulties;
- longer payment cycles and difficulty in collecting accounts receivable;
- complications in complying with a variety of foreign laws and regulations;
- costs and difficulties in integrating, staffing and managing international operations;
- transportation delays and interruptions; and
- natural disasters and the greater difficulty in recovering from them in some of the foreign countries in which we operate.

Also, various foreign jurisdictions have laws limiting the right and ability of foreign subsidiaries to pay dividends and remit earnings to affiliated companies unless specified conditions are met. Further, sales in foreign jurisdictions typically are made in local currencies and transactions with foreign affiliates customarily are accounted for in the local currency of the selling company. While we regularly borrow in local currencies and enter into foreign exchange contracts to reduce our currency exposure, to the extent we do not fully mitigate the effect of changes in the relative value of the U.S. dollar and foreign currencies, our results of operations and financial condition (which are reported in U.S. dollars) could be affected adversely by negative changes in these relative values.

In addition, foreign operations involve uncertainties arising from local business practices, cultural considerations and international political and trade tensions. If we are unable to successfully manage the risks associated with expanding our global business or to adequately

manage operational fluctuations internationally, it could have a material adverse effect on our business, financial condition and results of operations.

IF THE PRICES FOR OUR RAW MATERIALS INCREASE, OUR PROFITABILITY COULD BE IMPAIRED.

The raw materials we use for our products consist of ore concentrates, compounds and secondary materials containing tungsten, tantalum, titanium, niobium and cobalt. Although adequate supply of these raw materials currently exists, our major sources for raw materials are located abroad and prices at times have been volatile. If the prices of our raw materials increase, our operating expense could increase significantly.

DEMAND FOR SOME OF OUR PRODUCTS MAY BE ADVERSELY IMPACTED BY REGULATIONS AFFECTING THE MINING AND DRILLING INDUSTRIES OR UTILITIES INDUSTRY.

Some of our principal customers are mining and drilling companies. Many of these customers supply coal, oil, gas or other fuels as a source for the production of utilities in the United States and other industrialized regions. The operations of these mining and drilling companies are geographically diverse and are subject to or impacted by a wide array of regulations in the jurisdictions where they operate, such as applicable environmental laws and an array of regulations governing the operations of utilities. As a result of changes in regulations and laws relating to such industries, our customers' operations could be disrupted or curtailed by governmental authorities. The high cost of compliance with mining, drilling and environmental regulations may also induce customers to discontinue or limit their operations, and may discourage companies from developing new opportunities. As a result of these factors, demand for our mining and drilling related products could be substantially affected by regulations adversely impacting the mining and drilling industries or altering the consumption patterns of utilities.

A DECLINE IN AUTOMOTIVE SALES AND PRODUCTION COULD RESULT IN A DECLINE IN OUR RESULTS OF OPERATIONS OR A DETERIORATION IN OUR FINANCIAL CONDITION.

Some of our primary customers are automobile companies in the United States and abroad. Automobile sales and production are cyclical and can be affected by the strength of a country's general economic condition. In addition, automobile production and sales can be affected by labor relations, regulatory requirements, trade agreements and other factors. A decline in automotive sales and production could result in a decline in our results of operations or a deterioration in our financial condition. If demand changes and we fail to respond appropriately, our business, financial position and results of operations could be adversely affected.

LABOR DISPUTES AND INCREASING LABOR COSTS COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS.

Some of our principal domestic and many of our foreign operations are parties to collective bargaining agreements with their employees. We cannot assure you that any disputes, work stoppages or strikes will not arise in the future. In addition, when existing collective bargaining agreements expire, we cannot assure you that we will be able to reach new agreements with our employees. Such new agreements may be on substantially different terms and may result in increased labor costs. Future disputes with our employees could have a material adverse effect upon our business, financial position and results of our operations.

WE OPERATE IN A HIGHLY COMPETITIVE ENVIRONMENT.

Our domestic and foreign operations are subject to significant competitive pressures. We compete directly and indirectly with other manufacturers and suppliers of metalworking tools and

wear-resistant parts. At least one of our competitors is larger, and some of our competitors may have greater access to financial resources and may be less leveraged than us.

In addition, the metalworking supply industry is a large, fragmented industry that is highly competitive. Our J&L and FSS business segments face competition from traditional channels of distribution such as retail outlets, small dealerships and regional and national distributors using direct sales forces, from manufacturers of metalworking supplies, from large warehouse stores and from other direct mail distributors. We believe that sales of metalworking supplies will become more concentrated over the next few years, which may increase the competitiveness of the industry. Certain of J&L's competitors offer a greater variety of products and have substantially greater financial and other resources than us.

Customers are increasingly aware of the total costs of fulfilling their purchasing requirements and are seeking low cost alternatives to traditional methods of purchasing and sources of supply. We believe that the current trend is to reduce the number of suppliers and rely more on lower cost alternatives such as direct mail and/or integrated supply arrangements. We cannot assure you that we will be able to take advantage of this trend effectively or that we will be able to establish relationships with supply customers.

OUR CONTINUED SUCCESS DEPENDS ON OUR ABILITY TO PROTECT OUR INTELLECTUAL PROPERTY.

Our future success depends in part upon our ability to protect our intellectual property. We rely principally on nondisclosure agreements and other contractual arrangements and trade secret law and, to a lesser extent, trademark and patent law, to protect our intellectual property. However, these measures may be inadequate to protect our intellectual property from infringement by others or prevent misappropriation of our proprietary rights. In addition, the laws of some foreign countries do not protect proprietary rights to the same extent as do U.S. laws. Our inability to protect our proprietary information and enforce our intellectual property rights through infringement proceedings could have a material adverse effect on our business, financial condition and results of operations.

PRODUCT LIABILITY CLAIMS COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS.

The sale of metalworking, mining, highway construction and other tools and related products entails an inherent risk of product liability claims. We cannot assure you that the coverage limits of our insurance policies will be adequate or that our policies will cover any particular loss. Insurance can be expensive, and we may not always be able to purchase insurance on commercially acceptable terms, if at all. Claims brought against us that are not covered by insurance or that result in recoveries in excess of insurance coverage could have a material adverse effect on our business, financial condition and results of operations.

WE ARE SUBJECT TO VARIOUS ENVIRONMENTAL LAWS, AND ANY VIOLATION OF, OR OUR LIABILITIES UNDER, THESE LAWS COULD ADVERSELY AFFECT US.

Our operations necessitate the use and handling of hazardous materials and, as a result, we are subject to various federal, state, local and foreign laws, regulations and ordinances relating to the protection of health, safety and the environment, including those governing discharges to air and water, handling and disposal practices for solid and hazardous wastes, the cleaning up of contaminated sites and the maintenance of a safe work place. These laws impose penalties, fines and other sanctions for non-compliance and liability for response costs, property damages and personal injury resulting from past and current spills, disposals or other releases of, or exposure to, hazardous materials. We could incur substantial costs as a result of noncompliance with or liability for cleanup or other costs or damages under these laws. We may be subject to more stringent environmental laws in the future. If more stringent environmental laws are enacted

in the future, these laws could have a material adverse effect on our business, financial condition and results of operations.

WE MAY NOT BE ABLE TO SUCCESSFULLY INTEGRATE OUR PROPOSED ACQUISITION OF THE WIDIA BUSINESSES.

If and when the proposed Widia acquisition is consummated, we expect to integrate operations, management and personnel of the Widia businesses with our existing operations. The expansion of our European and Asian businesses resulting from the Widia acquisition may strain our administrative, operational and financial resources. The integration of the Widia businesses will require the dedication of management resources that may temporarily detract from our day-to-day business. These types of demands and uncertainties could have a material adverse effect on our business, financial condition and results of operations. We may not be able to manage the combined operations and assets effectively or realize any of the anticipated benefits of the acquisition. In addition, any material delays or unexpected costs we incur in connection with the integration process could harm our business, financial condition and results of operations.

We may not achieve desired levels of synergies in connection with the proposed Widia acquisition and the costs of achieving these synergies may be substantially greater than we anticipate. If we fail to achieve our desired levels of synergies, or if the costs of achieving them are substantially greater than we anticipate, our business, financial condition and results of operations could be adversely affected.

IF WE ARE UNABLE TO RETAIN QUALIFIED EMPLOYEES, OUR GROWTH MAY BE HINDERED.

Our ability to provide high-quality products and services depends in part on our ability to retain our skilled personnel in the areas of management, product engineering, servicing and sales. Competition for such personnel is intense and our competitors can be expected to attempt to hire our skilled employees from time to time. Our results of operations could be materially and adversely affected if we are unable to retain the customer relationships and technical expertise provided by our management team and our professional personnel.

A DISRUPTION OF OUR INFORMATION SYSTEMS COULD ADVERSELY AFFECT US.

We believe that our computer software programs are an integral part of our business and growth strategies. We depend upon our information systems generally to process orders, to manage inventory and accounts receivable collections, to purchase, sell and ship products efficiently and on a timely basis, to maintain cost-effective operations and to provide superior service to our customers. We cannot assure you that a disruption will not occur. Any disruption could have a material adverse effect on our business, financial condition and results of operations.

RISKS RELATING TO THE NOTES

OUR EXISTING U.S. DOLLAR BANK CREDIT FACILITY MATURES ON AUGUST 30, 2002 AND WE MAY NOT BE ABLE TO ARRANGE OUR NEW BANK CREDIT FACILITY PRIOR TO THAT DATE, OR AT ALL.

We are currently in negotiation with lenders on a new bank credit facility to replace our existing bank credit facilities. We cannot assure you that we will successfully negotiate and arrange this bank credit transaction or a similar transaction prior to the expiration of the existing U.S. dollar bank credit facility, or at all. If we are unable to arrange this new bank credit transaction prior to the expiration of our existing U.S. dollar bank credit facility, this would have a material adverse effect on us, including our liquidity.

OUR LEVEL OF INDEBTEDNESS MAY LIMIT CASH FLOW AVAILABLE TO INVEST IN THE ONGOING NEEDS OF OUR BUSINESS, WHICH COULD PREVENT US FROM FULFILLING OUR OBLIGATIONS UNDER THE NOTES.

We have a significant amount of indebtedness. After giving effect to this notes offering, the common stock offering, the new bank credit facility and the Widia acquisition, as of March 31,

2002, our total indebtedness would have been approximately \$643 million and our ratio of earnings to fixed charges for the nine months ended March 31, 2002 would have been approximately 1.9x.

Our level of indebtedness could have important consequences to you. For example, it could:

- require us to dedicate a substantial portion of our cash flow from operations to the payment of debt service, reducing the availability of our cash flow to fund working capital, capital expenditures, acquisitions and other general corporate purposes;
- increase the amount of interest that we have to pay because certain of our borrowings are at variable rates of interest;
- increase our vulnerability to adverse economic or industry conditions;
- limit our ability to obtain additional financing in the future to enable us to react to changes in our business or industry; or
- place us at a competitive disadvantage compared to businesses in our industry that have less indebtedness.

Additionally, any failure to comply with covenants in the instruments governing our debt could result in an event of default which, if not cured or waived, would have a material adverse effect on us.

See "Management's Discussion and Analysis of Financial Condition and Results of Operations -- Liquidity and Capital Resources" and "Description of the Notes."

DESPITE OUR LEVEL OF INDEBTEDNESS, WE AND OUR SUBSIDIARIES WILL BE ABLE TO INCUR SUBSTANTIALLY MORE DEBT. THIS COULD EXACERBATE THE RISKS DESCRIBED ABOVE.

We and our subsidiaries will be able to incur substantial additional indebtedness in the future. Although the credit agreements governing our existing bank credit facilities contain, and the credit agreement that will govern our new bank credit facility is expected to contain, restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of qualifications and exceptions, and the indebtedness incurred in compliance with these restrictions could be substantial. To the extent new debt is added to our currently anticipated debt levels, the substantial leverage risks described above would increase.

TO SERVICE OUR INDEBTEDNESS, WE WILL REQUIRE A SIGNIFICANT AMOUNT OF CASH. OUR ABILITY TO GENERATE CASH DEPENDS ON MANY FACTORS BEYOND OUR CONTROL. IF WE CANNOT GENERATE THE REQUIRED CASH, WE MAY NOT BE ABLE TO MAKE THE NECESSARY PAYMENTS UNDER THE NOTES.

Our ability to make payments on our indebtedness, including the notes, and to fund planned capital expenditures and research and development efforts will depend on our ability to generate cash in the future. Our ability to generate cash, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control.

Our historical financial results have been, and we anticipate that our future financial results will be, subject to fluctuations. We cannot assure you that our business will generate sufficient cash flow from our operations or that future borrowings will be available to us in an amount sufficient to enable us to pay our indebtedness, including the notes, or to fund our other liquidity needs and make necessary capital expenditures. Our inability to pay our debts would require us to pursue one or more alternative strategies, such as reducing or delaying planned expansion, selling assets, refinancing or restructuring our indebtedness or selling equity capital. However, we cannot assure you that any alternative strategies will be feasible at the time or prove adequate, which could cause us to default on our obligations and impair our liquidity. Also, some alternative strategies would require the prior consent of our senior lenders, which we may not be able to obtain.

THE NOTES ARE EFFECTIVELY SUBORDINATED TO ANY SECURED INDEBTEDNESS AND TO THE INDEBTEDNESS AND OTHER LIABILITIES OF OUR SUBSIDIARIES.

The notes will be unsecured obligations and will rank equal in right of payment to all of our other unsecured and unsubordinated indebtedness. The notes will be effectively subordinated to any of our secured indebtedness to the extent of the security and to the liabilities of our subsidiaries. In particular, claims of creditors of our subsidiaries, including trade creditors, secured creditors and creditors holding indebtedness or guaranties issued by our subsidiaries, will generally have priority with respect to the assets and earnings of those subsidiaries over the claims of our creditors, including holders of the notes, even if the obligations of our subsidiaries do not rank in priority over the notes. In addition, our significant domestic subsidiaries have guaranteed the borrowings under each of our existing bank credit facilities, and we expect that our significant domestic subsidiaries will guarantee borrowings under our new bank credit facility. At March 31, 2002, after giving effect to this notes offering, the common stock offering, the new bank credit facility and the Widia acquisition, our subsidiaries would have had approximately \$327 million of indebtedness, including \$301 million of guarantees under the new bank credit facility but excluding intercompany indebtedness. As of March 31, 2002, we had approximately \$9 million of secured indebtedness, consisting primarily of capitalized leases.

RESTRICTIONS IMPOSED BY OUR BANK CREDIT FACILITIES LIMIT OUR ABILITY TO OBTAIN ADDITIONAL FINANCING AND TO PURSUE BUSINESS OPPORTUNITIES.

The operating and financial restrictions and covenants in our debt instruments, including our bank credit facilities, may adversely affect our ability to finance our future operations or capital needs or to pursue certain business activities. In particular, our bank credit facilities require us to maintain certain financial ratios. Our ability to comply with these ratios may be affected by events beyond our control. A breach of any of these covenants or our inability to comply with the required financial ratios could result in a default under our bank credit facilities. In the event of any default under our bank credit facilities, the lenders under those facilities could elect to declare all borrowings outstanding, together with accrued and unpaid interest and other fees, to be due and payable, to require us to apply all of our available cash to repay these borrowings or to prevent us from making debt service payments on the notes, any of which would cause an event of default under the notes.

BECAUSE THERE IS NO ESTABLISHED TRADING MARKET FOR THE NOTES, YOU MAY NOT BE ABLE TO RESELL YOUR NOTES.

The notes will be registered under the Securities Act, but will constitute a new issue of securities with no established trading market, and we cannot assure you as to:

- the liquidity of any trading market that may develop;
- the ability of holders to sell their notes; or
- the price at which the holders would be able to sell their notes.

IF A TRADING MARKET WERE TO DEVELOP, THE NOTES MIGHT TRADE AT HIGHER OR LOWER PRICES THAN THEIR PRINCIPAL AMOUNT OR PURCHASE PRICE, DEPENDING ON MANY FACTORS, INCLUDING PREVAILING INTEREST RATES, THE MARKET FOR SIMILAR NOTES AND OUR FINANCIAL PERFORMANCE.

We understand that the underwriters presently intend to make a market in the notes. However, they are not obligated to do so, and any market-making activity with respect to the notes may be discontinued at any time without notice. In addition, any market-making activity will be subject to the limits imposed by the Securities Act and the Exchange Act and may be limited during the offering of the notes. We cannot assure you that an active trading market will exist for the notes or that any trading market that does develop will be liquid.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the notes will be \$294.5 million, after deducting underwriting commissions and discounts and our estimated offering expenses. We intend to use the net proceeds from the sale of the notes, together with proceeds from the common stock offering and borrowings under the new bank credit facility, to repay senior bank indebtedness, to pay the purchase price of the Widia acquisition and for general corporate purposes, including capital expenditures, other acquisitions and investments. Our existing bank credit facilities require us to reduce our commitments under these facilities by the amount of the net proceeds of this notes offering and the common stock offering. If the amount of the reduced commitments falls below the amount of outstanding loans under these facilities, we will be required to repay these loans to the extent they exceed the amounts of the reduced commitments. The effective interest rate on the approximately \$363 million aggregate principal amount of borrowings outstanding as of March 31, 2002 under our existing U.S. dollar bank credit facility, which matures on August 30, 2002, was 4.77%, including the effect of our interest rate swap agreements. The effective interest rate on the approximately E180 million aggregate principal amount of borrowings outstanding as of March 31, 2002 under our existing Euro bank credit facility, which matures on December 20, 2003, was 4.34%. See "Management's Discussion and Analysis of Financial Condition and Results of Operations -- Liquidity and Capital Resources" for a discussion of our existing bank credit facilities.

CAPITALIZATION

The following table sets forth, as of March 31, 2002, (1) our capitalization on an actual basis, (2) adjustments for the consummation of this notes offering, the common stock offering, the new bank credit facility and the Widia acquisition and (3) our capitalization on an as adjusted basis to reflect the consummation of this notes offering, the common stock offering, the new bank credit facility and the Widia acquisition. You should read the information set forth in this table in conjunction with our consolidated financial statements and the related notes thereto and other financial data contained elsewhere or incorporated by reference in this prospectus supplement.

* Effective July 1, 2001, we adopted SFAS No. 142, "Goodwill and Other Intangible Assets." Under SFAS No. 142, all goodwill amortization ceased effective July 1, 2001. As a result of the adoption of this rule, we expect to record a non-cash charge of \$230 million to \$260 million, specific to the electronics (AMSG segment) and the industrial product group (MSSG segment) businesses, which were acquired in 1998. We will record the actual charge in our financial statements for the fiscal year ended June 30, 2002.

SELECTED CONSOLIDATED FINANCIAL INFORMATION

The following table sets forth selected consolidated historical financial data for each of the fiscal years in the five year period ended June 30, 2001. Also included is selected consolidated financial data for the nine-month periods ended March 31, 2002 and 2001. You should read the information set forth in this table in conjunction with our consolidated financial statements and the related notes thereto and other financial data contained elsewhere or incorporated by reference in this prospectus supplement. Interim results for the nine months ended March 31, 2002 are not necessarily indicative of, and are not projections for, the results to be expected for the full fiscal year.

- - - - -

- (1) Amounts reflect costs associated with restructuring and related period costs, and asset impairment charges in the nine months ended March 31, 2002; restructuring and asset impairment charges and costs primarily associated with the JLK tender offer in the nine months ended March 31, 2001; restructuring and asset impairment charges related to operational improvement programs, a loss on divestiture and costs primarily associated with the JLK tender offer in 2001; costs associated with environmental remediation, strategic alternatives, and restructuring and asset impairment charges related to operational improvement programs initiated in 2000; costs associated with the acquisition of shares of Toshiba Tungaloy and restructuring and asset impairment charges related to operational improvement programs initiated in 1999; deferred financing costs related to a postponed public offering intended to have been offered in connection with the acquisition of Greenfield Industries, Inc. in 1998.
- (2) Accounting changes in 2001 reflect the change in the method of accounting for derivative financial instruments (SFAS No. 133).
- (3) For the nine months ended March 31, 2002, amounts are not reflective of a non-cash charge of \$230,000 to \$260,000 related to the adoption of SFAS No. 142. We will record the actual charge in our financial statements for the fiscal year ended June 30, 2002.
- (4) Excluding restructuring, asset impairment and other special charges in the nine months ended March 31, 2002, net income was \$40,141 and diluted earnings per share were \$1.28. Excluding restructuring, asset impairment and other special charges in the nine months ended March 31, 2001, net income was \$48,053 and diluted earnings per share was \$1.57. Excluding restructuring, asset impairment and other special charges in 2001 and the charge for the accounting principle change of \$599, net of tax, net income was \$66,587 and diluted earnings per share were \$2.17. Excluding restructuring, asset impairment and other special charges in 2000 and an extraordinary loss of \$267, net of tax, net income was \$64,689 and diluted earnings per share were \$2.13. Excluding restructuring, asset impairment and

other special charges in 1999, net income was \$54,299 and diluted earnings per share were \$1.82. Excluding restructuring, asset impairment and other special charges in 1998 and the effects of the Greenfield Industries, Inc. acquisition, net income was \$88,697 and diluted earnings per share were \$3.23.

- (5) In 1998, we issued 3.45 million shares of common stock for net proceeds of \$171,439.
- (6) EBITDA is defined as income before provision for income taxes and minority interest, plus interest expense, depreciation and amortization. EBITDA is commonly presented as an indicator of operating performance. It is not, however, intended as an alternative measure of operating results or cash flow from operations as determined in accordance with generally accepted accounting principles in the United States. EBITDA is not necessarily comparable to similarly titled measures for other companies.
- (7) For purposes of calculating this ratio, earnings represents income from continuing operations before fixed charges, minority interest, provision for income taxes and the cumulative effect of accounting changes. Fixed charges includes interest expense, including amounts capitalized and the portion (approximately one-third) of rental expenses considered to be representative of interest expense.
- (8) After giving effect to the application of the proceeds of this notes offering, the common stock offering, the new bank credit facility and the Widia acquisition.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This prospectus supplement contains, in addition to historical information, forward-looking statements. These forward-looking statements involve risk and uncertainties that could cause our actual outcomes to differ materially from the results expressed or implied by the forward-looking statements. See "Special Note Regarding Forward-Looking Statements." You should carefully consider all of the information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus, including the discussion under the caption "Risk Factors" of specific risks involved in an investment in the notes.

In September 2000, we reorganized the financial reporting of our operations to focus on global business units consisting of Metalworking Solutions & Services Group (MSSG), Advanced Materials Solutions Group (AMSG) and JLK/Industrial Supply and corporate functional shared services. Subsequent to the acquisition of the minority shares of JLK, we split the financial reporting of these operations into two units, J&L Industrial Supply (J&L) and Full Service Supply (FSS). We also changed our internal reporting structure to add the operations of an integrated supply business to FSS, that was previously reported in J&L. The results for all periods presented have been restated to conform to the new reporting structure. The presentation of segment information reflects the manner in which we organize segments for making operating decisions and assessing performance.

RESULTS OF OPERATIONS

This discussion of our results of operations is divided into two parts, the first of which addresses our results of operations for the nine months ended March 31, 2002 compared to the nine months ended March 31, 2001, and the second of which addresses our results of operations for the fiscal year ended June 30, 2001 compared to the fiscal year ended June 30, 2000 and the fiscal year ended June 30, 1999. The following discussion should be read in connection with the consolidated financial statements and the related footnotes.

NINE MONTHS ENDED MARCH 31, 2002 COMPARED TO NINE MONTHS ENDED MARCH 31, 2001

SALES

Sales for the nine months ended March 31, 2002 were \$1,180.8 million compared to \$1,365.4 million in the same period a year ago, a decline of 14 percent. Sales declined 12 percent excluding unfavorable foreign currency effects of one percent and less workdays in the nine months ended March 31, 2002. Sales in North America contributed to the majority of this decline due to overall weak market conditions. In local currency, European sales were down six percent compared to the prior year.

GROSS PROFIT MARGIN

Consolidated gross profit margin was 31.7 percent for the nine months ended March 31, 2002, compared with 34.3 percent in same period a year ago. Excluding special charges in each period, the gross profit margin was 31.9 percent in 2002 and 34.3 percent in 2001. The decline in the gross profit margin was due primarily to underutilized capacity from volume declines and an unfavorable customer and product mix, partially offset by continued manufacturing efficiencies from lean initiatives. Foreign currency translation also reduced the margin. Special charges in 2002 related to facility closures including inventory abandonment charges of \$1.7 million and period costs of \$0.7 million. Special charges in 2001 of \$0.4 million related to the write-down of certain product lines that were discontinued as part of a program to streamline and optimize J&L's product offering.

OPERATING EXPENSE

For the nine months ended March 31, 2002, operating expense was \$288.7 million, a decline of 10 percent compared to the same period a year ago, excluding costs of \$2.1 million in the prior year related primarily to the tender offer to acquire the minority shares of JLK Direct Distribution Inc. (JLK). Ongoing cost-cutting and lean initiatives, combined with several short-term savings actions, reduced expenses nearly in line with sales declines. Moreover, the reduction was achieved even as spending on growth programs and research and development was sustained. Excluding foreign exchange, operating expense declined nine percent.

RESTRUCTURING AND ASSET IMPAIRMENT CHARGE

In November 2001, we announced a restructuring program whereby we expect to recognize special charges of \$15 million to \$20 million, including period costs of \$5 million to \$6 million, for the closure of three manufacturing locations and the relocation of the production of a certain product line from another plant, and associated work force reductions. This was done in response to continued steep declines in the end market demand in the electronics and industrial product group's businesses. Additionally, we have implemented other worldwide work force reductions in these segments in reaction to the declines in our end markets. Approximately two-thirds of the special charges will be cash expenditures. We expect to realize ongoing annual benefits of \$8 million to \$10 million by the end of fiscal 2002. These actions are expected to improve our competitiveness and we expect them to be completed by the end of fiscal 2002.

We implemented the measures associated with the closing and consolidation of the AMSG electronics facility in Chicago, IL, and MSSG industrial product group's Pine Bluff, AR and Monticello, IN locations. As a result, we recorded restructuring charges of \$12.0 million for the nine months ended March 31, 2002 related to exit costs associated with these actions, including severance for substantially all 298 employees at these facilities. Additionally in the December 2001 quarter, as part of the closure of the electronics plant, we recorded a non-cash charge of \$0.8 million, net of salvage value, associated with the abandonment and scrapping of inventory. This charge was recorded as a component of cost of goods sold. In the March 2002 quarter, we recorded a charge of \$1.5 million related to severance for 72 individuals, primarily in the MSSG segment. The total charge to date of \$14.3 million includes non-cash items of \$6.2 million.

Through March 31, 2002, we incurred cash expenditures of \$4.3 million resulting in an accrual of \$3.8 million at March 31, 2002. We incurred period costs associated with these actions of \$1.0 million for the nine months ended March 31, 2002, which were expensed as incurred as a component of cost of sales.

In 2001, we began to implement a business improvement plan in the J&L and FSS segments. We expect to substantially complete this plan by the end of fiscal 2002. In the J&L segment for the nine months ended March 31, 2002, we recorded restructuring and asset impairment charges of \$8.9 million. The charges were comprised of a write-down of a portion of the book value of a business system of \$5.3 million, \$1.9 million for severance for 60 individuals, \$1.5 million for facility closures and \$0.2 million for the closure of the German operations. Additionally, as part of the closure of the German operations, we recorded a non-cash charge of \$0.4 million, net of salvage value, in the December 2001 quarter associated with the abandonment and liquidation of inventory in these operations. This charge was recorded as a component of cost of goods sold.

In anticipation of migrating to a new business system, J&L capitalized costs associated with the development of system functionality specifically designed for the J&L business. In the December 2001 quarter, after further evaluation of the development of the system, we determined it was no longer feasible that J&L would use this portion of the business system because the vendor ceased supporting the system. Therefore, we recorded a non-cash charge of

\$5.3 million, representing the portion of costs capitalized in connection with system enhancements specifically for the J&L business.

In the FSS segment for the nine months ended March 31, 2002, we recorded a restructuring charge of \$0.3 million for severance related to 16 individuals. Additionally in our core businesses in 2001, we took actions to reduce our salaried work force in response to the weakened U.S. manufacturing sector. This core-business resize program has been completed.

The costs accrued for all restructuring activities were based on estimates using the latest information available at the time that the accrual was established. We continue to review our business strategies and pursue other cost-reduction activities in all business segments, some of which could result in future charges. Charges incurred for the nine months ended March 31, 2002 and the restructuring accrual at March 31, 2002 are as follows (in thousands):

The expense adjustments for the facility closures were due to incremental costs incurred to exit these facilities. The other expense adjustments relate to reductions in actual amounts paid for severance costs compared to what was initially anticipated. We recorded expense adjustments as a component of restructuring and asset impairment charge.

In 2000, we announced plans to close, consolidate or downsize several plants, warehouses and offices, and associated work force reductions as part of our overall plan to increase asset utilization and financial performance, and to reposition Kennametal to become the premier tooling solutions supplier. The costs charged against the restructuring accrual for the 2000 programs as of March 31, 2002 were as follows (in thousands):

	=====	=====	=====

AMORTIZATION EXPENSE

We adopted Statement of Financial Accounting Standard (SFAS) No. 142, "Goodwill and Other Intangible Assets" on July 1, 2001. As a result of the non-amortization provisions of SFAS No. 142, we ceased amortizing goodwill resulting in amortization expense for the nine months ended March 31, 2002 of \$2.1 million compared to \$18.5 million in the year-ago period.

INTEREST EXPENSE

Interest expense for the nine months ended March 31, 2002 declined 36 percent to \$25.1 million, compared to the same period last year, due to ongoing reduction in debt and lower average borrowing rates. Our average U.S. borrowing rate of 5.06 percent was 220 basis points below year ago levels due to Federal Reserve rate cuts and improved pricing under our bank credit facility due to improved credit ratios.

OTHER EXPENSE (INCOME), NET

For the nine months ended March 31, 2002, other income was \$0.2 million compared to other expense of \$6.8 million in the year-ago period. Fees associated with the accounts receivable securitization program declined \$2.7 million to \$2.0 million in 2002. The decline in these fees was due primarily to lower interest rates in the commercial paper market. The remainder of the decline was due to higher foreign exchange gains of \$1.8 million and lower royalty and other expense.

INCOME TAXES

The effective tax rate for the nine months ended March 31, 2002 was 32.0 percent compared to an effective tax rate of 39.5 percent for the nine months ended March 31, 2001. The pro forma effective tax rate for the nine months ended March 31, 2001 would have been 33.9 percent, reflecting the non-amortization provisions of SFAS No. 142. The remainder of the decline primarily reflects a reduction of the statutory German tax rate effective July 1, 2001.

CHANGE IN ACCOUNTING PRINCIPLE

On July 1, 2000, we adopted SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," resulting in the recording of a loss from the cumulative effect from the change in accounting principle of \$0.6 million, net of tax, or \$0.02 per diluted share. The loss primarily related to the write-down of previously paid foreign currency option premiums.

NET INCOME

Net income for the nine months ended March 31, 2002 was \$23.1 million, or \$0.74 per diluted share, compared to net income of \$43.3 million, or \$1.41 per diluted share, in the same period last year. Pro forma earnings for the nine months ended March 31, 2001 were \$58.0 million, or \$1.89 per diluted share, reflecting the non-amortization provisions of SFAS No. 142. Excluding special charges in each period, net income was \$40.1 million, or \$1.28 per diluted share, in the nine months ended March 31, 2002 compared to pro forma net income of \$63.2 million, or \$2.06 per diluted share, in the nine months ended March 31, 2001. The decline in earnings was attributable to lower sales levels and margins, partially offset by lower operating expense and interest costs, and a decline in our effective tax rate.

Special charges in the nine months ended March 31, 2002 of \$25.0 million, or \$0.54 per diluted share, related to business improvement plans currently being executed. Special charges in the nine months ended March 31, 2001 of \$7.5 million, or \$0.14 per diluted share, related to the J&L and FSS business improvement plans and costs associated with the tender offer to acquire the outstanding shares of J&L, coupled with a charge of \$0.6 million, net of tax, or \$0.02 per diluted share, related to the adoption of SFAS No. 133.

BUSINESS SEGMENT REVIEW

We operate four global business units consisting of Metalworking Solutions & Services Group (MSSG), Advanced Materials Solutions Group (AMSG), J&L Industrial Supply (J&L) and Full Service Supply (FSS).

Metalworking Solutions & Services Group

NINE MONTHS ENDED MARCH 31, -----		
2002	2001	---- (IN THOUSANDS) External
sales.....		
	\$666,006	\$754,759 Intersegment
sales.....		
	86,680	80,481 Operating
income.....		
	68,080	98,930

For the nine months ended March 31, 2002, MSSG sales declined 10 percent compared to the same period last year, excluding unfavorable foreign exchange effects, due predominately to weak market conditions in North America. Most major end markets weakened year-over-year. In North America and Europe, sales were down 16 and three percent, respectively, while Asia was up 15 percent, all in local currency.

Operating income was \$76.2 million compared to \$107.0 million last year, excluding restructuring and related period costs of \$8.1 million and \$1.0 million, respectively, in 2002 and 2001, and goodwill amortization in 2001. The decline in operating income was primarily due to lower sales.

Advanced Materials Solutions Group

NINE MONTHS ENDED MARCH 31, -----		
2002	2001	---- (IN THOUSANDS) External
sales.....		
	\$227,498	\$263,746 Intersegment
sales.....		
	18,014	21,024 Operating
income.....		
	16,699	32,118

Compared to the same period last year, AMSG sales declined 13 percent in the nine months ended March 31, 2002, excluding foreign exchange effects. The decline was predominately attributable to weak market conditions in the electronics business. Operating income was \$23.3 million compared to \$38.6 million last year, excluding restructuring and related period costs in 2002 of \$6.6 million and a restructuring credit of \$0.3 million and goodwill amortization in 2001. The decline was due to lower gross profit from under-utilization of capacity caused by volume declines, primarily in electronics. Restructuring and related period costs in 2002 stemmed from the reorganization of the North American electronics business, including the closure of a plant in Chicago.

J&L Industrial Supply

NINE MONTHS ENDED MARCH 31, -----		
2002	2001	---- (IN THOUSANDS) External
sales.....		
	\$173,997	\$224,708 Intersegment
sales.....		
	1,602	3,026 Operating income
(loss).....		
	(1,725)	4,533

For the nine months ended March 31, 2002, J&L sales declined 18 percent compared to the same period last year, excluding the effects of the divestiture of ATS Industrial Supply, Inc. (ATS). The decline in sales was primarily attributable to weak demand in the broad industrial market. Operating income was \$8.1 million for the nine months ended March 31, 2002 compared to \$12.8 million in the same period last year, excluding special charges in each period and goodwill amortization in 2001. Operating income declined primarily due to the reduction in sales despite the lower cost structure as a result of the business improvement plan. J&L operating income for the nine months ended March 31, 2002 and 2001 was reduced by \$9.8 million and

\$4.0 million, respectively, related to restructuring and asset impairment charges. Additionally, operating income for the nine months ended March 31, 2001 included \$2.1 million of costs primarily related to the tender offer to acquire the outstanding shares of JLK.

Full Service Supply

NINE MONTHS ENDED MARCH 31, -----	
2002	2001
---- (IN THOUSANDS) External	
sales.....	\$113,343
	\$122,178
Intersegment	
sales.....	1,995
	4,562
Operating	
income.....	1,799
	5,944

Compared to the same period last year, FSS sales declined seven percent for the nine months ended March 31, 2002 due to the general weakness in the North American industrial market. Operating income of \$2.1 million, declined \$4.2 million compared to the same period last year, excluding restructuring charges of \$0.3 million in both 2002 and 2001 related to severance. The decline was due to lower sales levels coupled with overall lower gross margins due to higher percentage of sales to the automotive sector.

FISCAL YEAR ENDED JUNE 30, 2001 COMPARED TO FISCAL YEAR ENDED JUNE 30, 2000 AND FISCAL YEAR ENDED JUNE 30, 1999

SALES

Sales of \$1,807.9 million in 2001 increased two percent compared to sales of \$1,866.6 million in 2000, excluding unfavorable foreign exchange effects of three percent due to the stronger U.S. dollar and the effects of fewer workdays in 2001 of two percent. Sales benefited from broad-based end market growth in Europe and sustained growth in Asia. Sales in North American end markets softened throughout 2001, particularly in automotive, due to the slowdown in U.S. manufacturing sector.

Sales for 2000 were \$1,866.6 million, flat compared to sales of \$1,915.0 million in 1999, excluding unfavorable foreign exchange effects and the effects of a divestiture of two and one percent, respectively. Market conditions were soft in many of our served markets in the first half of 2000. Market conditions began to improve in the second half of the year, led by North America, followed by Europe, while Asia Pacific showed steady growth throughout the year.

GROSS PROFIT MARGIN

The consolidated gross profit margin for 2001 was 34.1 percent, 34.7 percent on a constant currency basis. This included a charge of \$3.6 million associated primarily with the write-down of certain product lines that were discontinued as part of a program to streamline and optimize the product offering of J&L. Excluding this charge and period costs associated with facility rationalizations for each period, the gross profit margin was flat compared with 34.3 percent in the prior year, despite weaker sales. Gross margin benefited from productivity improvements, continued implementation of lean manufacturing techniques and maintaining pricing discipline. This was partially offset by higher material costs and energy prices. Period costs included in gross profit in 2001 and 2000 were \$0.6 million and \$2.9 million, respectively, related to the facility closures.

In 2000, the gross profit margin was 34.1 percent compared to 33.6 percent in 1999. The increase in gross margin was predominately due to improved manufacturing variances across most business units as a result of lean manufacturing techniques and strong cost controls, despite lower production levels. The gross margin in 1999 was affected by a \$6.9 million charge related to the implementation of a new program to streamline and optimize the global

metalworking product offering and \$0.4 million of period costs associated with a facility closure. Excluding these charges, the 1999 gross margin would have been 34.0 percent.

OPERATING EXPENSE

In 2001, operating expense declined to \$425.6 million from \$434.1 million in 2000. However, operating expense increased one percent on a constant currency basis. We offset inflationary pressures through restructuring benefits and other productivity improvements. Despite the decline, we incurred incremental costs of approximately \$6.5 million on investments for strategic initiatives, including new sales and marketing programs, productivity programs and our e-business initiative. In 2001, operating expense included \$2.1 million of costs related primarily to the tender offer for the minority shares of JLK. Operating expense for 2000 included a \$3.0 million charge for environmental remediation costs and \$0.8 million for costs incurred and expensed for the evaluation of strategic alternatives related to JLK.

Operating expense declined \$21.8 million, or three percent in local currency, in 2000, down from \$455.9 million in 1999. The improvement was due to our resolve to control costs through ongoing cost and productivity improvement programs. Operating expense for 1999 included a charge of \$3.8 million recorded on the purchase of 4.9 percent of Toshiba Tungaloy stock due to the difference between the cost and the fair market value of the securities on the date the securities were purchased.

RESTRUCTURING AND ASSET IMPAIRMENT CHARGES

In the September 2000 quarter, we began to implement a business improvement plan in the J&L and FSS segments. We anticipate costs of \$15 to \$20 million associated with this plan. We expect to substantially complete this plan by the end of fiscal 2002. In the J&L segment for 2001, we recorded a restructuring and asset impairment charge of \$2.5 million for severance for 115 individuals, \$1.8 million associated with the closure of 11 underperforming satellite locations, including the German operations, and \$0.7 million for the exiting of three warehouses. This included a \$0.4 million non-cash write-down of the book value of certain property, plant and equipment, net of salvage value, that we determined would no longer be utilized in ongoing operations. The charge for exiting the warehouses and the satellite closures included a non-cash write-down, net of salvage value, of \$0.6 million primarily related to inventory that was abandoned and not relocated. J&L also finalized and implemented a program to optimize the overall catalog product offering. We identified certain products that would no longer be offered to customers and scrapped these products, resulting in a non-cash charge of \$3.0 million, net of salvage value. These charges were recorded as a component of cost of goods sold. In the FSS segment for 2001, we recorded restructuring charges of \$0.6 million related to severance for eight individuals. The costs accrued for these plans were based on estimates using the latest information available at the time that the accrual was established. We incurred period costs of \$0.3 million related to these initiatives in 2001 which were included in cost of goods sold as incurred. We expect annualized benefits of approximately \$7 million to be realized beginning in 2002.

Beginning in March 2001, we took actions to reduce our salaried work force in response to the weakened U.S. manufacturing sector. As a result of implementing this core-business resize program, we recorded a restructuring charge of \$4.6 million related to severance for 209 individuals. We expect these actions to result in ongoing annual benefits of approximately \$9 million. This program was completed. We continue to review our business strategies and pursue other cost-reduction activities in all business segments, some of which could result in

future charges. The components of the 2001 charges and the restructuring accrual at June 30, 2001 were as follows:

TOTAL ASSET CASH JUNE 30, CHARGE	WRITE-DOWNS EXPENDITURES 2001	-----	-

	=====		

In November 1999, we announced plans to close, consolidate or downsize several plants, warehouses and offices, and associated work force reductions as part of our overall plan to increase asset utilization and financial performance, and to reposition us to become the premier tooling solutions supplier. These actions have favorably affected our performance. We implemented these programs throughout 2000 and they are substantially complete. The costs accrued for the implemented programs were based upon estimates using the latest information available at the time that the accrual was established. The components of the charges were as follows:

INCREMENTAL INITIAL TOTAL ASSET	PENSION RESTRUCTURING CHARGE	WRITE-DOWNS OBLIGATION LIABILITY	-----	-

	\$18,626 \$(6,378) \$(992) \$11,256			
	=====			

In conjunction with our ongoing review of underperforming businesses, certain assets are reviewed for impairment pursuant to the provisions of SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of." An asset impairment charge of \$1.7 million was recorded, related to a metalworking manufacturing operation in Shanghai, China. This operation became fully operational in 1998 and at the time of review, had not generated the performance that was expected at the time we entered into this market. We performed an in-depth review of the operations, capacity utilization and the local management team, and engaged a consultant to perform an independent review of the same. These reviews enabled us to determine that the market served by this operation is not expected to develop to the extent originally anticipated, but that the operations were in good working order, utilized modern technology, and the management team in place was competent. We also determined that this facility had excess capacity given the level of market demand.

Accordingly, we updated our operating forecast to reflect the current market demand. In comparing the undiscounted projected cash flows of the updated forecast to the net book value of the assets of this operation, we determined that the full value of these assets would not be recoverable. Accordingly, a charge was recorded to adjust the carrying value of the long-lived assets of this operation to fair value. The estimated fair value of these assets was based on various methodologies, including a discounted value of estimated future cash flows.

The product rationalization charge of \$0.1 million represented the

write-down of certain discontinued product lines manufactured in these operations. We manufactured these products

S-26

specifically for the market served by these operations and we determined that these products are no longer salable. This charge has been recorded as a component of cost of goods sold.

We recorded an asset impairment charge of \$2.8 million related to the write-down of equipment in our North American metalworking operations and \$0.3 million in our engineered products operations. In connection with the repositioning of the company, we completed an assessment of the assets currently being used in these operations and determined that these assets were not going to be further utilized in conducting these operations. This amount represented the write-down of the book value of the assets, net of salvage value.

The charge for facility rationalizations related to employee severance for 153 employees and other exit costs associated with the closure or downsizing of a metalworking manufacturing operation in Kingswinford, United Kingdom, a circuit board drill plant in Janesville, Wisc., a German warehouse facility, and several offices in the Asia Pacific region and South America. Included in this charge was an incremental pension obligation of \$0.2 million due to a plan curtailment. This amount was included in the pension obligation and was presented as a component of other liabilities. The charge also included \$3.4 million for employee severance for 41 employees and other exit costs associated with the closure of a mining and construction manufacturing operation in China and the exit of the related joint venture.

We accrued \$7.4 million related to severance packages provided to 171 hourly and salaried employees terminated in connection with a global work force reduction. Included in this charge was an incremental pension obligation of \$0.8 million, incurred as a result of the severance packages provided. This amount was included in the pension obligation and was presented as a component of other liabilities.

The costs related to the asset impairment charges, employee severance and facility rationalizations of \$18.5 million were recorded as restructuring and asset impairment charges. The costs charged against the restructuring accrual as of June 30, 2001 and 2000 were as follows:

BEGINNING CASH JUNE 30, ACCRUAL			
EXPENDITURES ADJUSTMENTS 2000 -----			

--- (IN THOUSANDS) Employee			
severance.....	\$ 6,609		
\$(4,076) \$--	\$2,533	Facility

	-	-----	
Total.....			
\$11,256 \$(5,205) \$--	\$6,051	=====	
	=====	===	=====

JUNE 30, CASH JUNE 30, 2000			
EXPENDITURES ADJUSTMENTS 2001 -----			

-- (IN THOUSANDS) Employee			
severance.....	\$2,533		
\$(2,475) \$ 95 \$	153	Facility	
rationalizations.....	3,518		
(1,296) 47	2,269	-----	---
	-	-----	
Total.....			
\$6,051 \$(3,771) \$142	\$2,422	=====	
	=====	====	=====

In 2001, we incurred period costs of \$0.3 million related to these initiatives and were included in cost of goods sold as incurred. The adjustments to the accruals are due to differences in actual amounts paid to certain individuals and incurred to rationalize facilities compared to what was initially anticipated. These adjustments were recorded as a component of restructuring and asset impairment charge. In the second half of 2001, we realized annual benefits of approximately \$15 million associated with these programs.

In 2000, we incurred period costs of \$0.8 million related to these initiatives, and costs of \$1.7 million associated with the implementation of lean manufacturing techniques, both of which were included in cost of goods sold as incurred. Benefits realized in 2000 approximated this level of cost.

In 1999, we implemented restructuring plans including several programs to reduce costs, improve operations and enhance customer satisfaction. Accruals for these 1999 programs were \$0.4 million and \$1.5 million at June 30, 2001 and 2000, respectively. We recorded additional restructuring expense of \$0.3 million associated with a plant closure due to incremental costs incurred to close this plant, prior to its disposition in 2001. Costs charged against the accrual for the voluntary early retirement plan and the plant closure in 2001 were \$0.4 million and \$1.0 million, respectively. Additionally in 2001, we recorded an adjustment of \$0.4 million related primarily to the recovery of accounts receivable associated with the write-down of an investment in and net receivables from certain mining and construction operations in emerging markets. This adjustment was due to higher collections of outstanding accounts receivable than was initially anticipated and was recorded as a component of restructuring and asset impairment charge.

INTEREST EXPENSE

Interest expense for 2001 declined \$4.7 million to \$50.4 million due primarily to reduced borrowing levels. The 2001 results included \$0.3 million related to the write-down of a portion of deferred financing fees due to the reduction of the availability under our existing US revolving bank credit facility. Excluding this item, interest expense declined nine percent. Our average U.S. borrowing rates of 7.06 percent were 34 basis points higher compared to a year ago due to higher interest rate levels during the first six months of 2001. This was partially offset by improved pricing due to our improved financial condition.

In 2000, interest expense declined \$13.5 million to \$55.1 million due to reduced debt levels, partially offset by higher borrowing rates. Our average U.S. borrowing rates of 6.72 percent were 34 basis points higher compared to 1999 due to the rising interest rate environment, partially offset by improved pricing due to our improved financial condition.

OTHER EXPENSE, NET

For 2001 and 2000, other expense, net of \$11.7 million and \$3.3 million, respectively, included fees of \$5.7 million and \$5.2 million, respectively, related to the accounts receivable securitization program. The increase in these fees was due to higher levels of accounts receivable securitized through this program. In 2001, other expense also included a loss of \$5.8 million associated with the divestiture of ATS. In 2000, other expense was partially offset by a net one-time gain of \$1.4 million from the sale of miscellaneous underutilized assets.

INCOME TAXES

The effective tax rate for 2001 was 39.5 percent compared to an effective rate of 43.5 percent and 42.0 percent, respectively, for 2000 and 1999. The decline in the effective tax rate for 2001 was attributable to successful tax planning initiatives in Europe. The increase in the effective tax rate for 2000 compared to 1999 was directly attributable to higher nondeductible goodwill.

EXTRAORDINARY LOSS ON EARLY EXTINGUISHMENT OF DEBT

In November 1999, we repaid our term loan under the existing US revolving bank credit facility. This resulted in an acceleration of the amortization of deferred financing fees of \$0.4 million, which was recorded as an extraordinary loss of \$0.3 million, net of tax, or \$0.01 per diluted share.

CHANGE IN ACCOUNTING PRINCIPLE

On July 1, 2000, we adopted SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," resulting in the recording of a loss from the cumulative effect from the

change in accounting principle of \$0.6 million, net of tax, or \$0.02 per diluted share. The loss primarily related to the write-down of previously paid foreign currency option premiums.

NET INCOME

Net income for 2001 was \$53.3 million, or \$1.73 per diluted share, compared to \$51.7 million, or \$1.70 per diluted share, in 2000. Excluding special charges in both years, diluted earnings per share were \$2.17 in 2001 compared to \$2.13 in 2000. We experienced significant weakness in key North American markets and unfavorable foreign exchange effects, however, earnings improved due to continued cost control and cost reduction activities, lower interest expense and a reduction in our effective tax rate. Special charges in 2001 of \$22.5 million, or \$0.44 per diluted share, related primarily to the J&L and FSS business improvement programs, the ATS divestiture, the core-business resize program and costs associated with the tender offer for the minority shares of JLK.

Net income for 2000 was \$51.7 million, or \$1.70 per diluted share, compared to \$39.1 million, or \$1.31 per diluted share, in 1999. Excluding special charges in both years, diluted earnings per share were \$2.13 in 2000 compared to \$1.82 in 1999. The increase in earnings in 2000 was attributable to improved operational effectiveness, lean techniques and continued cost discipline. Special charges in 2000 were \$22.9 million, or \$0.43 per diluted share, and were primarily related to operational improvement programs. In 1999, special charges were \$24.6 million, or \$0.51 per diluted share, related to operational improvement programs and a one-time charge incurred in the acquisition of 4.9 percent of Toshiba Tungaloy.

The following table provides a comparison of our reported results and the results excluding special items for 2001, 2000 and 1999:

BUSINESS SEGMENT REVIEW

Metalworking Solutions & Services Group

In the MSSG segment, we provide consumable metalcutting tools and tooling systems to manufacturing companies in a wide range of industries throughout the world. Metalcutting operations include turning, boring, threading, grooving, milling and drilling. Our tooling systems consist of a steel toolholder and an indexable cutting tool such as an insert or drill made from cemented tungsten carbides, high-speed steel or other hard materials. We also provide solutions to our customers' metalcutting needs through engineering services aimed at improving their competitiveness.

2001	2000	1999	----	----	----	(IN
THOUSANDS) External						
sales.....						
\$999,813	\$1,029,395	\$1,046,054				Intersegment

sales.....				
111,780	134,398	108,994	Operating	
income.....				
130,558	131,676	119,702		

In 2001, MSSG external sales increased one percent compared to the prior year, excluding unfavorable foreign exchange effects of four percent. International markets experienced strong year-over-year growth, with particular strength in Europe. However, in North America, sales were

down four percent primarily due to a decline in demand in the automotive market, coupled with significant weakness in the light engineering market. In Europe, sales increased nine percent, in local currency, due to broad-based growth reflecting strength in the machine tool and engineering markets. Demand in the European automotive market remained strong, though at a slightly diminished rate compared to the prior year. Sales in Asia continued to grow, up eight percent in local currency, compared to a year ago.

Operating income in 2001 was \$130.6 million and was reduced by restructuring charges of \$3.3 million, primarily associated with severance costs for 129 people as part of the core-business resize program, and period costs of \$0.2 million associated with facility closures. Excluding restructuring and period costs in each period, operating income declined \$11.0 million, or eight percent, due to lower sales levels in the highly profitable North American market, offset in part by lean initiatives and ongoing cost controls.

External sales in MSSG in 2000 increased one percent compared to 1999, excluding unfavorable foreign currency effects of three percent. Sales in North America were up two percent in local currency compared to 1999 due predominately to strong demand in the automotive and truck markets and, to a lesser extent, increased demand in the oil field services and machine tool end markets, especially in the second half of 2000. Sales in the European metalworking market declined two percent compared to 1999, excluding unfavorable foreign currency translation effects of nine percent. The decline in sales was due to weakness in most served markets, however, sales in automotive and machine tool builder markets were stronger in the second half of 2000. Sales in the Asia Pacific region continued to grow and were up 18 percent, in local currency, compared to 1999.

Operating income in 2000 of \$131.7 million was reduced by restructuring and asset impairment charges of \$11.0 million and period costs of \$2.4 million. Excluding special charges and period costs in each period, operating income increased \$10.1 million, or seven percent, compared to 1999 due to strong cost controls and improved manufacturing performance due to lean techniques, despite lower production levels. Restructuring and asset impairment charges in 2000 resulted from employee severance packages for 135 people, the downsizing of the Kingswinford, United Kingdom plant, closure of a German warehouse facility and several offices in Asia Pacific and South America, and asset impairment charges. Operating income for 1999 included restructuring costs associated with the Solon, Ohio high-speed steel plant closure and product rationalization charges of \$11.1 million and a \$3.8 million charge recorded on the purchase of Toshiba Tungaloy stock. Period costs associated with the Solon plant closing were \$2.1 million and \$0.4 million in 2000 and 1999, respectively.

Advanced Materials Solutions Group

This segment's principal business is the production and sale of cemented tungsten carbide products used in mining and highway construction, engineered applications including circuit board drills, compacts and other similar applications. These products have technical commonality to our core metalworking products. We also sell metallurgical powders to manufacturers of cemented tungsten carbide products.

	2001	2000	1999	----	----	----	(IN THOUSANDS)
sales.....	\$352,933	\$345,447	\$349,210				External
							Intersegment
sales.....	28,167	25,263	29,384				Operating
income.....	43,270	41,204	38,693				

AMSG sales for 2001 increased four percent compared to 2000, excluding unfavorable foreign exchange effects of two percent. Sales benefited from robust growth in energy, mining and engineered products groups due to increased gas and oil exploration and production, and

higher demand for coal. This was partially offset by a decline in electronics which was due to a sharp decline in demand from the telecommunications industry in the last half of 2001.

Operating income for 2001 was \$43.3 million and was reduced by restructuring costs of \$0.9 million, associated primarily with severance costs for 80 people as part of the core-business resize program, and period costs of \$0.1 million associated with a facility closure. Excluding restructuring and period costs in each year, operating income declined \$2.2 million, or five percent, due to operating inefficiencies in the electronics business caused by weak sales, partially offset by sales growth in the other businesses and margin improvement in the energy and mining businesses. Operating income for 2000 was reduced by \$4.8 million related to the closure of a manufacturing operation in China and exit of the related joint venture, the closure of a circuit board drill plant in Janesville, Wisc., employee severance and asset impairment charges. Additionally, period costs of \$0.5 million were incurred in 2000 related to the drill plant closure.

Compared to 1999, AMSG external sales in 2000 increased one percent, excluding unfavorable foreign exchange effects of two percent, due primarily to strong demand for electronic circuit board drills, which increased sales by two percent. This was offset by depressed demand for mining tools in North America and metallurgical powders as a result of weakness in the underground coal and oil and gas exploration end markets, which contributed two percent to the sales decline. Sales to the oil field services end market, contributing one percent to the sales decline, were soft in the first half of 2000, but showed renewed demand in the second half.

Operating income in 2000 of \$41.2 million increased five percent compared to 1999, excluding restructuring charges and period costs, due primarily to higher sales levels, lower manufacturing variances, continued cost controls and lean manufacturing techniques. Restructuring charges of \$5.8 million were incurred in 1999 related to the write-down of an investment in, and net receivables from, international operations in emerging markets as a result of changing market conditions in the regions these operations serve.

J&L Industrial Supply

In this segment, we provide metalworking consumables and related products to small- and medium-sized manufacturers in the United States and the United Kingdom. J&L markets products and services through annual mail-order catalogs and monthly sale flyers, telemarketing, retail stores, the Internet and field sales.

	2001	2000	1999	----	----	----	(IN THOUSANDS)
sales.....							External
	\$296,264	\$333,061	\$368,579				
							Intersegment
sales.....							
	3,823	5,038	4,259				Operating
income.....							
	3,689	17,208	19,812				

In 2001, J&L sales declined nine percent excluding the effect of the ATS disposition of one percent and unfavorable foreign exchange effects. Sales were affected by the automotive downturn and weakening in the broader U.S. industrial market. Operating income in 2001 of \$3.7 million included costs of \$8.0 million associated with the business improvement program and \$2.1 million primarily related to the tender offer to acquire the minority shares of JLK. Excluding special charges in each period, operating income declined \$4.1 million due primarily to lower sales levels, partially offset by operational improvements resulting from the business improvement program. As part of a business improvement plan, J&L recorded a restructuring and asset impairment charge associated with costs related to product pruning initiatives, severance for 115 individuals, the closure of 11 underperforming satellite locations, including the German operations, and the exit of three warehouse locations.

J&L external sales for 2000 were \$333.1 million, a decline of six percent from \$368.6 million in 1999 excluding the effects of the divestiture of the Strong Tool Co. steel mill business in 1999. Net sales decreased primarily due to weakness in the industrial end markets in both the catalog business and the acquired distributors, particularly oil field services and aerospace. Operating income in 2000 declined to \$17.2 million primarily due to lower sales levels. Operating income for 2000 included special charges of \$0.6 million for employee separation costs and \$0.2 million of costs related to the evaluation of strategic alternatives of JLK.

Full Service Supply

In the FSS segment, we provide metalworking consumables and related products to medium-and large-sized manufacturers in the United States and Canada. FSS offers integrated supply programs that provide inventory management systems, just-in-time availability and programs that focus on total cost savings.

	2001	2000	1999	----	----	----	(IN THOUSANDS)
sales.....							External
	\$158,886	\$158,675	\$151,118				Intersegment
sales.....							Operating
income.....	7,541	12,021	15,043				

In 2001, FSS sales were flat compared to 2000 as sales in existing accounts grew five percent, but was tempered by the downturn in the automotive end market. This growth also was offset by a decline in the integrated supply business transferred to FSS in 2001 as this business has relatively higher exposure to the automotive industry. Operating income for 2001, excluding restructuring costs of \$0.6 million, declined by \$3.9 million due to overall lower gross margins caused by a shift in end markets served and higher operating expense due to higher shipping costs incurred to provide enhanced customer service. Restructuring costs in 2001 related to severance costs for eight people incurred as part of the business improvement program.

FSS external sales for 2000 were \$158.7 million, an increase of five percent from \$151.1 million in 1999 due to growth in new and existing FSS programs. Sales growth in 2000, however, was hampered by start-up issues related to the implementation of the new business system. Operating income for 2000 declined to \$12.0 million from \$15.0 million in 1999 due primarily to higher operating expense due to the implementation of the new business system and higher sales levels.

LIQUIDITY AND CAPITAL RESOURCES

Our cash flow from operations is the primary source of financing for capital expenditures, internal growth and debt service payments. The most significant risks associated with our ability to generate sufficient cash flow from operations is the overall level of demand for our products. However, we believe we can adequately control costs and manage our working capital to meet our cash flow needs, including paying interest on the notes, despite low levels of demand.

During the nine months ended March 31, 2002, we generated \$104.4 million in cash flow from operations, a decline of \$29.1 million compared to the same period in 2001. The decline resulted from lower earnings in 2002 of \$20.1 million and lower non-cash charges in 2002 of \$13.7 million, partially offset by higher working capital improvements of \$4.8 million. The working capital improvement included \$17.5 million of proceeds from a new pool of accounts receivable securitized, partially offset by a \$14.3 million reduction in existing pools of securitized accounts receivable, due to overall lower levels of accounts receivable resulting from lower sales levels. Periodically, this can occur when we do not generate sufficient new, qualifying receivables to replenish the pool as a result of an overall reduction in the level or quality, or change in the composition of accounts receivable. We believe our cash flow from operations and borrowing

capacity provide sufficient alternative sources of liquidity in the event of a reduction in the level of securitized accounts receivable.

During 2001, we generated \$187.6 million in cash from operations, compared to \$221.2 million in 2000. The reduction was due to a decline in working capital improvements in 2001 after a robust reduction in 2000. The continued reduction of working capital reflected our initiatives to generate strong cash flow.

Net cash used for investing activities was \$30.9 million for the nine months ended March 31, 2002, a decline of \$48.6 million compared to the nine months ended March 31, 2001. The decline was primarily due to a reduction in the purchase of minority interests of consolidated subsidiaries of \$42.8 million. Our projection of capital expenditures for 2002 is in the range of \$40 to \$50 million primarily to purchase equipment for new product manufacturing and to maintain our facilities. We believe this level of capital spending is sufficient to maintain competitiveness and improve productivity.

Net cash used for investing activities was \$102.5 million in 2001. Compared to the prior year, the increase in net cash used for investing activities of \$59.4 million was primarily due to the repurchase of JLK and other minority interests of \$47.5 million and increased capital spending of \$9.3 million. We believe the level of capital spending in 2001 was sufficient to improve productivity and make necessary improvements to remain competitive.

Net cash used for financing activities was \$75.9 million for the nine months ended March 31, 2002, an increase of \$19.9 million compared to the nine months ended March 31, 2001. This increase primarily was due to higher debt repayments in 2002 of \$28.6 million, offset by higher proceeds from employee stock plans of \$5.3 million and lower treasury stock purchases of \$4.1 million in 2002.

Net cash flow used for financing activities was \$92.2 million in 2001, which compares to \$173.3 million in 2000. This decline was due to lower debt repayments of \$86.4 million coupled with higher company contributions of capital stock to U.S. defined contribution pension plans of \$11.6 million. In 2001, these contributions resulted in the issuance of 386,544 shares of our common stock, with a market value of \$10.8 million. These declines were partially offset by treasury stock repurchases of \$16.5 million. Lower debt repayments were the result of the purchase of the JLK and other minority interests, lower cash flow from operations and the repurchase of treasury stock.

Substantially concurrent with the closing of this issuance of the notes, we expect to enter into a \$650 million 3-year senior unsecured revolving credit facility arranged by J.P. Morgan Securities Inc. We cannot assure you that we will successfully negotiate and arrange this bank credit transaction or a similar transaction or transactions. We intend to use the new bank credit facility to refinance our existing bank credit facilities, which are comprised of a \$700 million 5-year revolving credit facility which matures on August 30, 2002, and a E212 million 3-year revolving credit facility which matures on December 20, 2003. The revolving credit loan under our existing U.S. dollar bank credit facility is classified as a current liability. The effective interest rate on the approximately \$363 million aggregate principal amount of borrowings outstanding under our existing U.S. dollar bank credit facility as of March 31, 2002 was 4.77%, including the effect of our interest rate swap agreements. The effective interest rate on the approximately E180 million aggregate principal amount of borrowings outstanding under our existing Euro bank credit facility as of March 31, 2002 was 4.34%.

Our existing bank credit facilities contain financial and operating covenants, including restrictions on our ability to, among other things, incur additional debt or create, incur or permit the existence of certain liens, and require us to achieve and maintain certain financial ratios, including minimum net worth, maximum leverage ratio and minimum fixed charge coverage ratio. We expect the new bank credit facility to include similar covenants.

In September 2001, we continued our program to repurchase, from time to time, our outstanding capital stock for investment or other general corporate purposes. We purchased 375,000 shares of our capital stock at a total cost of \$12.4 million. As a result of these repurchases, we have completed our repurchase program announced January 31, 1997 of 1.6 million shares. Additionally, we brought the total purchased under the authority of the repurchase program announced in October 2000 to approximately 0.2 million shares. We are permitted to repurchase up to 2.0 million shares under the October 2000 program. The repurchases were financed principally by cash from operations and short-term borrowings. Repurchases may be made from time to time in the open market, in negotiated or other permissible transactions.

On June 18, 1999, we entered into an agreement with a financial institution whereby we securitize, on a continuous basis, an undivided interest in a specific pool of our domestic trade accounts receivable. We are permitted to securitize up to \$100.0 million of accounts receivable under this agreement. The financial institution charges us fees based on the level of accounts receivable securitized under this agreement and the commercial paper market rates plus the financial institution's cost to administer the program. The costs incurred under this program, \$5.7 million, \$5.2 million and \$0.2 million in 2001, 2000 and 1999, respectively, are accounted for as a component of other expense, net. At June 30, 2001 and 2000, we securitized accounts receivable of \$93.7 million and \$88.5 million, respectively, under this program. In 1999, the proceeds from the securitization were used to permanently reduce a portion of our long-term debt.

FINANCIAL CONDITION

Total assets were \$1,746.3 million at March 31, 2002, a decline of four percent compared to June 30, 2001. Net working capital, excluding the revolving credit loan under the existing U.S. revolving bank credit facility of \$362.7 million, was \$373.3 million, down three percent from \$386.7 million at June 30, 2001. Primary working capital as a percentage of sales (PWC%) at March 31, 2002 was 28.1 percent, compared to 27.3 percent at June 30, 2001 and 27.7 percent at March 31, 2001. The decline in net working capital was primarily due to lower sales levels and our focus on controlling growth in these accounts. The increase in PWC% was due to lower sales levels. Inventory turnover was 3.0 at March 31, 2002 and 3.1 at June 30, 2001, compared to 3.0 at March 31, 2001. The total debt-to-total capital ratio declined to 39.9 percent at March 31, 2002 from 42.9 percent at June 30, 2001 and 45.1 percent at March 31, 2001 primarily due to continued focus on debt reduction, despite lower earnings levels.

Primary working capital (PWC) is defined as inventory plus accounts receivable, less accounts payable. PWC% is calculated by averaging beginning of the year and quarter-end balances for PWC, divided by sales for the most recent 12-month period. While PWC% is not a defined term under generally accepted accounting principles in the United States as an alternative measure of asset utilization efficiency, and may not be comparable to other similarly titled measures of other companies, we believe PWC% is a meaningful measure of our efficiency in utilizing working capital to generate sales.

NEW ACCOUNTING STANDARDS

In September 2000, SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities -- a replacement of FASB Statement No. 125" was issued. SFAS No. 140 revises criteria for accounting for asset securitizations, other financial-asset transfers and collateral and introduces new disclosures, but otherwise carries forward most of SFAS No. 125's provisions without amendment. SFAS No. 140 has an immediate impact through new disclosure requirements and amendments of the collateral provisions of SFAS No. 125. These changes must be applied for fiscal years ending after December 15, 2000. The adoption of SFAS No. 140 did not significantly affect our financial condition at June 30, 2001.

In September 2000, the Emerging Issues Task Force (EITF) finalized EITF Issue 00-10, "Accounting for Shipping and Handling Fees and Costs," to address the diversity in the income statement classification of amounts charged to customers for shipping and handling, as well as for costs incurred related to shipping and handling. The Issue requires all amounts billed to a customer in a sale transaction related to shipping and handling to be classified as revenue. The Issue further requires companies to adopt and disclose a policy on the accounting for shipping and handling costs. Such costs may not be netted against revenue, however, disclosure of the amount and classification of these costs is required if material and not included in cost of goods sold. The adoption of this Issue in the June 2001 quarter did not affect reported earnings, however, it resulted in the reclassification of amounts in previously reported financial statements.

In June 2001, the Financial Accounting Standards Board issued SFAS No. 141, "Business Combinations," SFAS No. 142, "Goodwill and Other Intangible Assets," and SFAS No. 143, "Accounting for Asset Retirement Obligations." SFAS No. 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001. We do not believe that the prospective adoption of this standard will have a material impact on our consolidated results for 2002.

SFAS No. 142 changes the accounting for goodwill and certain other intangible assets from an amortization method to an impairment only approach. We adopted SFAS No. 142 effective July 1, 2001 and therefore, goodwill will no longer be amortized to earnings. We will continue to amortize all non-goodwill intangible assets (i.e. patents, non-compete agreements) over their existing remaining useful lives. We incurred expense in 2001 of \$21.0 million related to amortizing goodwill.

Under SFAS No. 142, all goodwill amortization ceased effective July 1, 2001. Material amounts of recorded goodwill attributable to each of our reporting units, including those affected by the restructuring program announced in November 2001, were tested for impairment by comparing the fair value of each reporting unit with its carrying value. As a result of the adoption of this rule, we expect to record a non-cash charge of \$230 million to \$260 million, specific to the electronics (AMSG segment) and the industrial product group (MSSG segment) businesses, which were acquired in 1998 as part of Greenfield Industries. The fair values of these reporting units were determined using a combination of a discounted cash flow analysis and market multiples based upon historical and projected financial information. The final phase of testing, which will narrow this range to an actual charge, is expected to be completed during the June 2002 quarter. The initial phase of the impairment tests was required to be performed within six months of adoption of SFAS No. 142, or December 31, 2001, and is required at least annually thereafter. On an ongoing basis (absent any impairment indicators), we expect to perform our impairment tests during the June quarter, in connection with our annual planning process.

Under SFAS No. 142, the impairment adjustment recognized at adoption of this standard will be reflected as a cumulative effect of a change in accounting principle, effective July 1, 2001. Impairment adjustments recognized after adoption, if any, are required to be recognized as a component of operating expense.

SFAS No. 143 addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. It applies to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development and/or the normal operation of a long-lived asset. We are required to adopt this standard on July 1, 2002 and are preparing a plan for implementation.

In August 2001, SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" was issued. SFAS No. 144 addresses financial accounting and reporting for the impairment of long-lived assets and for long-lived assets to be disposed of and supersedes SFAS No. 121. This statement retains the fundamental provisions of SFAS No. 121 for recognition and measurement of the impairment of long-lived assets to be held and used and

measurement of long-lived assets to be disposed of by sale. The provisions of this standard are effective for fiscal years beginning after December 15, 2001, and interim periods within those fiscal years. We are currently evaluating the effects of this standard and are preparing a plan for implementation.

In April 2002, SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections," was issued. The Statement updates, clarifies and simplifies existing accounting pronouncements. While the technical corrections to existing pronouncements are not substantive in nature, in some instances, they may change accounting practice. The provisions of this standard related to SFAS No. 13, "Accounting for Leases," are effective for transactions occurring after May 15, 2002. All other provisions of this standard must be applied for financial statements issued on or after May 15, 2002, with early application encouraged. We are currently evaluating the effects of SFAS No. 145 and are preparing a plan for implementation.

DISCUSSION OF CRITICAL ACCOUNTING POLICIES

In preparing our financial statements in conformity with accounting principles generally accepted in the United States, we make judgments and estimates about the amounts reflected in our financial statements. As part of our financial reporting process, our management collaborates to determine the necessary information on which to base our judgments and develop estimates used to prepare the financial statements. We use historical experience and available information to make these judgments and estimates. However, different amounts could be reported using different assumptions and in light of different facts and circumstances. Therefore, actual amounts could differ from the estimates reflected in our financial statements. Our significant accounting policies are described in Note 2 of our audited consolidated financial statements included elsewhere in this prospectus supplement. We believe that the following discussion addresses our critical accounting policies.

ACCOUNTING FOR CONTINGENCIES

We accrue for contingencies in accordance with SFAS No. 5, "Accounting for Contingencies," or when it is probable that a liability or loss has been incurred and the amount can be reasonably estimated. Contingencies by their nature relate to uncertainties that require our exercise of judgment both in assessing whether or not a liability or loss has been incurred and estimating any amount of potential loss. The most important contingencies affecting our financial statements include accounts receivable collectibility, inventory valuation, environmental health and safety matters, pending litigation and the realization of deferred tax assets.

LONG-LIVED ASSETS

As required under SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of," we evaluate the recoverability of property, plant and equipment and intangible assets other than goodwill that are amortized whenever events or changes in circumstances indicate the carrying amount of any such assets may not be fully recoverable. Changes in circumstances include technological advances, changes in our business model, capital structure, economic conditions or operating performance. Our evaluation is based upon, among other things, our assumptions about the estimated future undiscounted cash flows these assets are expected to generate. When the sum of the undiscounted cash flows is less than the carrying value, we will recognize an impairment loss. We continually apply our best judgment when performing these evaluations to determine the timing of the testing, the undiscounted cash flows used to assess recoverability and the fair value of the asset.

We evaluate the recoverability of the goodwill and other intangible assets that are not amortized attributable to each of our reporting units as required under SFAS No. 142, by

comparing the fair value of each reporting unit with its carrying value. The fair values of our reporting units are determined using a combination of a discounted cash flow analysis and market multiples based upon historical and projected financial information. We continually apply our best judgment when performing these evaluations to determine the reasonableness of the financial projections used to assess the fair value of each reporting unit.

PENSION AND OTHER POSTRETIREMENT AND POSTEMPLOYMENT BENEFITS

We sponsor these types of benefit plans for a majority of our employees and retirees. We account for these plans as required under SFAS No. 87, "Employers' Accounting for Pensions," SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other than Pensions," and SFAS No. 112, "Employer's Accounting for Postemployment Benefits." Accounting for the cost of these plans requires the estimation of the cost of the benefits to be provided well into the future and attributing that cost over the expected work life for each employee participating in these plans. This estimation requires our judgment about the discount rate used to determine these obligations, expected return on plan assets, rate of future compensation increases, rate of future health care costs, withdrawal and mortality rates and participant retirement age. Differences between our estimates and actual results may significantly affect the cost of our obligations under these plans.

RESTRUCTURING ACTIVITIES

We accrue the cost of our restructuring activities in accordance with Emerging Issues Task Force Issue 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)," depending upon the facts and circumstances surrounding the situation. We exercise our judgment in estimating the total costs of each of these activities. As we implement these activities, the actual costs may differ from the estimated costs due to changes in the facts and circumstances that were not foreseen at the time of our initial cost accrual.

COMMITMENTS AND CONTINGENCIES

We are not aware of factors that are reasonably likely to adversely affect liquidity trends or increase our risk beyond the risk factors outlined herein and in other filings with the SEC.

PURCHASE COMMITMENTS

We have purchase commitments for materials, supplies and plant and equipment as part of the ordinary conduct of business. A few of these commitments extend beyond one year and are based on minimum purchase requirements. In the aggregate, we believe these commitments are not at prices in excess of current market.

OPERATING LEASES

We have entered into operating leases for certain of our manufacturing facilities, warehouses, equipment and office buildings. The effect of these operating leases is not considered significant in relation to our annual cash flow from operations and total outstanding debt.

OTHER CONTRACTUAL OBLIGATIONS

We do not have material financial guarantees or other contractual commitments that are reasonably likely to adversely affect our liquidity.

RELATED PARTY TRANSACTIONS

We do not have any related party transactions that affect our operations, results of operations, cash flow or financial condition.

ENVIRONMENTAL MATTERS

We are involved in various environmental cleanup and remediation activities at several of our manufacturing facilities. In addition, we are currently named as a potentially responsible party (PRP) at several Superfund sites in the United States. In December 1999, we recorded a remediation reserve of \$3.0 million with respect to our involvement in these matters, which is recorded as a component of operating expense. This represents our best estimate of the undiscounted future obligation based on our evaluations and discussions with outside counsel and independent consultants, and the current facts and circumstances related to these matters. We recorded this liability because certain events occurred, including the identification of other PRPs, an assessment of potential remediation solutions and direction from the government for the remedial action plan, that clarified our level of involvement in these matters and our relationship to other PRPs. This led us to conclude that it was probable that a liability had been incurred. Through March 31, 2002, we have incurred costs of \$0.4 million, which were charged to this accrual.

In addition to the amount currently reserved, we may be subject to loss contingencies related to these matters estimated to be up to an additional \$3.0 million. We believe that such undiscounted unreserved losses are reasonably possible but are not currently considered to be probable of occurrence. The reserved and unreserved liabilities could change substantially in the near term due to factors such as the nature and extent of contamination, changes in remedial requirements, technological changes, discovery of new information, the financial strength of other PRPs, the identification of new PRPs and the involvement of and direction taken by the government on these matters.

We maintain a Corporate Environmental, Health and Safety (EH&S) Department, as well as an EH&S Policy Committee, to ensure compliance with environmental regulations and to monitor and oversee remediation activities. In addition, we have established an EH&S administrator at each of our global manufacturing facilities. Our financial management team periodically meets with members of the Corporate EH&S Department and the Corporate Legal Department to review and evaluate the status of environmental projects and contingencies. On a quarterly basis, we establish or adjust financial provisions and reserves for environmental contingencies in accordance with SFAS No. 5, "Accounting for Contingencies."

MARKET RISK

We are exposed to certain market risks arising from transactions that are entered into in the normal course of business. We seek to minimize these risks through our normal operating and financing activities and, when considered appropriate, through the use of derivative financial instruments. We do not enter into derivative transactions for speculative purposes and therefore hold no derivative instruments for trading purposes. Our objective in managing these exposures is to reduce both earnings and cash flow volatility to allow us to focus our attention on our core-business operations. We hedge our foreign exchange and interest rate exposures in a manner that dampens the effect of changes in foreign exchange and interest rates on consolidated results.

A portion of our operations consists of investments in foreign subsidiaries. Our exposure to market risk for changes in foreign exchange rates arises from these investments, intercompany loans utilized to finance these subsidiaries, trade receivables and payables, and firm commitments arising from international transactions. We manage our foreign exchange transaction risk to reduce the volatility of cash flows caused by currency fluctuations through

internal natural offsets, to the fullest extent possible, and foreign exchange contracts. These contracts are designated as hedges of transactions, which will settle in future periods, that otherwise would expose us to foreign currency risk.

In December 2000, we entered into Euro-denominated forward contracts to hedge the foreign exchange exposure of our net investment in Euro-based subsidiaries. Our objective for entering into these contracts was to reduce our exposure to fluctuations in accumulated other comprehensive loss due to exchange rate fluctuations. These forward contracts had a notional amount of E212.0 million and matured in January 2001.

On January 8, 2001, we borrowed E212.0 million under our existing Euro revolving bank credit facility to meet this obligation and designated the foreign exchange exposure under this agreement as a hedge of our net investment in Euro-based subsidiaries. The objective for this designation was to reduce our exposure to fluctuations in accumulated other comprehensive loss due to exchange rate fluctuations. Future changes in the value of borrowings under the existing Euro revolving bank credit facility due to exchange rate fluctuations will be recorded as a component of cumulative translation adjustment, net of tax. At June 30, 2001, a hypothetical change of 10 percent in exchange rates would result in a \$17.9 million increase or decrease in the outstanding balance and a \$10.7 million increase or decrease in the cumulative translation adjustment.

Our foreign exchange hedging program protects portions of our currency exposure from unfavorable exchange rate movements. This exposure arises from anticipated cash collections from foreign subsidiaries on transactions between domestic and foreign subsidiaries. This program utilizes purchased options, range forwards and forward contracts primarily to sell foreign currency. The notional amounts of the contracts translated into U.S. dollars at June 30, 2001 and 2000 rates were \$77.9 million and \$121.7 million, respectively. At June 30, 2001, a hypothetical 10 percent strengthening or weakening of the U.S. dollar would not materially change pretax income related to these positions; however, accumulated other comprehensive loss would change by \$1.5 million. At June 30, 2000, a hypothetical 10 percent strengthening of the U.S. dollar would result in an increase in pretax income of \$7.8 million, while a 10 percent weakening of the U.S. dollar would result in a decrease in pretax income of \$3.2 million, related to these positions.

In June 2001, we accelerated the payment of intercompany sales of product from certain foreign subsidiaries. While this transaction did not affect consolidated June 30, 2001 results, it eliminated a significant portion of hedged anticipated transactions, and therefore, we unwound and discontinued hedge accounting for the related derivative contracts. This resulted in the recognition of gains of \$0.6 million, net of hedge ineffectiveness of \$0.2 million, as a component of other expense, net. A portion of the gain, \$0.2 million, has been deferred in accumulated other comprehensive loss and will be recognized in 2002 as the remaining portion of the anticipated transactions are expected to occur in 2002.

In addition, we may enter into forward contracts to hedge transaction exposures or significant cross-border intercompany loans by either purchasing or selling specified amounts of foreign currency at a specified date. At June 30, 2001 and 2000, we had several outstanding forward contracts to sell foreign currency, with notional amounts, translated into U.S. dollars at June 30, 2001 and 2000 rates, of \$31.8 million and \$26.7 million, respectively. A hypothetical 10 percent change in the applicable 2001 and 2000 year-end exchange rates would result in an increase or decrease in pretax income of \$1.6 million and \$0.8 million, respectively, related to these positions.

Our exposure to market risk for changes in interest rates relates primarily to our long-term debt obligations. We seek to manage our interest rate risk in order to balance our exposure between fixed and floating rates while attempting to minimize our borrowing costs. To achieve these objectives, we primarily use interest rate swap agreements to manage exposure to interest

rate changes related to our borrowings. At June 30, 2001 and 2000, we had interest rate swap agreements outstanding that effectively convert a notional amount of \$200.0 million and \$300.0 million, respectively, of debt from floating to fixed interest rates. At June 30, 2001, these agreements mature at various times between April 2002 and June 2003.

At June 30, 2001 and 2000, we had \$607.1 million and \$699.2 million, respectively, of debt outstanding at effective interest rates of 5.60 percent and 7.11 percent, respectively, including the effect of interest rate swaps. A hypothetical change of 10 percent in our effective interest rate from year-end 2001 and 2000 levels would increase or decrease interest expense by approximately \$2.1 million and \$3.0 million, respectively.

We are exposed to counterparty credit risk for nonperformance and, in the unlikely event of nonperformance, to market risk for changes in interest and currency rates. We manage exposure to counterparty credit risk through credit standards, diversification of counterparties and procedures to monitor concentrations of credit risk. We do not anticipate nonperformance by any of the counterparties.

We recently experienced higher energy and raw material costs due to external market forces. In 2001, we were able to offset the effect of rising prices through cost reduction initiatives, price increases on products sold to customers and existing long-term purchase contracts. We believe our competition also experienced this trend. We will continue to make supply arrangements that meet the future planned operating requirements in a cost-effective manner, but cannot predict that future price increases will not have a material affect on our consolidated results.

Our investment in Toshiba Tungaloy is classified as an available-for-sale security and, therefore, is carried at its quoted market value, adjusted for changes in currency exchange rates. At June 30, 2001 and 2000, the carrying and fair value of our investment was \$12.4 million and \$27.6 million, respectively. A hypothetical change of 10 percent in the quoted market value of this common stock at June 30, 2001 and 2000 would result in a \$1.2 million and \$2.8 million, respectively, increase or decrease in fair value.

EFFECTS OF INFLATION

Despite modest inflation in recent years, rising costs continue to affect our operations throughout the world. We strive to minimize the effects of inflation through cost containment, productivity improvements and price increases under highly competitive conditions.

BUSINESS

OVERVIEW

We are a leading global manufacturer, marketer and distributor of a broad range of cutting tools, tooling systems, supplies and technical services, as well as wear-resistant parts.

We specialize in developing and manufacturing metalworking tools and wear-resistant parts using a specialized type of powder metallurgy. Our metalworking tools are made of cemented tungsten carbides, ceramics, cermets, high-speed steel and other hard materials. We also manufacture and market a complete line of toolholders, toolholding systems and rotary cutting tools by machining and fabricating steel bars and other metal alloys. We also manufacture tungsten carbide products used in engineered applications, mining and highway construction, and other similar applications, including circuit board drills, compacts and metallurgical powders.

BUSINESS STRATEGY

Our aspiration is to become the premier tooling solutions supplier of consumable tools, related supplies and services to the global metalworking industry and to other industries that can benefit from tungsten carbide products. We believe our market-leadership position is the result of our successful implementation of our business strategy, the major elements of which include:

- Strengthen Leading Global Market Position. We are the #1 tooling solutions provider in North America and #2 in the world. We believe our #2 position in Europe will be strengthened upon completion of the Widia acquisition, which combines our complementary European businesses which have little customer overlap.
- Offer Most Comprehensive Range of Products and Services. We strive to provide the most comprehensive product offering in the metalworking industry. As a result of strong research and development and various acquisitions, we market and distribute what we believe to be one of the broadest lines of tools, tooling systems and services typically used by metalworking customers. We also manufacture all of the major consumable tools needed by customers in their metalcutting manufacturing processes.
- Provide Innovative and Technologically Superior Products. We supply high quality and technologically innovative consumable metalcutting tools and tooling systems to the metalworking industry which we believe has been instrumental in achieving our leading market position. We believe we operate one of the most advanced metalworking technology centers in the world. For the first nine months of fiscal 2002, we estimate that 34% of our sales came from products introduced within the last five years.
- Leverage Customer-Focused Selling Culture. We have positioned ourselves to become the premier tooling solutions supplier as well as a full-service tooling manufacturer and distributor. Our solutions-based, value-added services and products differentiate us from our competitors and continue to strengthen our relationships with valued customers allowing us to achieve a high level of customer intimacy.
- Provide Superior Customer Service, Product Availability and Technical Support. Our skills in rapidly filling orders, maintaining high levels of product availability and providing technical product application support are vital to the ability of our customers to meet their production and delivery schedules in a cost-effective manner. Our sophisticated order entry and inventory management systems enable us to ship more than 90 percent of our products from stock. In addition, our technically skilled sales force of more than 900 people provides product selection and application support to enable customers to optimize their industrial processes.
- Maintain Commitment to Strong Balance Sheet and Cash Flow Generation. We are firmly committed to maintaining a strong financial profile. We have generated consistent levels of

free operating cash flow since 1999 and expect to generate at least \$100 million of free cash flow each year in the future. In addition, management has reduced the ratio of total debt to total capital from 51.9% at June 30, 1999 to 39.9% at March 31, 2002 (before we record the non-cash charge related to the adoption of SFAS No. 142).

- Focus on Aggressively Reducing Costs. In November 1999, we embarked on a program to streamline our manufacturing operations in order to continually improve our competitive position. In September 2000, we announced a similar plan focused on improving the operating performance of J&L. Since November 1999, we closed or downsized seven plants and over 30 warehouses and J&L satellite stores. Also, in this same period, we reduced our work force by approximately 1,400 people, or 10%. By the end of fiscal 2003, we expect to have realized annual cost savings of \$35 - 40 million as a result of these actions. We expect to realize further efficiencies from our continuing efforts to reduce our manufacturing and administrative costs through our lean initiatives. In addition, we believe the effective integration of Widia into our European and Asia/Pacific operations will afford further opportunities to increase efficiency and improve productivity.

In addition to the above business strategies, we seek to further improve operating efficiencies, as well as to pursue selected acquisitions that enhance our existing product offerings and strengthen our geographic presence.

BUSINESS SEGMENT REVIEW

Metalworking Solutions & Services Group -- MSSG

In the MSSG segment, we provide consumable metalcutting tools and tooling systems to manufacturing companies in a wide range of industries throughout the world. Metalcutting operations include turning, boring, threading, grooving, milling and drilling. Our tooling systems consist of a steel toolholder and an indexable cutting tool such as an insert or drill made from cemented tungsten carbides, high-speed steel and other hard materials. Other cutting tools include end mills, reamers and taps. We provide solutions to our customers' metalcutting needs through engineering services aimed at improving their competitiveness. We also manufacture cutting tools, drill bits, saw blades and other tools for the consumer market which are marketed under private label and other proprietary brands.

During a metalworking operation, the toolholder is positioned in a machine that provides the turning power. While the workpiece or toolholder is rapidly rotating, the cutting tool insert or drill contacts the workpiece and cuts or shapes the workpiece. The cutting tool insert or drill is consumed during use and must be replaced periodically.

We serve a wide variety of industries that cut and shape metal parts including manufacturers of automobiles, trucks, aerospace components, farm equipment, oil and gas drilling and processing equipment, railroad, marine, power generation equipment, machinery, appliances, factory equipment and metal components, as well as the job shops and maintenance operations. We deliver our products to customers through a direct field sales force, distribution, integrated supply programs, mail-order and e-business.

Advanced Materials Solutions Group -- AMSG

In the AMSG segment, our principal business is the production and sale of cemented tungsten carbide products used in mining and highway construction, engineered applications, including circuit board drills, compacts and other similar applications. These products have technical commonality to our core metalworking products. We also sell metallurgical powders to manufacturers of cemented tungsten carbide products. We also provide application specific component design services and on-site application support services.

Our mining and construction tools are fabricated from steel parts and tipped with cemented carbide. Mining tools, used primarily in the coal industry, include longwall shearer and continuous

miner drums, blocks, conical bits, drills, pinning rods, augers and a wide range of mining tool accessories. Highway construction cutting tools include carbide-tipped bits for ditching, trenching and road planing, grader blades for site preparation and routine roadbed control, and snowplow blades and shoes for winter road plowing. We produce these products for mine operators and suppliers, highway construction companies, municipal governments and manufacturers of mining equipment. We believe we are the world market leader in mining and highway construction tooling.

Our customers use engineered products in manufacturing or other operations where extremes of abrasion, corrosion or impact require combinations of hardness or other toughness afforded by cemented tungsten carbides or other hard materials. We sell these products through a direct field sales force and distribution. We believe we are the largest independent supplier of oil field compacts in the world. Compacts are the cutting edges of oil well drilling bits, which are commonly referred to as "rock bits."

J&L Industrial Supply -- J&L

In this segment, we provide metalworking consumables and related products to small- and medium-sized manufacturers in the United States and the United Kingdom. J&L markets products and services through annual mail-order catalogs and monthly sales flyers, telemarketing, retail stores, the Internet and field sales. J&L distributes a broad range of metalcutting tools, abrasives, drills, machine tool accessories, precision measuring tools, gauges, hand tools and other supplies used in metalcutting operations. The majority of industrial supplies distributed by J&L are purchased from other manufacturers, although the product offering does include Kennametal-manufactured items.

Full Service Supply -- FSS

In the FSS segment, we provide metalworking consumables and related products to medium-and large-sized manufacturers in the United States and Canada. FSS offers integrated supply programs that provide inventory management systems, just-in-time availability and programs that focus on total cost savings. Through FSS programs, large commercially-oriented customers seeking a single source of metalcutting supplies engage us to carry out all aspects of complex metalworking supply processes, including needs assessment, cost analysis, procurement planning, supplier selection, "just-in-time" restocking of supplies and ongoing technical support.

INTERNATIONAL OPERATIONS

Our principal international operations in the MSSG and AMMSG segments are conducted in Western Europe, Canada, the Asia Pacific region, South Africa and Mexico. In addition, we have manufacturing and/or distribution in Israel and South America, and sales agents, distributors and joint ventures in Eastern Europe and other areas of the world. Our Western European operations are integral to our U.S. operations, however, the diversification of our overall operations tend to minimize the impact on total sales and earnings of changes in demand in any one particular geographic area.

MARKETING AND DISTRIBUTION

We sell our manufactured products through the following distinct sales channels: (1) a direct sales force; (2) integrated supply and FSS programs; (3) retail showrooms; (4) mail-order catalogs; (5) a network of independent distributors and sales agents in the United States and certain international markets; and (6) the Internet. Service engineers and technicians directly assist customers with product design, selection and application. In addition, we sell purchased products through FSS programs, retail showrooms, mail-order catalogs and the Internet.

We market our products under various trademarks and tradenames, such as Kennametal*, Hertel*, the letter K combined with other identifying letters and/or numbers*, Block Style K*, Kendex*, Kenloc*, KennaMAX*, Top Notch*, Erickson*, Kyon*, KM*, Drill-Fix*, Fix-Perfect*, Disston*, Chicago Latrobe*, Putnam*, Greenfield*, RTW* and Cleveland*. We also sell products to customers who resell these products under the customers' names or private labels.

RAW MATERIALS AND SUPPLIES

Major metallurgical raw materials consist of ore concentrates, compounds and secondary materials containing tungsten, tantalum, titanium, niobium and cobalt. Although adequate supply of these raw materials currently exists, our major sources for raw materials are located abroad and prices at times have been volatile. For these reasons, we exercise great care in the selection, purchase and inventory availability of raw materials. We also purchase steel bars and forgings for making toolholders, high-speed steel and other tool parts, rotary cutting tools and accessories. We obtain products purchased for use in manufacturing processes and for resale from thousands of suppliers located in the United States and abroad.

RESEARCH AND DEVELOPMENT

Our product development efforts focus on providing solutions to our customers' manufacturing problems and productivity requirements. We use a program, ACE or Achieving a Competitive Edge, to provide discipline and focus for the product development process by establishing "gateways," or sequential tests, during the development process to remove inefficiencies and accelerate improvements. ACE speeds and streamlines development into a series of actions and decision points, combining effort and resources to produce new and enhanced products, faster. ACE assures a strong link between customer needs and corporate strategy, and enables us to gain full benefit from our investment in new product development.

Research and development expenses totaled \$18.9 million, \$19.2 million and \$18.8 million in 2001, 2000 and 1999, respectively. Additionally, certain costs associated with improving manufacturing processes are included in cost of goods sold. We hold a number of patents and licenses, which, in the aggregate, are not material to the operation of our businesses.

SEASONALITY

Our business is not materially affected by seasonal variations. However, to varying degrees, traditional summer vacation shutdowns of metalworking customers' plants and holiday shutdowns often affect our sales levels during the first and second quarters of our fiscal year.

BACKLOG

Our backlog of orders generally is not significant to our operations. We fill approximately 90 percent of all orders from stock, and the balance generally is filled within short lead times.

INDUSTRY OVERVIEW

We estimate the size of our global market for metalworking consumables and wear-resistant parts to be approximately \$13 billion, including an approximately \$8.5 billion market for metalworking consumables and other related products. We believe five significant trends are currently impacting the metalworking industry:

- Continuing advances in customers' metalworking manufacturing technology, requiring more technologically advanced tools;

- - - - -

* Trademark owned by us or one of our subsidiaries.

- Demand for world class capabilities including customer service, technical application support and information and product technology while, at the same time, maintaining or reducing costs;
- Growing demand for suppliers that can provide a complete selection of tools, supplies and services globally;
- Increasing demand from large customers to outsource procurement and inventory management processes through integrated supply programs; and
- Consolidation of manufacturing and of fragmented distribution channels as customers seek a single source of supply for their metalworking needs.

COMPETITION

We are one of the world's leading producers of cemented carbide tools and high-speed steel tools, and maintains a strong competitive position, especially in North America and Europe. We actively compete in the sale of all our products, with approximately 40 companies engaged in the cemented tungsten carbide business in the United States and many more outside the United States. Several competitors are divisions of larger corporations. In addition, several hundred fabricators and toolmakers, many of whom operate out of relatively small shops, produce tools similar to ours and buy the cemented tungsten carbide components for such tools from cemented tungsten carbide producers, including us. Major competition exists from both U.S.-based and international-based concerns. In addition, we compete with thousands of industrial supply distributors.

The principal elements of competition in our businesses are service, product innovation, quality, availability and price. We believe that our competitive strength rests on our customer service capabilities, including multiple distribution channels, our global presence, state-of-the-art manufacturing capabilities, ability to develop solutions to customer needs through new and improved tools, and the consistent high quality of our products. Based upon our strengths, we are able to sell products based on the value added to the customer rather than strictly on competitive prices.

REGULATION

Compliance with government laws and regulations pertaining to the discharge of materials or pollutants into the environment or otherwise relating to the protection of the environment did not have a material effect on our capital expenditures or competitive position for 2001, nor is such compliance expected to have a material effect in the future.

EMPLOYEES

We employed approximately 11,800 persons at March 31, 2002, of which approximately 7,600 were located in the United States and 4,200 in other parts of the world, principally Europe and Asia Pacific. At June 30, 2001, approximately 2,400 employees were represented by labor unions, of which approximately 600 were hourly-rated employees located at five plants in the United States. The remaining 1,800 employees represented by labor unions were employed at fourteen locations outside of the United States. We consider our labor relations to be generally good.

We engaged Buchanan Ingersoll Professional Corporation, the law firm of which Mr. Newlin is President and Chief Executive Officer, to perform services for Kennametal during fiscal 2001 and fiscal 2002.

DESCRIPTION OF THE NOTES

GENERAL

We will issue the notes under an indenture between us and the trustee, Bank One Trust Company, N.A., dated June 19, 2002 and supplemented on June 19, 2002. This prospectus supplement briefly outlines some of the provisions of the indenture, as supplemented. If you would like more information on these provisions, review the indenture and its supplement that we will file with the SEC. See "Where You Can Find More Information" in this prospectus supplement on how to locate the indenture and its supplement. You may also review the indenture and its supplement at the trustee's offices at 100 Broad Street, Columbus, Ohio 43215.

The indenture does not limit the amount of notes that may be issued. The notes issued in this offering will be in an initial principal amount of \$300 million.

The notes will be denominated in U.S. dollars and we will pay principal and interest in U.S. dollars. The notes will not be subject to any conversion, amortization, or sinking fund. We will issue the notes only in fully registered book-entry form without coupons in denominations of \$1,000 and integral multiples of \$1,000, except in the limited circumstances discussed below. You may transfer or exchange the notes without charge at the trustee's Corporate Trust Office in New York City, or at any other office or agency that we maintain for such purpose.

The indenture permits us and our subsidiaries to incur additional secured and unsecured debt. Subject to the limitations described under the section "-- Consolidation, Merger or Sale," the indenture does not contain any other provisions that would protect you from (1) a highly leveraged or similar transaction involving Kennametal; (2) a change of control or (3) a reorganization, restructuring, merger or similar transaction involving Kennametal that may adversely affect you. In addition, subject to the limitations described in "-- Consolidation, Merger or Sale," we may, in the future, sell all of our assets or merge or consolidate with another entity. Indebtedness which we would incur as a result of such a transaction could impair our ability to perform our obligations with respect to the notes.

In the discussion that follows, whenever we talk about paying principal on the notes, we mean at maturity or redemption. Also, in discussing the time for notices and how the different interest rates are calculated, all times are New York City time, unless otherwise noted.

INTEREST RATES AND MATURITY

The notes bear interest at a rate of 7.20% per annum. In each case, the notes will bear interest from June 19, 2002, or from the most recent interest payment date to which interest has been paid or duly provided for, and will be payable semi-annually in cash. We will pay interest on the notes on June 15 to persons who were registered holders at the close of business on June 1 and on December 15 to persons who were registered holders at the close of business on December 1, of each year. The first such payment will be made on December 15, 2002. We will pay the principal and interest on the notes at an office or agency that we will maintain in New York City. However, we may pay such interest by check mailed to the holder at the address listed in the security register.

The notes mature on June 15, 2012. The notes will not be subject to any sinking fund.

REDEMPTION

We may redeem notes at our option at any time. Notes are redeemable in whole or in part in increments of \$1,000 upon no more than 60, and at least 30, days' prior notice. If we do not redeem all the notes at one time, the trustee selects the notes to be redeemed in a manner it determines to be fair and appropriate. Unless we default in payment of the redemption price,

interest on the redeemed notes will cease to accrue on and after the redemption date. If we redeem the notes, we will pay the holders of the notes being redeemed the greater of

- (1) 100% of the principal amount of their redeemed notes; or
- (2) as determined by the Independent Investment Banker, the sum of the present values of the remaining principal amount and scheduled payments of interest on the notes to be redeemed (not including any portion of payments of interest accrued as of the redemption date), discounted to the redemption date in accordance with customary market practice on a semi-annual basis at the Treasury Rate plus 40 basis points;

plus, in each case, accrued and unpaid interest on the redeemed notes to the redemption date.

The present value of payments will be calculated assuming a 360-day year consisting of twelve 30-day months. For purposes of calculating the redemption price, the following terms will have the meanings set forth below:

- Comparable Treasury Issue is the United States Treasury security selected by the Independent Investment Banker as having a maturity comparable to the remaining term of the notes to be redeemed that would be used, at the time of selection and in accordance with customary market practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes.
- Comparable Treasury Price is:
 - the average of the bid and asked prices for the Comparable Treasury Issue (expressed as a percentage of its principal amount) on the third business day preceding the redemption date, as set forth in the daily statistical release (or any successor release) published by the Federal Reserve Bank of New York and designated "Composite 3:30 p.m. Quotations for U.S. Government Securities," or
 - if such release (or any successor release) is not published or does not contain such prices on such business day:
 - the average of the Reference Treasury Dealer Quotations for that redemption date, after excluding the highest and lowest of the Reference Treasury Dealer Quotations, or
 - If the trustee obtains fewer than three Reference Treasury Dealer Quotations, the average of all Reference Treasury Dealer Quotations so received.
- Independent Investment Banker is one of the Reference Treasury Dealers selected by us.
- Reference Treasury Dealer is each of Goldman, Sachs & Co. and J.P. Morgan Securities Inc., and their respective successors (if any of these persons shall cease to be a primary U.S. government securities dealer in New York City, we will substitute for that person someone who is a primary U.S. government securities dealer in New York City).
- Reference Treasury Dealer Quotations are the average, as determined by the trustee, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the trustee by each Reference Treasury Dealer at 5:00 p.m. (New York City time) on the third business day preceding the redemption date.
- Treasury Rate is the rate per annum equal to the semi-annual equivalent yield to maturity of a Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for the redemption date.

RANKING

The notes are senior unsecured obligations and will rank equally with all our existing and future senior unsecured and unsubordinated indebtedness. A substantial portion of our business is conducted through subsidiaries and the notes will be effectively subordinated to all liabilities (including trade payables and guarantees) of our subsidiaries, including guarantees of existing and future bank credit facilities by certain of our domestic subsidiaries. At March 31, 2002, on a pro forma basis after giving effect to this notes offering, our common stock offering, the new bank credit facility and the Widia acquisition, our subsidiaries would have had approximately \$327 million of indebtedness, including \$301 million of guarantees under the new bank credit facility but excluding intercompany indebtedness. As of March 31, 2002, we had approximately \$9 million of secured indebtedness.

FURTHER ISSUANCES

We may from time to time, without notice to or the consent of the registered holders of the notes, create and issue further notes ranking equally and ratably with the notes in all respects (or in all respects except for the payment of interest accruing prior to the issue date of such further notes or except for the first payment of interest following the issue date of such further notes), so that such further notes shall be consolidated and form a single series with the notes and shall have the same terms as to status, redemption or otherwise as the notes.

BOOK-ENTRY NOTES -- REGISTRATION, TRANSFER AND PAYMENT OF INTEREST AND PRINCIPAL

Book-entry notes will be issued in the form of global notes that will be deposited with The Depository Trust Company, New York, New York, or DTC, and will be registered in the name of Cede & Co. (DTC's nominee). The deposit of global notes with, or on behalf of, DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the global notes representing the notes. DTC's records reflect only the identity of its participants to whose accounts the notes are credited, which may or may not be the beneficial owners. The direct participant remains responsible for keeping account of its holdings on behalf of its customers.

Conveyance of notices and other communications by DTC to its participants and by its participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect.

This means that we will not issue certificates to each actual purchaser of the notes. Only direct participants in DTC may purchase under DTC's system. One global note for the notes will be issued and deposited with DTC, who will keep a computerized record of its participants (for example, your broker) whose clients have purchased the notes. The participant will then keep a record of its clients who purchased the notes. Beneficial owners are expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings from the direct participant in DTC. Unless it is exchanged in whole or in part for a certificated note, a global note may not be transferred; except that DTC, its nominees, and their successors may transfer a global note as a whole to one another.

Beneficial interests in global notes will be shown on, and transfers of global notes will be made only through, records maintained by DTC and its participants. Beneficial owners of interests in the global notes must rely on DTC's procedures. Beneficial owners who are not direct participants in DTC must rely on the direct participant's procedures in order to exercise such owner's rights under the global note or the indenture and its supplement. The laws of some jurisdictions require certain purchasers of securities to take physical delivery of such securities in certificated form. Such laws may impair your ability to transfer beneficial interests in a global note representing the notes.

DTC has provided us the following information regarding DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the United States Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered under the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also records the settlement among its participants of securities transactions, such as transfers and pledges, in deposited securities through computerized records for its participants' accounts. This eliminates the need to exchange certificates. The participants in DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations.

DTC's book-entry system is also used by other organizations such as securities brokers and dealers, and banks and trust companies that work through a direct participant in DTC. The rules that apply to DTC and its participants are on file with the SEC.

DTC is owned by a number of its direct participants and by the New York Stock Exchange, Inc., The American Stock Exchange, Inc. and the National Association of Securities Dealers, Inc.

We will wire principal and interest payments to DTC's nominee. The trustee and we will treat DTC's nominee as the owner of the global notes for all purposes. Accordingly, we, the trustee and any paying agent will have no direct responsibility or liability to pay amounts due on the global notes to owners of beneficial interests in the global notes.

It is DTC's current practice, upon the date of payment of principal or interest, to credit its direct participants' accounts on the payment date according to their respective holdings of beneficial interests in the global notes as shown on DTC's records unless DTC believes that it will not receive payment on the payment date. In addition, it is DTC's current practice to assign any consenting or voting rights of Cede & Co. to its direct participants whose accounts are credited with notes on a record date, by using an omnibus proxy. Neither DTC nor Cede & Co. will consent or vote with respect to the global notes. Payments by participants to owners of beneficial interests in the global notes will be governed by the customary practices between the participants and owners of beneficial interests, as is the case with notes held for the account of customers registered in "street name." However, payments to the owners of the beneficial interests will be the responsibility of the participants and not of DTC, the trustee or us.

Notes represented by a global note will be exchangeable for certificated notes with the same terms in authorized denominations only if:

- DTC notifies us that is unwilling or unable to continue as depository or if DTC ceases to be a clearing agency registered under applicable law and a successor depository is not appointed by us within 90 days;
- an Event of Default exists under the indenture and its supplement; or
- we determine that the global notes will be exchanged for certificated notes and notify the trustee of our decision.

CERTIFICATED NOTES -- REGISTRATION, TRANSFER, AND PAYMENT OF INTEREST AND PRINCIPAL

If we issue certificated notes, they will be registered in the name of the noteholder. We will obtain the name of the noteholder from DTC's participants. The notes may be transferred or exchanged, pursuant to administrative procedures in the indenture, without the payment of any service charge (other than any tax or other governmental charge) by contacting the paying agent.

Holders of over \$5 million in principal amount of notes can request that payment of principal and interest be wired to them by contacting the paying agent at least one business day prior to the payment date. Otherwise, payments will be made by check.

The underwriters will make settlement for the notes in immediately available funds. We will make all payments of principal and interest in immediately available funds. The notes will trade in DTC's Same-Day Funds Settlement System until maturity, and secondary market trading activity in the notes will be required by DTC to settle in immediately available funds.

COVENANTS

LIMITATION ON LIENS; SALE AND LEASEBACK TRANSACTIONS

We covenant in the indenture as supplemented that we will not and will not permit any of our Restricted Subsidiaries to:

(Limitation on Liens) create, incur or otherwise cause to exist or become effective any Liens (other than Permitted Liens) of any kind on any asset now owned or hereafter acquired without making effective provision whereby any and all notes then outstanding will be secured by a Lien equally and ratably with any and all other obligations thereby secured for so long as any such obligations are secured;

(Limitation on Sale and Leaseback Transactions) enter into any sale and leaseback of a Principal Property (except for leases, including renewals, of five years or less) unless (1) either we or our Restricted Subsidiary is then permitted under the indenture as supplemented to incur Indebtedness secured by a Lien on such property or (2) within 180 days after such sale and leaseback, we apply to the voluntary retirement of funded debt an amount equal to the greater of the net proceeds of the sale of the property leased in the sale and leaseback or the fair value (in our opinion) of the leased property at the time we entered into such sale and leaseback.

The trustee may waive our compliance with these covenants if the holders of a majority in aggregate principal amount of the notes consent to the waiver. If we comply with the defeasance or covenant defeasance provisions of the indenture, we are not required to comply with such covenants.

KEY DEFINITIONS

- Capitalized Lease Obligation means an obligation that is required to be classified and accounted for as a capitalized lease for financial reporting purposes in accordance with generally accepted accounting principles, and the amount of Indebtedness represented by such obligation shall be the capitalized amount of such obligation determined in accordance with such principles.
- Consolidated Net Worth means the excess of Kennametal and its consolidated subsidiaries' assets over liabilities, plus minority interest, as determined from time to time in accordance with generally accepted accounting principles.
- Consolidated Tangible Assets means, on the date of any determination, total assets less goodwill and other intangibles of Kennametal and its consolidated subsidiaries, in each case as set forth on the most recently available consolidated balance sheet of Kennametal and its consolidated subsidiaries in accordance with generally accepted accounting principles.
- Indebtedness means, with respect to any Person, at any date, any of the following, without duplication, (1) any liability, contingent or otherwise, of such Person (A) for borrowed money (whether or not the recourse of the lender is to the whole of the assets of such Person or only to a portion thereof), (B) evidenced by a note, bond, debenture or similar

instrument or (C) for the payment of money relating to a Capitalized Lease Obligation or other obligation (whether issued or assumed) relating to the deferred purchase price of property; (2) all conditional sale obligations and all obligations under any title retention agreement (even if the rights and remedies of the seller under such agreement in the event of default are limited to repossession or sale of such property), but excluding trade accounts payable arising in the ordinary course of business; (3) all obligations for the reimbursement of any obligor on any letter of credit, banker's acceptance or similar credit transaction other than entered into in the ordinary course of business; (4) all indebtedness of others secured by (or for which the holder of such indebtedness has an existing right, contingent or otherwise, to be secured by) any Lien on any asset or property (including, without limitation, leasehold interests and any other tangible or intangible property) of such Person, whether or not such indebtedness is assumed by such Person or is not otherwise such Person's legal liability; provided, that if the obligations so secured have not been assumed in full by such Person or are otherwise not such Person's legal liability in full, the amount of such indebtedness for the purposes of this definition shall be limited to the lesser of the amount of such indebtedness secured by such Lien or the fair market value of the assets of the property securing such Lien; (5) all indebtedness of others (including all interest and dividends on any Indebtedness or preferred stock of any other Person) for the payment of which is guaranteed, directly or indirectly, by such Person or that is otherwise its legal liability or which such Person has agreed to purchase or repurchase or in respect of which such Person has agreed contingently to supply or advance funds; and (6) obligations in respect of Currency Agreements and Interest Swap Obligations (as such capitalized terms are defined in the indenture).

- Issue Date shall mean the first date on which a note is authenticated by the trustee pursuant to the indenture.
- Lien means any mortgage, pledge, security interest, encumbrance, lien, charge or adverse claim affecting title or resulting in an encumbrance against real or personal property or a security interest of any kind (including, without limitation, any conditional sale or other title retention agreement or lease in the nature thereof which is a Capitalized Lease Obligation).
- Permitted Liens means, with respect to any Person: (1) Liens existing on the Issue Date; (2) Liens on property or assets of, or any shares of stock of or secured debt of, any corporation existing at the time such corporation becomes a Restricted Subsidiary or any of our Restricted Subsidiaries or at the time such corporation is merged into us or any of our Restricted Subsidiaries; (3) Liens in favor of us or any of our Restricted Subsidiaries; (4) Liens in favor of governmental bodies to secure progress or advance payments; (5) Liens securing industrial revenue or pollution control bonds; (6) Liens on Property to secure Indebtedness incurred for the purpose of (a) financing all or any part of the purchase price of such Property incurred prior to, at the time of, or within 180 days after, the acquisition of such Property or (b) financing all or any part of the cost of construction, improvement, development or expansion of any such Property; (7) statutory liens or landlords', carriers', warehouseman's, mechanics', suppliers', materialmen's, repairmen's or other like Liens arising in the ordinary course of business and with respect to amounts not yet delinquent or being contested in good faith by appropriate proceedings, if a reserve or other appropriate provisions, if any, as shall be required in conformity with generally accepted accounting principles shall have been made therefor; (8) Liens incurred in connection with any accounts receivable programs up to an aggregate of \$125 million; (9) Liens on current assets of ours or our Restricted Subsidiaries securing Indebtedness of ours or our Restricted Subsidiaries and Liens in connection with Sale and Leaseback Transactions, provided that at the time of the incurrence of such Indebtedness

or the entering into of such Sale and Leaseback Transaction, the aggregate amount of Indebtedness (other than Indebtedness secured by Liens described in clauses (1) through (8) above) of ours and our Restricted Subsidiaries secured by Liens does not exceed 10% of our Consolidated Tangible Assets; and (10) any extensions, substitutions, replacements or renewals in whole or in part of a Lien (an "existing Lien") enumerated in clauses (1) through (9) above; provided that the Lien may not extend beyond (A) the Property or Indebtedness subject to the existing Lien and (B) improvements and construction on such Property and the Indebtedness secured by the Lien may not exceed the Indebtedness secured at the time by the existing Lien.

- Person means any individual, corporation, partnership, limited partnership, joint venture, association, joint-stock company, trust, unincorporated organization, government or any agency or political subdivision thereof, or any other entity.
- Principal Property means any manufacturing plant or warehouse owned or leased by us or any of our Subsidiaries, the gross book value of which exceeds four percent of Consolidated Net Worth, other than manufacturing plants and warehouses which our Board of Directors by resolution declares, together with all other plants and warehouses previously so declared, is not of material importance to the total business conducted by us and our Restricted Subsidiaries as an entirety.
- Property of any Person means all types of real, personal, tangible, intangible or mixed property owned by such Person whether or not included in our most recent consolidated balance sheet under generally accepted accounting principles.
- Restricted Subsidiary means any of our Subsidiaries that is not an Unrestricted Subsidiary.
- Subsidiary of any Person means (1) any Person of which more than 50% of the total voting power of shares of capital stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time owned or controlled, directly or indirectly, by any Person or one or more of the Restricted Subsidiaries of that Person or a combination thereof, and (2) any partnership, joint venture or other Person in which such Person or one or more of the Restricted Subsidiaries of that Person or a combination thereof has the power to control by contract or otherwise the board of directors or equivalent governing body or otherwise controls such entity.
- Unrestricted Subsidiary means (1) any Subsidiary not organized under the laws of a state of the United States or the District of Columbia and any Subsidiary of such Subsidiary which is not organized under the laws of a state of the United States or the District of Columbia and (2) any of our Subsidiaries that at the time of determination shall be designated an Unrestricted Subsidiary by our Board of Directors and any Subsidiary of such Subsidiary. Our Board of Directors may designate any Subsidiaries (including any newly-acquired or newly-formed Subsidiary) organized under the laws of a state of the United States or of the District of Columbia to be an Unrestricted Subsidiary unless such Subsidiary owns any capital stock of, or owns or holds any Property of, Kennametal or any other Restricted Subsidiary; provided, however, that the Subsidiary to be so designated has total assets of \$35,000,000 or less.

EVENTS OF DEFAULT; MODIFICATION OF INDENTURE

See "-- Indenture Events of Default" on page 11 of the accompanying prospectus for a description of the events of default. See "-- Modification of Indenture" on page 11 of the accompanying prospectus for a description of our right to modify the indenture.

DEFEASANCE AND COVENANT DEFEASANCE

We may elect either:

- to terminate (and be deemed to have satisfied) all our obligations with respect to the notes (except for the obligations to register the transfer or exchange of the notes, to replace mutilated, destroyed, lost or stolen notes, to maintain an office or agency in respect of the notes, to compensate and indemnify the trustee and to punctually pay or cause to be paid the principal of and interest on and any other amounts payable in respect of all notes when due) ("defeasance") or
- to be released from our obligations with respect to certain covenants, including those described above under "-- Covenants" ("covenant defeasance")

upon the deposit with the trustee (and in the case of a defeasance, 121 days after such defeasance), in trust for such purpose, of money and/or U.S. Government Obligations (as defined in the indenture) which through the payment of principal and interest in accordance with their terms will provide money, in an amount sufficient (in the opinion of a nationally recognized firm of independent public accountants) to pay the principal of, interest on and any other amounts payable in respect of the outstanding notes. Such a trust may be established only if, among other things, we have delivered to the trustee an opinion of counsel (as specified in the indenture) with regard to certain matters, including an opinion that the holders of the notes will not recognize income, gain or loss for federal income tax purposes as a result of such deposit and discharge and will be subject to federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance or covenant defeasance had not occurred.

CONSOLIDATION, MERGER OR SALE

We may not merge or consolidate with any entity, sell or lease substantially all of our assets or assign our obligations under the indenture to another entity unless:

- the successor entity is organized and exists under the laws of the United States, any state thereof, or the District of Columbia;
- the successor entity expressly assumes our obligation to pay the principal, and premium, if any, and interest on the notes and to perform and observe all the covenants and conditions of the indenture binding on us; and
- immediately after any such merger, consolidation, or sale, no default or event of default has occurred and is continuing under the indenture.

What might constitute the sale of "all or substantially all" of our assets as used in the indenture varies according to the facts and circumstances of a particular sale transaction. This term has no clearly established meaning under New York law (which governs the indenture) and is subject to judicial interpretation. For these reasons, it may be unclear if a disposition of assets by us would be subject to this provision.

THE TRUSTEE

Bank One Trust Company, N.A. is the trustee under the indenture and the supplemental indenture.

IMPORTANT UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

This section summarizes some of the U.S. federal income tax considerations relating to the purchase, ownership, and disposition of the notes. This summary does not provide a complete analysis of all potential tax considerations. The information provided below is based on existing authorities. These authorities may change, or the Internal Revenue Service (the "IRS") or a court might interpret the existing authorities differently, possibly on a retroactive basis. In either case, the tax consequences of purchasing, owning or disposing of notes could differ from those described below. The summary generally applies only to "U.S. Holders" that purchase notes in the initial offering at their issue price and hold the notes as "capital assets" (generally, for investment). For this purpose, U.S. Holders include citizens or residents of the United States and corporations organized under the laws of the United States or any state. Trusts are U.S. Holders if they are subject to the primary supervision of a U.S. court and the control of one of more U.S. persons. Special rules apply to nonresident alien individuals and foreign corporations and trusts ("Non-U.S. Holders"). This summary describes some, but not all, of these special rules. For U.S. federal income tax purposes, income earned through a foreign or domestic partnership or similar entity is attributed to its owners. Accordingly, if a partnership holds notes, the tax treatment of a holder will generally depend on the status of the partner and the activities of the partnership. The summary generally does not address tax considerations that may be relevant to particular investors because of their specific circumstances, or because they are subject to special rules. Finally, the summary does not describe the effect of the federal estate and gift tax laws on U.S. Holders or the effects of any applicable foreign, state, or local laws.

Investors considering the purchase of notes should consult their own tax advisors regarding the application of the U.S. federal income tax laws to their particular situations and the consequences of federal estate and gift tax laws, foreign, state and local laws, and tax treaties.

U.S. HOLDERS

TAXATION OF INTEREST

U.S. Holders will be required to recognize as ordinary income any interest paid or accrued on the notes, in accordance with their regular method of accounting. In general, if the terms of a debt instrument entitle a holder to receive payments other than fixed periodic interest that exceed the issue price of the instrument, the holder may be required to recognize additional interest as "original issue discount" over the term of the instrument. We believe that the notes will not be issued with original issue discount.

SALE, EXCHANGE OR REDEMPTION OF THE NOTES

A U.S. Holder will generally recognize capital gain or loss if the holder disposes of a note in a sale, exchange or redemption. The holder's gain or loss will equal the difference between the proceeds received by the holder and the holder's adjusted tax basis in the note. The proceeds received by the holder will include the amount of any cash and the fair market value of any other property received for the note. The holder's tax basis in the note will generally equal the amount the holder paid for the note. The portion of any proceeds that is attributable to accrued interest will not be taken into account in computing the holder's capital gain or loss. Instead, that portion will be recognized as ordinary interest income to the extent that the holder has not previously included the accrued interest in income. The gain or loss recognized by a holder on a disposition of the note will be long-term capital gain or loss if the holder held the note for more than one year. Long-term capital gains of non-corporate taxpayers are taxed at lower rates than those applicable to ordinary income. The deductibility of capital losses is subject to limitation.

SPECIAL TAX RULES APPLICABLE TO NON-U.S. HOLDERS

TAXATION OF INTEREST

Payments of interest to Non-U.S. Holders are generally subject to U.S. federal income tax at a rate of 30 percent, collected by means of withholding by the payor. Payments of interest on the notes to most Non-U.S. Holders, however, will qualify as "portfolio interest," and thus will be exempt from the withholding tax, if the holders certify their nonresident status as described below. The portfolio interest exception will not apply to payments of interest to a Non-U.S. Holder that

- owns, directly or indirectly, at least 10 percent of our voting stock,
- is a "controlled foreign corporation" that is related to us through stock ownership, or
- is a bank whose receipt of interest on the notes is described in section 881(c)(3)(A) of the Internal Revenue Code of 1986, as amended.

In general, a foreign corporation is a controlled foreign corporation if at least 50 percent of its stock is owned, directly or indirectly, on any day during the taxable year by one or more U.S. persons that each owns, directly or indirectly, at least 10 percent of the corporation's voting stock.

The portfolio interest exception and several of the special rules for Non-U.S. Holders described below apply only if the holder certifies its nonresident status. A Non-U.S. Holder can meet this certification requirement by providing a Form W-8BEN or appropriate substitute form to us or our paying agent. If the holder holds the note through a financial institution or other agent acting on the holder's behalf, the holder will be required to provide appropriate documentation to the agent. The holder's agent will then be required to provide certification to us or our paying agent, either directly or through other intermediaries. For payments made to a foreign partnership, the certification requirements generally apply to the partners rather than the partnership.

SALE, EXCHANGE OR REDEMPTION OF NOTES

Non-U.S. Holders generally will not be subject to U.S. federal income tax on any gain realized on the sale, exchange, or other disposition of notes. This general rule, however, is subject to several exceptions. For example, the gain would be subject to U.S. federal income tax if

- the gain is effectively connected with the conduct by the Non-U.S. Holder of a U.S. trade or business,
- the Non-U.S. Holder had previously been a citizen or resident of the United States and thus is subject to special rules that apply to expatriates, or
- the Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are satisfied.

INCOME OR GAINS EFFECTIVELY CONNECTED WITH A U.S. TRADE OR BUSINESS

The preceding discussion of the tax consequences of the purchase, ownership or disposition of notes by a Non-U.S. Holder assumes that the holder is not engaged in a U.S. trade or business. If any interest on the notes or gain from the sale, exchange or other disposition of the notes is effectively connected with a U.S. trade or business conducted by the Non-U.S. Holder, then the income or gain will be subject to U.S. federal income tax at regular graduated rates in the same manner as the income or gain of a U.S. Holder. If the Non-U.S. Holder is eligible for the benefits of a tax treaty between the United States and the holder's country of residence, any "effectively connected" income or gain will generally be subject to U.S. federal income tax only if

it is also attributable to a permanent establishment maintained by the holder in the United States. Payments of interest that are effectively connected with a U.S. trade or business, and therefore included in the gross income of a Non-U.S. Holder, will not be subject to the 30 percent withholding tax. To claim exemption from withholding, the holder must certify its qualification, which can be done by filing a Form W-8ECI. If the Non-U.S. Holder is a corporation, that portion of its earnings and profits that is effectively connected with its U.S. trade or business would generally be subject to a "branch profits tax." The branch profits tax rate is generally 30 percent, although an applicable tax treaty might provide for a lower rate.

U.S. FEDERAL ESTATE TAX

The estates of nonresident alien individuals are subject to U.S. federal estate tax on property with a U.S. situs. The notes will not be U.S. situs property as long as interest on the notes paid immediately before the death of the holder would have qualified as portfolio interest exempt from withholding tax (without regard to whether the holder provides the required certification) as described above under "Special Tax Rules Applicable to Non-U.S. Holders -- Taxation of Interest," and provided that the interest payments with respect to the notes would not have been, if received immediately before the death of the holder, effectively connected with the conduct of a United States trade or business by such holder. The U.S. federal estate tax liability of the estate of a nonresident alien may be affected by a tax treaty between the United States and the decedent's country of residence.

BACKUP WITHHOLDING AND INFORMATION REPORTING

Unless a U.S. Holder is an exempt recipient, such as a corporation, interest and proceeds received from the sale of the notes will generally be subject to information reporting and will also be subject to U.S. federal backup withholding tax at the applicable rate (currently 30%) if the holder fails to supply an accurate taxpayer identification number or otherwise fails to comply with applicable United States information reporting or certification requirements.

We must also report to the IRS annually and to Non-U.S. Holders the amount of interest paid to such Non-U.S. Holders any tax withheld with respect to such interest payments, regardless of whether withholding was required. Copies of the information returns reporting such interest payments and any withholding may also be made available to the tax authorities in other jurisdictions under the provisions of an applicable income tax treaty.

In general, no backup withholding will be required with respect to payments of interest we make with respect to the notes if a Non-U.S. Holder has provided us with a Form W-8BEN (or a suitable substitute form) and we do not have actual knowledge or reason to know that the holder is a United States person. In addition, no backup withholding will be required regarding a sale or other disposition of the notes even if made within the United States or through certain United States financial intermediaries if the payor receives the Form described above and does not have actual knowledge or reason to know that the holder is a United States person or if the holder can otherwise establish an exemption.

Any amounts withheld under the backup withholding rules will be allowed as a credit against a holder's U.S. federal income tax liability provided the required information is furnished to the IRS.

The preceding discussion of certain U.S. federal income tax considerations is for general information only. It is not tax advice. Each prospective investor should consult its own tax advisor regarding the particular U.S. federal, state, local, and foreign tax consequences of purchasing, holding, and disposing of our notes, including the consequences of any proposed change in applicable laws.

COMMON STOCK OFFERING

Concurrent with this notes offering, we are undertaking a public offering of 3,200,000 shares of our capital stock, par value of \$1.25 per share (common stock), or 3,680,000 shares if the underwriters exercise their option to purchase additional shares from us in full. Net proceeds, after deducting underwriting discounts and commissions and offering expenses, from the common stock offering are expected to be approximately \$108.8 million, or \$125.1 million if the underwriters exercise their option to purchase additional shares from us in full. We expect to use the net proceeds together with the net proceeds of this notes offering and borrowings under the new bank credit facility, to repay senior bank indebtedness, to pay the purchase price of the Widia acquisition and for general corporate purposes, including capital expenditures, other acquisitions and investments. See "Use of Proceeds." Offers for our common stock are only being made by delivery of a separate prospectus supplement. This notes offering and the common stock offering are independent offerings and are not conditioned upon each other.

UNDERWRITING

We and the underwriters named below have entered into an underwriting agreement with respect to the notes. Subject to certain conditions, each underwriter has severally agreed to purchase the principal amount of notes indicated in the following table.

Principal Amount of Underwriters Notes -----	
----- Goldman, Sachs &	
Co.....	\$ 90,000,000
J.P. Morgan Securities	
Inc.....	90,000,000
Brothers Inc.....	
18,750,000 Banc One Capital Markets,	
Inc.....	18,750,000
Securities, Inc.....	
18,750,000 PNC Capital Markets,	
Inc.....	18,750,000
Mitsubishi International plc.....	
18,750,000 NatCity Investments,	
Inc.....	12,750,000
Comerica	
Securities.....	
6,750,000 The Royal Bank of Scotland	
plc.....	6,750,000
Total.....	
	\$300,000,000 =====

The underwriters are committed to take and pay for all of the notes being offered, if any are taken.

Notes sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus supplement. Any notes sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price of up to 0.60% of the principal amount of the notes. Any such securities dealers may resell any notes purchased from the underwriters to certain other brokers or dealers at a discount from the initial public offering price of up to 0.25% of the principal amount of the notes. If all the notes are not sold at the initial public offering price, the underwriters may change the offering price and the other selling terms.

The notes are a new issue of securities with no established trading market. We have been advised by the underwriters that the underwriters intend to make a market in the notes but are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes.

In connection with this offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of notes than they are required to purchase in this offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while this offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

Each underwriter has represented, warranted and agreed that: (1) it has not offered or sold and, prior to the expiry of a period of six months from the closing date, will not offer or sell any notes to persons in the United Kingdom except to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or otherwise in circumstances which have not resulted and will not result in an offer to the public in the United Kingdom within the meaning of the Public Offers of Securities Regulations 1995; (2) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 (FSMA)) received by it in connection with the issue or sale of any notes in circumstances in which section 21(1) of the FSMA does not apply to us; and (3) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom.

The notes may not be offered, sold, transferred or delivered in or from The Netherlands, as part of their initial distribution or as part of any re-offering, and neither this prospectus supplement nor any other document in respect of this notes offering may be distributed or circulated in The Netherlands, other than to individuals or legal entities which include, but are not limited to, banks, brokers, dealers, institutional investors and undertakings with a treasury department, who or which trade or invest in securities in the conduct of a business or profession.

We estimate that our share of the total expenses of this notes offering, excluding underwriting discounts and commissions, will be approximately \$0.7 million. Goldman, Sachs & Co. has agreed to reimburse us for certain of our expenses incurred in connection with the offering of the notes.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933.

Certain of the underwriters and their affiliates have provided from time to time, and expect to provide in the future, investment and commercial banking and financial advisory services to us and our affiliates in the ordinary course of business, for which they have received and may continue to receive customary fees and commissions. Goldman, Sachs & Co., J.P. Morgan Securities Inc. and Lehman Brothers Inc. are also acting as underwriters for the concurrent offering of common stock.

J.P. Morgan Securities Inc. will act as lead arranger for our new bank credit facility and is an affiliate of JPMorgan Chase Bank, which is expected to be the administrative agent and a lender under our new bank credit facility. The Royal Bank of Scotland plc is an affiliate of Citizens Bank of Pennsylvania, which is expected to be a lender under our new bank credit facility. PNC Capital Markets, Inc. is an affiliate of PNC Bank, National Association, which is a syndication agent and a lender under each of our existing bank credit facilities and is expected to be a lender under our new bank credit facility. Fleet Securities, Inc. is an affiliate of Fleet Capital Corporation, which is a syndication agent and a lender under our existing U.S. dollar bank credit facility and is expected to be a lender under our new bank credit facility. NatCity Investments, Inc. is an affiliate of National City Bank of Pennsylvania, which is a lender under our existing U.S. dollar bank credit facility and is expected to be a lender under our new bank credit facility. Comerica Securities is an affiliate of Comerica Bank, which is a lender under our existing U.S. dollar bank credit facility and is expected to be a lender under our new bank credit facility. Tokyo-Mitsubishi International plc is an affiliate of Bank of Tokyo-Mitsubishi Trust Company, which is a lender under each of our existing bank credit facilities and is expected to be a lender under our new bank credit facility. Banc One Capital Markets, Inc. is an affiliate of Bank One, NA, which is a lender under each of our existing bank credit facilities and is expected to be a lender under our new bank credit facility. Bank One Trust Company, N.A., an affiliate of Banc One Capital Markets, Inc., is the trustee for the notes and will receive customary fees in connection with its services. Our

borrowings under each of our existing bank credit facilities are expected to be repaid with the proceeds of this notes offering and the common stock offering and borrowings under our new bank credit facility. As a result of these repayments, each of PNC Bank, National Association, Fleet Capital Corporation, National City Bank of Pennsylvania, Comerica Bank, Bank of Tokyo-Mitsubishi Trust Company and Bank One, NA will receive its proportionate share of these repayments based upon its commitment level under each of our existing bank credit facilities.

J.P. Morgan Securities Inc. will make the notes available for distribution on the Internet through a proprietary Web site and/or a third-party system operated by Market Axess Inc., an Internet-based communications technology provider. Market Axess Inc. is providing the system as a conduit for communications between J.P. Morgan Securities Inc. and its customers and is not a party to any transactions. Market Axess Inc., a registered broker-dealer, will receive compensation from J.P. Morgan Securities Inc. based on transactions J.P. Morgan Securities Inc. conducts through the system. J.P. Morgan Securities Inc. will make the notes available to its customers through the Internet distributions, whether made through a proprietary or third-party system, on the same terms as distributions made through other channels.

This offering is being conducted pursuant to Conduct Rule 2710(c)(8) of the National Association of Securities Dealers.

LEGAL MATTERS

The validity of the notes being offered by this prospectus supplement will be passed upon for us by Buchanan Ingersoll Professional Corporation, Pittsburgh, Pennsylvania. William R. Newlin, Chairman of the Board of Kennametal, is a shareholder in Buchanan Ingersoll Professional Corporation. As of March 31, 2002, Mr. Newlin owned 25,368 shares of common stock and held stock credits representing approximately 36,956 shares of common stock and options to acquire 141,000 shares of common stock. Certain legal matters in connection with the offering will be passed upon for the underwriters by Simpson Thacher & Bartlett, New York, New York. Simpson Thacher & Bartlett will rely as to matters of Pennsylvania law upon the opinion of Buchanan Ingersoll Professional Corporation.

EXPERTS

The consolidated financial statements of Kennametal as of June 30, 2001 and June 30, 2000 and for each of the three years in the period ended June 30, 2001, incorporated by reference in this prospectus supplement and in the registration statement, of which this prospectus supplement is a part, have been audited by Arthur Andersen LLP, independent public accountants, as indicated in their reports with respect thereto, and are incorporated by reference in the registration statement in reliance upon the authority of said firm as experts in accounting and auditing in giving said reports.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and special reports, as well as proxy statements and other information with the SEC. You may read and copy any document we file with the SEC at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. You may obtain further information about the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Our SEC filings are also available to the public over the Internet at the SEC's web site at <http://www.sec.gov>, which contains reports, proxy statements and other information regarding registrants like us that file electronically with the SEC.

This prospectus supplement is part of a registration statement on Form S-3 filed by us with the SEC under the Securities Act. As permitted by SEC rules, this prospectus supplement does

not contain all of the information included in the registration statement and the accompanying exhibits filed with the SEC. You may refer to the registration statement and its exhibits for more information.

The SEC allows us to "incorporate by reference" into this prospectus supplement the information we file with the SEC. This means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be part of this prospectus supplement. If we subsequently file updating or superseding information in a document that is incorporated by reference into this prospectus supplement, the subsequent information will also become part of this prospectus supplement and will supersede the earlier information.

We are incorporating by reference the following documents that we have filed with the SEC:

- our Annual Report on Form 10-K for the year ended June 30, 2001;
- our Quarterly Reports on Form 10-Q for the quarters ended September 30, 2001, December 31, 2001 and March 31, 2002;
- our Current Reports on Form 8-K for the events dated May 6, 2002 (as amended by our Form 8-K/A filed on May 8, 2002), May 1, 2002 (as amended by our Form 8-K/A filed on May 17, 2002) and March 21, 2002; and
- our definitive proxy statement dated September 13, 2001 with respect to the Annual Meeting of Shareowners held on October 30, 2001.

We are also incorporating by reference into this prospectus supplement all of our future filings with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act until this offering has been completed.

You may obtain a copy of any of our filings which are incorporated by reference, at no cost, by writing to or telephoning us at the following address:

Kennametal Inc.

KENNAMETAL INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. The condensed consolidated financial statements should be read in conjunction with the Notes to Consolidated Financial Statements included in our 2001 Annual Report. The condensed consolidated balance sheet as of June 30, 2001 was derived from the audited balance sheet included in our 2001 Annual Report. These interim statements are unaudited; however, we believe all adjustments necessary for a fair presentation were made. All such adjustments are of a normal recurring nature unless otherwise disclosed. The results for the three and nine months ended March 31, 2002 and 2001 are not necessarily indicative of the results to be expected for a full fiscal year. Unless otherwise specified, any reference to a "year" is to a fiscal year ended June 30. We reclassified certain amounts in the prior years' condensed consolidated financial statements to conform with the current year presentation.
2. Inventories are stated at lower of cost or market. We use the last-in, first-out (LIFO) method for determining the cost of a significant portion of our U.S. inventories. We determine cost for the remainder of our inventories under the first-in, first-out (FIFO) or average cost methods. We used the LIFO method of valuing inventories for approximately 55 percent of total inventories at March 31, 2002. Because inventory valuations under the LIFO method are based on an annual determination of quantities and costs as of June 30 of each year, the interim LIFO valuations are based on our projections of expected year-end inventory levels and costs. Therefore, the interim financial results are subject to any final year-end LIFO inventory adjustments.

Inventories as of the balance sheet dates consisted of the following (in thousands):

	MARCH 31, 2002	JUNE 30, 2001		
			-----	-----
			Finished	
goods.....				
	\$273,035	\$284,801	Work in process and powder

	(46,667)	(37,941)	-----	-----
			Total	
inventories.....				
	\$351,129	\$373,221	=====	=====

3. We are involved in various environmental cleanup and remediation activities at several of our manufacturing facilities. In addition, we are currently named as a potentially responsible party (PRP) at several Superfund sites in the United States. In December 1999, we recorded a remediation reserve of \$3.0 million with respect to our involvement in these matters, which was recorded as a component of operating expense. This represents our best estimate of the undiscounted future obligation based on our evaluations and discussions with outside counsel and independent consultants, and the current facts and circumstances related to these matters. We recorded this liability because certain events occurred, including the identification of other PRPs, an assessment of potential remediation solutions and direction from the government for the remedial action plan that clarified our level of involvement in these matters and our relationship to other PRPs. This led us to conclude that it was probable a liability had been incurred. Through March 31, 2002, we incurred costs of \$0.4 million, which were charged against this accrual.

In addition to the amount currently reserved, we may be subject to loss contingencies related to these matters estimated to be up to an additional \$3.0 million. We believe that such undiscounted unreserved losses are reasonably possible but are not currently considered to be probable of occurrence. The reserved and unreserved liabilities for all environmental concerns could change substantially in the near term due to factors such as the nature and

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

extent of contamination, changes in remedial requirements, technological changes, discovery of new information, the financial strength of other PRPs, the identification of new PRPs and the involvement of and direction taken by government agencies on these matters.

We maintain a Corporate Environmental, Health and Safety (EH&S) Department, as well as an EH&S Policy Committee, to ensure compliance with environmental regulations and to monitor and oversee remediation activities. In addition, we have established an EH&S administrator at each of our global manufacturing facilities. Our financial management team periodically meets with members of the Corporate EH&S Department and the Corporate Legal Department to review and evaluate the status of environmental projects and contingencies. On a quarterly basis, we establish or adjust financial provisions and reserves for environmental contingencies in accordance with Statement of Financial Accounting Standard (SFAS) No. 5, "Accounting for Contingencies."

4. For purposes of determining the number of dilutive shares outstanding, weighted average shares outstanding for basic earnings per share calculations were increased due solely to the dilutive effect of unexercised stock options for the three and nine months ended March 31, 2002 and 2001. Unexercised stock options to purchase our capital stock of 0.6 million and 1.5 million for the three months ended March 31, 2002 and 2001, respectively, and 1.2 million and 1.6 million shares for the nine months ended March 31, 2002 and 2001, respectively, are not included in the computation of diluted earnings per share because the option price was greater than the average market price.
5. Comprehensive income for the three and nine months ended March 31, 2002 and 2001 is as follows (in thousands):

	THREE MONTHS ENDED MARCH 31,		NINE MONTHS ENDED MARCH 31,	
	2002		2001

--- Total accumulated other			
comprehensive			
loss.....			
\$ (68,578)			
\$ (71,890)	=====	=====	

6. On July 1, 2000, we adopted SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," resulting in the recording of current assets of \$1.6 million, long-term assets of \$1.4 million, current liabilities of \$1.3 million, long-term liabilities of \$0.7 million, a decrease in accumulated other comprehensive loss of \$1.6 million, net of tax, and a loss from the cumulative effect from the change in accounting principle of \$0.6 million, net of tax. We recognized expense of less than \$0.1 million and \$0.6 million for the three months ended March 31, 2002 and 2001, respectively, and expense of \$0.1 million and \$0.7 million for the nine months ended March 31, 2002 and 2001, respectively, as a component of other expense (income), net related to hedge ineffectiveness. Based upon foreign exchange and interest rates at March 31, 2002, we expect to recognize into earnings in the next 12 months net current liabilities of \$5.1 million related to outstanding derivative instruments and net gains of \$0.2 million, recorded in accumulated other comprehensive loss, related to expired derivative instruments.
7. Effective July 1, 2001, we adopted SFAS No. 142, "Goodwill and Other Intangible Assets," which establishes new accounting and reporting requirements for goodwill and other intangible assets, including new measurement techniques for evaluating the recoverability of such assets. Under SFAS No. 142, all goodwill amortization ceased effective July 1, 2001. Material amounts of recorded goodwill attributable to each of our reporting units, including those affected by the restructuring program announced in November 2001 (see Note 8), were tested for impairment by comparing the fair value of each reporting unit with its carrying value. As a result of the adoption of this rule, we expect to record a non-cash charge of \$230 million to \$260 million, specific to the electronics (AMSG segment) and the industrial product group (MSSG segment) businesses, which were acquired in 1998 as part of Greenfield Industries. The fair values of these reporting units were determined using a combination of a discounted cash flow analysis and market multiples based upon historical and projected financial information. The final phase of testing, which will narrow this range to an actual charge, is expected to be completed during the June 2002 quarter. The initial phase of the impairment tests were required to be performed within six months of adoption of SFAS No. 142, or December 31, 2001, and are required at least annually thereafter. On an ongoing basis (absent any impairment indicators), we expect to perform our impairment tests during the June quarter, in connection with our annual planning process.

Under SFAS No. 142, the impairment adjustment recognized at adoption of this standard will be reflected as a cumulative effect of a change in accounting principle, effective July 1, 2001.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

applied the non-amortization provisions of SFAS No. 142 in these periods are as follows (in thousands, except per share amounts):

8. In November 2001, we announced a restructuring program whereby we expect to recognize special charges of \$15 million to \$20 million, including period costs of \$5 million to \$6 million, for the closure of three manufacturing locations and the relocation of the production of a certain product line from another plant, and associated work force reductions. This was done in response to continued steep declines in the end market demand in the electronics and industrial product group's businesses. Additionally, we have implemented other worldwide work force reductions in these segments in reaction to the declines in our end markets. These actions are expected to improve our competitiveness and we expect to be completed by the end of fiscal 2002.

We implemented the measures associated with the closing and consolidation of the AMSG electronics facility in Chicago, IL, and MSSG industrial product group's Pine Bluff, AR and Monticello, IN locations. As a result, we recorded restructuring charges of \$0.3 million and \$12.0 million, respectively, for the three and nine months ended March 31, 2002 related to exit costs associated with these actions, including severance for substantially all 298 employees at these facilities. Additionally in the December 2001 quarter, as part of the closure of the electronics plant, we recorded a non-cash charge of \$0.8 million, net of salvage value, associated with the abandonment and scrapping of inventory. This charge was recorded as a component of cost of goods sold. In the March 2002 quarter, we recorded a charge of \$1.5 million related to severance for 72 individuals, primarily in the MSSG segment. The total charge to date of \$14.3 million includes non-cash items of \$6.2 million.

Through March 31, 2002, we incurred cash expenditures of \$4.3 million, resulting in an accrual of \$3.8 million at March 31, 2002. We incurred period costs associated with these actions of \$0.7 million and \$1.0 million, respectively, for the three and nine months ended March 31, 2002, which were expensed as incurred as a component of cost of sales.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

In 2001, we began to implement a business improvement plan in the J&L Industrial Supply (J&L) and Full Service Supply (FSS) segments. We expect to substantially complete this plan by the end of fiscal 2002. In the J&L segment for the three and nine months ended March 31, 2002, we recorded restructuring and asset impairment charges of \$1.9 million and \$8.9 million, respectively. The charge for the March 2002 quarter is comprised of \$1.3 million for the closure of 10 satellites and two warehouses and call centers and \$0.6 million for severance for 25 individuals. Additionally, as part of the facility closures, we recorded a charge of \$0.5 million, net of salvage value, associated with the abandonment and scrapping of inventory at these locations. This charge was recorded as a component of cost of goods sold.

For the nine months ended March 31, 2002, the charges for J&L are comprised of a write-down of a portion of the book value of a business system of \$5.3 million, \$1.9 million for severance for 60 individuals, \$1.5 million for facility closures and \$0.2 million for the closure of the German operations. Additionally, as part of the closure of the German operations, we recorded a non-cash charge of \$0.4 million, net of salvage value, in the December 2001 quarter associated with the abandonment and liquidation of inventory in these operations. This charge was recorded as a component of cost of goods sold.

In anticipation of migrating to a new business system, J&L capitalized costs associated with the development of system functionality specifically designed for the J&L business. In the December 2001 quarter, after further evaluation of the development of the system, we determined it was no longer feasible that J&L would use this portion of the business system because the vendor ceased supporting the system. Therefore, we recorded a non-cash charge of \$5.3 million, representing the portion of costs capitalized in connection with system enhancements specifically for the J&L business.

In the FSS segment for the three and nine months ended March 31, 2002, we recorded restructuring charges of \$0.2 million and \$0.3 million, respectively, for severance related to nine and 16 individuals, respectively. Additionally in our core business in 2001, we took actions to reduce our salaried work force in response to the weakened U.S. manufacturing sector. This core-business resize program is completed.

The costs accrued for all restructuring activities were based on estimates using the latest information available at the time that the accrual was established. We continue to review our business strategies and pursue other cost-reduction activities in all business segments, some of which could result in future charges. Charges incurred for the nine months ended

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

March 31, 2002 and the restructuring accrual at March 31, 2002 are as follows (in thousands):

=====	=====			

The expense adjustments for the facility closures were due to incremental costs incurred to exit these facilities. The other expense adjustments relate to reductions in actual amounts paid for severance costs compared to what was initially anticipated. We recorded expense adjustments as a component of restructuring and asset impairment charge.

In 2000, we announced plans to close, consolidate or downsize several plants, warehouses and offices, and associated work force reductions as part of our overall plan to increase asset utilization and financial performance, and to reposition Kennametal to become the premier tooling solutions supplier. The costs charged against the restructuring accrual for the 2000 programs as of March 31, 2002 were as follows (in thousands):

JUNE 30, CASH EXPENSE MARCH 31, 2001 EXPENDITURES ADJUSTMENTS 2001 -----				

Employee severance.....	\$ 153			
\$ (130) \$ (3) \$ 20 Facility rationalizations.....	2,269			
(1,392) (27) 850 -----				

Total.....	\$2,422 \$(1,522) \$(30) \$870			
	=====			
=====	=====			

In 1999, we implemented restructuring programs to reduce costs, improve operations and enhance customer satisfaction. Accruals for these 1999 programs were \$0.1 million at March 31, 2002. Costs charged against the accrual for the voluntary early retirement plan for the nine months ended March 31, 2002 were \$0.3 million.

9. We operate four global business units consisting of Metalworking Solutions & Services Group (MSSG), Advanced Materials Solutions Group (AMSG), J&L and FSS, and corporate functional shared services. Our external sales, intersegment sales and operating income by

J&L operating income was reduced for costs associated with restructuring and asset impairment charges of \$2.4 million and \$1.8 million for the three months ended March 31, 2002 and 2001, respectively, and \$9.8 million and \$4.0 million for the nine months ended March 31, 2002 and 2001, respectively. Additionally, operating income for the three and nine months ended March 31, 2001 includes \$0.1 million and \$2.1 million, respectively, of costs primarily related to the tender offer to acquire the outstanding shares of JLK Direct Distribution Inc. Restructuring charges included in

FSS operating income for the three and nine months ended March 31, 2002 were \$0.2 million and \$0.3 million, respectively, and for the three and nine months ended March 31, 2001 were \$0.3 million.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

MSSG and AMSSG operating income was reduced by \$1.9 million and \$0.6 million, respectively, for the three months ended March 31, 2002 related to restructuring and related period costs. MSSG, AMSSG and Corporate operating income was reduced by \$8.1 million, \$6.6 million and \$0.2 million, respectively, for the nine months ended March 31, 2002 related to restructuring and related period costs, and asset impairment charges. MSSG operating income for the three and nine months ended March 31, 2001 was reduced by \$1.0 million related to restructuring and asset impairment charges. AMSSG operating income for the three and nine months ended March 31, 2001 includes a \$0.3 million credit associated with the net reduction of restructuring and asset impairment liabilities.

10. In August 2001, SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" was issued. SFAS No. 144 addresses financial accounting and reporting for the impairment of long-lived assets and for long-lived assets to be disposed of and supersedes SFAS No. 121. This statement retains the fundamental provisions of SFAS No. 121 for recognition and measurement of the impairment of long-lived assets to be held and used and measurement of long-lived assets to be disposed of by sale. The provisions of this standard are effective for fiscal years beginning after December 15, 2001, and interim periods within those fiscal years. We are currently evaluating the effects of this standard and are preparing a plan for implementation.

In April 2002, SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections," was issued. The Statement updates, clarifies and simplifies existing accounting pronouncements. While the technical corrections to existing pronouncements are not substantive in nature, in some instances, they may change accounting practice. The provisions of this standard related to SFAS No. 13 are effective for transactions occurring after May 15, 2002. All other provisions of this standard must be applied for financial statements issued on or after May 15, 2002, with early application encouraged. We are currently evaluating the effects of SFAS No. 145 and are preparing a plan for implementation.

11. On April 19, 2002, we sold Strong Tool Company, our industrial supply distributor based in Cleveland, Ohio, for \$8.6 million comprising cash proceeds of \$4.0 million and a seller note for \$4.6 million. This action resulted in a pretax loss of \$3.5 million and is in line with our strategy to refocus the J&L segment on its core catalog business. Annualized sales of this business were approximately \$34 million.
12. On May 3, 2002, we signed a definitive agreement to purchase the Widia Group (Widia) in Europe and India from Milacron Inc. for EUR 188 million (approximately \$170 million). The acquisition, which is expected to close in two to three months, remains subject to European regulatory approval and negotiated conditions of closing.

Widia, with approximately \$240 million in sales in calendar 2001, is a leading manufacturer and marketer of metalworking tools, engineered products and related services in Europe and India. Widia has an extensive product line of metalworking consumables, and is a recognized leader in milling applications. Widia employs approximately 3,400 employees, and operates eight manufacturing facilities in Europe and two in India. Widia's German operations will be merged into a new Kennametal European subsidiary at the closing. We currently intend on integrating the operations of the Widia Group into existing operations. Widia sells primarily through direct sales and has sales and service personnel in many European countries.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

We plan to fund the acquisition on a permanent basis as part of a comprehensive refinancing of our capital structure, the key components of which are expected to be the establishment of a new, three-year revolving credit facility, public term debt, and the issuance of \$100-150 million of equity. Sufficient capacity exists under our existing bank credit facilities to fund the acquisition should the transaction close prior to completion of one or all of the planned financing transactions.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

TO THE SHAREOWNERS OF KENNAMETAL INC.

We have audited the accompanying consolidated balance sheets of Kennametal Inc. (a Pennsylvania corporation) and subsidiaries as of June 30, 2001 and 2000, and the related consolidated statements of income, shareowners' equity and cash flows for each of the three years in the period ended June 30, 2001. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Kennametal Inc. and subsidiaries as of June 30, 2001 and 2000, and the results of their operations and their cash flows for each of the three years in the period ended June 30, 2001, in conformity with accounting principles generally accepted in the United States.

KENNAMETAL INC.

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1--NATURE OF OPERATIONS

Kennametal Inc. is a global leader engaged in the manufacture, purchase and distribution of a broad range of tools, tooling systems and solutions to the metalworking, mining, oil and energy industries, and wear-resistant parts for a wide range of industries. Unless otherwise specified, any reference to a "year" is to a fiscal year ended June 30.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies is presented below to assist evaluating our consolidated financial statements.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Kennametal and majority-owned subsidiaries. All significant intercompany balances and transactions are eliminated.

USE OF ESTIMATES IN THE PREPARATION OF FINANCIAL STATEMENTS

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CASH EQUIVALENTS

Temporary cash investments having original maturities of three months or less are considered cash equivalents. Cash equivalents principally consist of investments in money market funds and certificates of deposit.

MARKETABLE EQUITY SECURITIES AVAILABLE-FOR-SALE

Our investment in marketable equity securities is accounted for as an available-for-sale security under Statement of Financial Accounting Standards (SFAS) No. 115, "Accounting for Certain Investments in Debt and Equity Securities." This investment is reported at fair value, as determined through quoted market sources. The unrealized gain on this investment is recorded as a component of accumulated other comprehensive loss, net of tax.

ACCOUNTS RECEIVABLE

Accounts receivable includes \$2.8 million and \$2.4 million of receivables from affiliates at June 30, 2001 and 2000, respectively.

INVENTORIES

Inventories are carried at the lower of cost or market. We use the last-in, first-out (LIFO) method for determining the cost of a significant portion of our U.S. inventories. The cost of the remainder of inventories is determined under the first-in, first-out (FIFO) or average cost methods.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are carried at cost. Major improvements are capitalized, while maintenance and repairs are expensed as incurred. Retirements and disposals are removed from cost and accumulated depreciation accounts, with the gain or loss reflected in income. Interest is capitalized during the construction of major facilities. Capitalized interest is included in the cost of the constructed asset and is amortized over its estimated useful life.

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

Depreciation for financial reporting purposes is computed using the straight-line method over the estimated useful lives of the assets ranging from three to 40 years. Leased property and equipment under capital leases are amortized using the straight-line method over the terms of the related leases.

INTANGIBLE ASSETS

Intangible assets, which include the excess of cost over net assets of acquired companies, are amortized using the straight-line method over periods ranging from two to 40 years. We assess the recoverability of goodwill by determining whether the amortization of the goodwill balance over its remaining life can be recovered through undiscounted future operating cash flows of the acquired entities. The carrying value of goodwill would be adjusted to the present value of the future operating cash flows if it cannot be recovered over its remaining life. The net book value of goodwill is \$615.3 million and \$647.9 million at June 30, 2001 and 2000, respectively.

DEFERRED FINANCING FEES

Fees incurred in connection with new borrowings are capitalized and amortized to interest expense over the life of the related obligation.

EARNINGS PER SHARE

Basic earnings per share is computed using the weighted average number of shares outstanding during the period, while diluted earnings per share is calculated to reflect the potential dilution that occurs related to issuance of capital stock under stock option grants. The difference between basic and diluted earnings per share relates solely to the effect of capital stock options.

For purposes of determining the number of dilutive shares outstanding, weighted average shares outstanding for basic earnings per share calculations were increased for the dilutive effect of unexercised capital stock options by 189,419; 100,653 and 43,453 shares in 2001, 2000 and 1999, respectively. Options to purchase 1.5 million, 1.7 million and 1.8 million shares at June 30, 2001, 2000 and 1999, respectively, are not included in the computation of diluted earnings per share because the option exercise price was greater than the average market price.

REVENUE RECOGNITION

We recognize revenue from product sales upon shipment to the customer and title passes.

RESEARCH AND DEVELOPMENT COSTS

Research and development costs of \$18.9 million, \$19.2 million and \$18.8 million in 2001, 2000 and 1999, respectively, were expensed as incurred.

SHIPPING AND HANDLING FEES AND COSTS

All fees billed to customers for shipping and handling are classified as a component of net sales. All costs associated with shipping and handling are classified as a component of cost of goods sold.

In September 2000, the Emerging Issues Task Force (EITF) finalized EITF Issue 00-10, "Accounting for Shipping and Handling Fees and Costs," to address the diversity in the income statement classification of amounts charged to customers for shipping and handling, as well as for costs incurred related to shipping and handling. The Issue requires all amounts billed to a customer in a sale transaction related to shipping and handling be classified as revenue. The Issue further requires companies to adopt and disclose a policy on the accounting for shipping

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

and handling costs. Such costs may not be netted against revenue, however, disclosure of the amount and classification of these costs is required if material and not included in cost of goods sold. The adoption of this Issue in the June 2001 quarter did not affect reported earnings, however, it resulted in the reclassification of amounts in previously reported financial statements.

INCOME TAXES

Deferred income taxes are recognized based on the future income tax effects (using enacted tax laws and rates) of differences in the carrying amounts of assets and liabilities for financial reporting and tax purposes. A valuation allowance is recognized if it is "more likely than not" that some or all of a deferred tax asset will not be realized.

CHANGE IN ACCOUNTING PRINCIPLE

On July 1, 2000, we adopted SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," resulting in the recording of current assets of \$1.6 million, long-term assets of \$1.4 million, current liabilities of \$1.3 million, long-term liabilities of \$0.7 million, a decrease in accumulated other comprehensive loss of \$1.6 million, net of tax, and a loss from the cumulative effect from the change in accounting principle of \$0.6 million, net of tax.

FOREIGN CURRENCY TRANSLATION

Assets and liabilities of international operations are translated into U.S. dollars using year-end exchange rates, while revenues and expenses are translated at average exchange rates throughout the year. The resulting net translation adjustments are recorded as a component of accumulated other comprehensive loss.

DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

From time to time, we use derivative financial instruments to hedge a portion of our exposure to fluctuations in foreign exchange and interest rates. We hedge these exposures in a manner that dampens the effect of changes in foreign exchange and interest rates on consolidated results. We account for derivative instruments as a hedge of the related asset, liability, firm commitment or anticipated transaction when designated as a hedge of such items. We do not enter into derivative transactions for speculative purposes and therefore hold no derivative instruments for trading purposes. Our objective in managing these exposures is to reduce both earnings and cash flow volatility to allow us to focus our attention on our core-business operations.

Forward contracts, purchased options and range forward contracts, designated as cash flow hedges, hedge anticipated cash flows from cross-border intercompany sales of product and services. These contracts mature at various times through August 2002. Gains and losses realized on these contracts at maturity are recorded in accumulated other comprehensive loss, net of tax, and are recognized as a component of other expense, net when the underlying sales of product or services are recognized into earnings. We recognized expense of \$0.8 million as a component of other expense, net, in 2001 related to hedge ineffectiveness. The time value component of the fair value of purchased options and range forwards is excluded from the assessment of hedge effectiveness.

Floating-to-fixed interest rate swap agreements, designated as cash flow hedges, hedge our exposure to interest rate changes on a portion of our floating rate debt, and mature at various times through June 2003. We record the fair value of these contracts in the balance sheet, with the offset to accumulated other comprehensive loss, net of tax. The difference between the amounts to be received and paid under interest rate swap agreements is recognized in interest expense.

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

Forward contracts hedging significant cross-border intercompany loans are considered other derivatives and therefore, not eligible for hedge accounting. These contracts are recorded at fair value in the balance sheet, with the offset to other expense, net.

Based upon foreign exchange and interest rates at June 30, 2001, we expect to recognize into earnings in the next 12 months net current liabilities of \$2.1 million related to outstanding derivative instruments and net gains of \$0.4 million, recorded in accumulated other comprehensive loss, related to expired derivative instruments.

We have designated the foreign exchange exposure under our Euro Credit Agreement (see Note 8) as a hedge of our net investment in Euro-based subsidiaries. The objective for this designation is to reduce our exposure to fluctuations in accumulated other comprehensive loss due to exchange rate fluctuations. Changes in the value of borrowings under the Euro Credit Agreement due to exchange rate fluctuations are recorded as a component of cumulative translation adjustment, net of tax. A gain of \$13.8 million is recorded as a component of cumulative translation adjustment at June 30, 2001.

In June 2001, we accelerated the payment of certain intercompany sales of product from foreign subsidiaries. While this transaction did not affect consolidated June 30, 2001 results, it eliminated a significant portion of hedged anticipated transactions, and therefore, we unwound and discontinued hedge accounting for the related derivative contracts. This resulted in the recognition of gains of \$0.6 million, net of hedge ineffectiveness of \$0.2 million, as a component of other expense, net. A portion of the gain, \$0.2 million, has been deferred in accumulated other comprehensive loss and will be recognized in 2002 as the remaining portion of the anticipated transactions are expected to occur in 2002.

NEW ACCOUNTING STANDARDS

In September 2000, SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities -- a replacement of FASB Statement No. 125" was issued. SFAS No. 140 revises criteria for accounting for asset securitizations, other financial-asset transfers and collateral and introduces new disclosures, but otherwise carries forward most of SFAS No. 125's provisions without amendment. SFAS No. 140 has an immediate impact through new disclosure requirements and amendments of the collateral provisions of SFAS No. 125. These changes must be applied for fiscal years ending after December 15, 2000. The adoption of SFAS No. 140 did not significantly affect our financial condition at June 30, 2001.

In June 2001, the Financial Accounting Standards Board issued SFAS No. 141, "Business Combinations," SFAS No. 142, "Goodwill and Other Intangible Assets," and SFAS No. 143, "Accounting for Asset Retirement Obligations." SFAS No. 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001. We do not believe that the prospective adoption of this standard will have a material impact on our consolidated results for 2002.

SFAS No. 142 changes the accounting for goodwill and certain other intangible assets from an amortization method to an impairment only approach. We adopted SFAS No. 142 effective July 1, 2001 and therefore, all goodwill will no longer be amortized to earnings. We will continue to amortize all non-goodwill intangible assets (i.e. patents, non-compete agreements) over their existing remaining useful lives. We are required to complete a transitional goodwill impairment test for all goodwill, at the reporting unit level, by December 31, 2001 and are currently preparing for this test. We incurred expense in 2001 of \$21.0 million related to amortizing goodwill.

SFAS No. 143 addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. It applies

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development and/or the normal operation of a long-lived asset. We are required to adopt this standard on July 1, 2002 and are preparing a plan for implementation.

RECLASSIFICATIONS

Certain amounts in the prior years' consolidated financial statements have been reclassified to conform with the current-year presentation.

NOTE 3--ACQUISITIONS AND DIVESTITURES

In the December 1999 quarter, we engaged an investment bank to explore strategic alternatives regarding our 83 percent-owned subsidiary, JLK Direct Distribution Inc. (JLK), including a possible divestiture. At that time, we believed a divestiture might enhance growth prospects for both Kennametal and JLK by allowing each company to focus on its core competencies. We completed a thorough and disciplined process of evaluating strategic alternatives and on May 2, 2000, decided to terminate consideration of a possible divestiture at that time. We incurred and expensed \$0.8 million in costs associated with this evaluation in 2000.

On July 20, 2000, we proposed to the Board of Directors of JLK to acquire the outstanding shares of JLK we did not already own. On September 11, 2000, we announced a definitive merger agreement with JLK to acquire all the outstanding minority shares. Pursuant to the agreement, JLK agreed to commence a cash tender offer for all of its shares of Class A Common Stock at a price of \$8.75 per share. The tender offer commenced on October 3, 2000 and expired on November 15, 2000 resulting in JLK reacquiring 4.3 million shares for \$37.5 million. Following JLK's purchase of shares in the tender offer, we acquired these shares at the same price in a merger. We incurred transaction costs of \$3.3 million, which were included in the total cost of the transaction. JLK incurred costs of \$2.1 million associated with the transaction, which were expensed as incurred. The transaction was unanimously approved by the JLK Board of Directors, including its special committee comprised of independent directors of the JLK Board.

In July 2000, Kennametal, JLK and the JLK directors (including one former director) were named as defendants in several putative class action lawsuits. The lawsuits sought an injunction, rescission, damages, costs and attorney fees in connection with our proposal to acquire the outstanding shares of JLK.

On November 3, 2000, we entered into a Memorandum of Understanding (MOU) with respect to a proposed settlement of the lawsuits. The proposed settlement would provide for complete releases of the defendants, as well as among other persons their affiliates and representatives, and would extinguish and enjoin all claims that have been, could have been or could be asserted by or on behalf of any member of the class against the defendants which in any manner relate to the allegations, facts or other matters raised in the lawsuits or which otherwise relate in any manner to the agreement, the offer and the merger. The MOU also provided, among other matters, for the payment by JLK of up to approximately \$0.3 million in attorneys' fees and expenses to plaintiffs' counsel. The final settlement of the lawsuits was approved through a definitive stipulation of settlement in June 2001, and no other payment was made.

In April 2001, we sold ATS Industrial Supply, Inc., our industrial supply distributor based in Salt Lake City, Utah, for \$6.8 million comprising cash proceeds of \$1.0 million and a seller note for \$5.8 million. This action resulted in a pretax loss of approximately \$5.8 million and is in line with our strategy to refocus the J&L segment on its core catalog business. Annualized sales of this business were approximately \$17 million.

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

NOTE 4--MARKETABLE EQUITY SECURITIES AVAILABLE-FOR-SALE

On January 18, 1999, we entered into a business cooperation agreement with Toshiba Tungaloy Co., Ltd. (TT), a leading Japanese manufacturer of consumable metalcutting products, to enhance the global business prospects of both companies. The agreement includes various joint activities in areas such as product research and development, private labeling, cross-licensing, and sales and marketing. As part of the agreement, we purchased approximately 4.9 percent of the outstanding shares of TT in a private transaction from TT's largest shareholder, Toshiba Corporation, for \$15.9 million, including the costs of the transaction. In order to enter into this agreement, we purchased the shares at a predetermined price and therefore, realized a one-time charge of \$3.8 million due to the difference between the cost (\$15.9 million) and the fair market value of the securities on the date the securities were purchased (\$12.1 million). Due to the provisions of this agreement, we were not able to record this difference as an asset. This charge was recorded as a component of operating expense. The gross unrealized gain on this investment is \$2.1 million and \$14.2 million at June 30, 2001 and 2000, respectively.

NOTE 5--ACCOUNTS RECEIVABLE SECURITIZATION PROGRAM

On June 18, 1999, we entered into an agreement with a financial institution whereby we securitize, on a continuous basis, an undivided interest in a specific pool of our domestic trade accounts receivable. Pursuant to this agreement, we, and several of our domestic subsidiaries, sell our domestic accounts receivable to Kennametal Receivables Corporation, a wholly-owned, bankruptcy-remote subsidiary (KRC). KRC was formed to purchase these accounts receivable and sell participating interests in such accounts receivable to the financial institution which, in turn, purchases and receives ownership and security interests in those assets. As collections reduce the amount of accounts receivable included in the pool, we sell new accounts receivable to KRC which, in turn, securitizes these new accounts receivable with the financial institution.

We are permitted to securitize up to \$100.0 million of accounts receivable under this agreement. The financial institution charges us fees based on the level of accounts receivable securitized under this agreement and the commercial paper market rates plus the financial institution's cost to administer the program. The costs incurred under this program, \$5.7 million, \$5.2 million and \$0.2 million in 2001, 2000 and 1999, respectively, are accounted for as a component of other expense, net. At June 30, 2001 and 2000, we securitized accounts receivable of \$93.7 million and \$88.5 million, respectively, under this program. Our retained interests in securitized accounts receivable is not considered material. In 1999, the proceeds from the securitization were used to permanently reduce a portion of our long-term debt (see Note 8).

NOTE 6--INVENTORIES

Inventories consisted of the following:

	2001	2000	----	----	(IN THOUSANDS)	Finished
goods.....						
	\$284,801	\$306,334				Work in process and powder
blends.....			94,231	96,101		Raw
						materials and
supplies.....				32,130		
	35,707					Inventories at current
cost.....			411,162	438,142		
						Less LIFO
valuation.....						
	(37,941)	(27,257)				Total
inventories.....						
	\$373,221	\$410,885	=====	=====		

We used the LIFO method of valuing our inventories for approximately 44 and 45 percent of total inventories at June 30, 2001 and 2000, respectively. We use the LIFO method in order to

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

more closely match current costs with current revenues, thereby reducing the effects of inflation on earnings. In 2001, we recognized \$3.6 million primarily related to the scrapping of certain product lines that were discontinued as part of a program to streamline and optimize our catalog product offering (see Note 13). In 1999, we recognized a similar charge of \$6.9 million in our global metalworking product offering (see Note 13).

NOTE 7--OTHER CURRENT LIABILITIES

Other current liabilities consisted of the following:

2001	2000	----	----	(IN THOUSANDS)
				Accrued employee benefits.....
\$21,829	\$25,787			Payroll, state and local taxes.....
		9,568		Accrued interest expense.....
		2,803	5,123	Other accrued expenses.....
49,934	52,635	-----	-----	Total other current liabilities.....
		\$84,134	\$91,800	=====

NOTE 8--LONG-TERM DEBT AND CAPITAL LEASES

Long-term debt and capital lease obligations consisted of the following:

2001	2000	----	----	(IN THOUSANDS)
				Bank Credit Agreement, revolving credit loans, 4.705% to 5.805% in 2001 and 7.030% to 7.530% in 2000, due in 2003.....
\$375,000	\$606,000			Euro Credit Agreement, revolving credit loans, 5.648% in 2001, due in 2004.....
		179,140	--	Borrowings outside the U.S., varying from 1.12% to 14.50% in 2001 and 1.00% to 14.50% in 2000, due in installments through 2013.....
		13,840	18,798	Lease of office facilities with terms expiring through 2008 at 4.56% to 7.50%.....
		7,906	7,815	Other.....
		8,730	8,928	-----
		584,616	641,541	-----
				----- Less current maturities: Long-term debt.....
		(524)	(2,918)	Capital leases.....
		(1,507)	(937)	-----
				----- Total current maturities.....
		(3,855)		-----
				----- Long-term debt and capital leases.....
		\$582,585	\$637,686	=====

In 1998, we entered into a \$1.4 billion Bank Credit Agreement. Subject to certain conditions, the Bank Credit Agreement permitted term loans of up to \$500.0 million and revolving credit loans of up to \$900.0 million for working capital, capital expenditures and general corporate purposes. At June 30, 2001, interest payable under revolving credit loans is based on LIBOR plus 0.625%. The Bank Credit Agreement also includes a commitment fee on the revolving credit loans of 0.15% of the unused balance.

The Bank Credit Agreement also contains various restrictive and affirmative covenants requiring the maintenance of certain financial ratios. The term loan was repaid in November 1999. This resulted in an acceleration of the write-off of deferred financing fees of \$0.4 million, which was recorded as an extraordinary loss of \$0.3 million, net of tax. The revolving credit loans

KENNAMETAL INC.

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

mature on August 31, 2002. In 1999, the term loan was permanently reduced with the net proceeds received from the accounts receivable securitization program (see Note 5).

On December 20, 2000, we entered into a EUR 212.0 million Euro-denominated revolving credit facility (Euro Credit Agreement) to hedge the foreign exchange exposure of our net investment in Euro-based subsidiaries and to diversify our interest rate exposure. Amounts borrowed under the Euro Credit Agreement are required to be used to repay indebtedness under the Bank Credit Agreement and, to the extent the Bank Credit Agreement is repaid, for working capital and general corporate purposes. At June 30, 2001, the Euro Credit Agreement bears interest at EURIBOR plus 0.875%, includes a commitment fee of 0.25% of the unused balance and matures in December 2003.

On January 8, 2001, we borrowed EUR 212.0 million under this facility to meet our obligation under then outstanding Euro-denominated forward contracts. The proceeds from the Euro-denominated forward contracts of \$191.1 million were used to repay amounts borrowed under the Bank Credit Agreement. Subsequently, the availability under the Bank Credit Agreement was permanently reduced to \$700.0 million, resulting in a write-down of a portion of deferred financing fees of \$0.3 million. This charge was recorded as a component of interest expense.

Future principal maturities of long-term debt are \$0.5 million, \$388.7 million, \$179.4 million, \$0.2 million and \$0.2 million, respectively, in 2002 through 2006.

Future minimum lease payments under capital leases for the next five years in total are as follows:

	(IN THOUSANDS) -----
2002.....	\$ 1,851
2003.....	1,668
2004.....	1,226
2005.....	884
2006.....	2,104 After
2006.....	1,373 ----- Total future minimum lease
payments.....	9,106 Less amount
representing interest.....	(1,200) --
----- Present value of minimum lease	
payments.....	\$ 7,906 =====

NOTE 9--NOTES PAYABLE AND LINES OF CREDIT

Notes payable to banks of \$22.5 million and \$57.7 million at June 30, 2001 and 2000, respectively, represent short-term borrowings under U.S. and international credit lines with commercial banks. These credit lines, translated into U.S. dollars at June 30, 2001 rates, totaled \$111.8 million at June 30, 2001, of which \$89.3 million was unused. The weighted average interest rate for short-term borrowings was 5.13 percent and 7.30 percent at June 30, 2001 and 2000, respectively.

KENNAMETAL INC.

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

NOTE 10--INCOME TAXES

Income before income taxes and the provision for income taxes consisted of following:

Other.....					
15,914	4,500	-----	-----		Total deferred tax
liabilities.....	\$68,969	\$59,204			
	=====	=====			

Deferred income taxes were not provided on cumulative undistributed earnings of international subsidiaries and affiliates. At June 30, 2001, unremitted earnings of non-U.S. subsidiaries were determined to be permanently reinvested. It is not practical to estimate the income tax affect that might be incurred if earnings were remitted to the United States.

Included in deferred tax assets at June 30, 2001 are unrealized tax benefits totaling \$11.8 million related to net operating loss carryforwards. The realization of these tax benefits is contingent on future taxable income in certain international operations. Of this amount, \$6.2 million relates to net operating loss carryforwards in the United Kingdom and Germany, which can be carried forward indefinitely. The remaining unrealized tax benefits relate to net operating loss carryforwards in certain other international operations that are fully reserved and the majority of which expire over the next five years. At June 30, 2001, we have a valuation allowance of \$7.4 million to offset the deferred tax benefits that may not be realized in the foreseeable future, an increase of \$3.3 million compared to 2000. Of this increase, \$2.0 million relates to historical losses incurred in our J&L Germany subsidiary, which has ceased operations.

NOTE 11--PENSION AND OTHER POSTRETIREMENT AND POSTEMPLOYMENT BENEFITS

We sponsor several pension plans that cover substantially all employees. Pension benefits under defined benefit pension plans are based on years of service and, for certain plans, on average compensation immediately preceding retirement. Pension costs are determined in accordance with SFAS No. 87, "Employers' Accounting for Pensions." We fund pension costs in accordance with the funding requirements of the Employee Retirement Income Security Act of 1974, as amended, for U.S. plans and in accordance with local regulations or customs for non-U.S. plans. In 2000, we made a qualified transfer of pension assets of \$2.2 million from a U.S. pension plan to pay for medical benefit claims and administrative expenses incurred for postretirement health care benefits.

We presently provide varying levels of postretirement health care and life insurance benefits to most U.S. employees. Postretirement health care benefits are available to employees and their spouses retiring on or after age 55 with ten or more years of service after age 40. Beginning with

KENNAMETAL INC.

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

retirements on or after January 1, 1998, our portion of the costs of postretirement health care benefits will be capped at 1996 levels.

The funded status of our pension plans and amounts recognized in the consolidated balance sheets were as follows:

2001	2000	----	----	(IN THOUSANDS)	Change in benefit

Accrued postretirement benefit obligations of \$41.1 million at both June 30, 2001 and 2000 are included in other long-term liabilities. The discount rate used to determine the present value of the other postretirement benefit obligation was 7.5%, 8.0% and 7.5% in 2001, 2000 and 1999, respectively. The annual assumed rate of increase in the per capita cost of covered benefits (the health care cost trend rate) for health care plans was 7.5% in 2001 and was assumed to decrease gradually to 5.0% in 2006 and remain at that level thereafter. Assumed health care cost trend rates have a significant effect on the cost components and obligation for the health care plans. A change of one percentage point in the assumed health care cost trend rates would have the following effects on the total service and interest cost components of other postretirement cost and the other postretirement benefit obligation at June 30, 2001:

1% INCREASE	1%
DECREASE	-----

interest cost	
components....	\$ 190
\$ (160) Effect on	
other postretirement	
benefit	
obligation.....	
1,580	(1,420)

We also sponsor several defined contribution pension plans. Pension costs for defined contribution plans were \$12.1 million, \$9.8 million and \$9.5 million in 2001, 2000 and 1999, respectively. Effective October 1, 1999, company contributions to U.S. defined contribution pension plans are made primarily in our capital stock, resulting in the issuance of 386,544 and 268,964 shares during 2001 and 2000, respectively, with a market value of \$10.8 million and \$7.6 million, respectively.

We provide for postemployment benefits pursuant to SFAS No. 112, "Employers' Accounting for Postemployment Benefits." We accrue the cost of separation and other benefits provided to former or inactive employees after employment but before retirement. Postemployment benefit costs were not significant in 2001, 2000 and 1999.

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

NOTE 13--RESTRUCTURING AND ASSET IMPAIRMENT CHARGES

In the September 2000 quarter, we began to implement a business improvement plan in the J&L Industrial Supply (J&L) and Full Service Supply (FSS) segments. We anticipate costs of \$15 to \$20 million associated with this plan. In the J&L segment for 2001, we recorded a restructuring and asset impairment charge of \$2.5 million for severance for 115 individuals, \$1.8 million associated with the closure of 11 underperforming satellite locations, including the German operations, and \$0.7 million for the exiting of three warehouses. This includes a \$0.4 million non-cash write-down of the book value of certain property, plant and equipment, net of salvage value, that we determined would no longer be utilized in ongoing operations. The charge for exiting the warehouses and the satellite closures includes a non-cash write-down, net of salvage value, of \$0.6 million primarily related to inventory that was abandoned and not relocated. J&L also finalized and implemented a program to optimize the overall catalog product offering. We identified certain products that would no longer be offered to customers and scrapped these products, resulting in a non-cash charge of \$3.0 million, net of salvage value. These charges were recorded as a component of cost of goods sold. In the FSS segment for 2001, we recorded restructuring charges of \$0.6 million for severance related to eight individuals. The costs accrued for these plans were based on estimates using the latest information available at the time that the accrual was established. We incurred period costs of \$0.3 million related to these initiatives in 2001 which were included in cost of goods sold as incurred.

Beginning in March 2001, we took actions to reduce our salaried work force in response to the weakened U.S. manufacturing sector. As a result of implementing this core-business resize program, we recorded a restructuring charge of \$4.6 million related to severance for 209 individuals. This program is completed. We continue to review our business strategies and pursue other cost-reduction activities in all business segments, some of which could result in future charges. The components of the 2001 charges and the restructuring accrual at June 30, 2001 are as follows:

Total.....	\$18,626	\$ (6,378)	\$ (992) \$11,256
	=====	=====	=====

In conjunction with our ongoing review of underperforming businesses, certain assets are reviewed for impairment pursuant to the provisions of SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of." An asset impairment charge of \$1.7 million was recorded, related to a metalworking manufacturing operation in Shanghai, China. This operation became fully operational in 1998 and at the time of review, had not generated the performance that was expected at the time we entered into this market. We performed an in-depth review of the operations, capacity utilization and the local management team, and engaged a consultant to perform an independent review of the same. These reviews enabled us to determine that the market served by this operation is not expected to develop to the extent originally anticipated, but that the operations were in good working order, utilized modern technology, and the management team in place was competent. We also determined that this facility had excess capacity given the level of market demand.

Accordingly, we updated our operating forecast to reflect the current market demand. In comparing the undiscounted projected cash flows of the updated forecast to the net book value of the assets of this operation, we determined that the full value of these assets would not be recoverable. Accordingly, a charge was recorded to adjust the carrying value of the long-lived assets of this operation to fair value. The estimated fair value of these assets was based on various methodologies, including a discounted value of estimated future cash flows.

The product rationalization charge of \$0.1 million represents the write-down of certain discontinued product lines manufactured in these operations. We manufactured these products specifically for the market served by these operations and we determined that these products are no longer salable. This charge has been recorded as a component of cost of goods sold.

We recorded an asset impairment charge of \$2.8 million related to the write-down of equipment in our North American metalworking operations and \$0.3 million in our engineered products operations. In connection with the repositioning of the company, we completed an assessment of the assets currently being used in these operations and determined that these assets were not going to be further utilized in conducting these operations. This amount represents the write-down of the book value of the assets, net of salvage value.

The charge for facility rationalizations relates to employee severance for 153 employees and other exit costs associated with the closure or downsizing of a metalworking manufacturing operation in Kingswinford, United Kingdom, a circuit board drill plant in Janesville, Wisc., a German warehouse facility, and several offices in the Asia Pacific region and South America. Included in this charge is an incremental pension obligation of \$0.2 million due to a plan curtailment. This amount is included in the pension obligation and is presented as a component of other liabilities. The charge also includes \$3.4 million for employee severance for 41

KENNAMETAL INC.

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

employees and other exit costs associated with the closure of a mining and construction manufacturing operation in China and the exit of the related joint venture.

We accrued \$7.4 million related to severance packages provided to 171 hourly and salaried employees terminated in connection with a global work force reduction. Included in this charge is an incremental pension obligation of \$0.8 million, incurred as a result of the severance packages provided. This amount is included in the pension obligation and is presented as a component of other liabilities.

The costs related to the asset impairment charges, employee severance and facility rationalizations of \$18.5 million are recorded as restructuring and asset impairment charges. The costs charged against the restructuring accrual as of June 30, 2001 and 2000 were as follows:

BEGINNING CASH JUNE 30, ACCRUAL	
EXPENDITURES	ADJUSTMENTS 2000 -----

	===== == =====

In 2001, we incurred period costs of \$0.3 million related to these initiatives which were included in cost of goods sold as incurred. The adjustments to the accruals are due to differences in actual amounts paid to certain individuals and incurred to rationalize facilities compared to what was initially anticipated. These adjustments were recorded as a component of restructuring and asset impairment charge.

In 2000, we incurred period costs of \$0.8 million related to these initiatives, and costs of \$1.7 million associated with the implementation of lean manufacturing techniques, both of which were included in costs of goods sold as incurred.

In March 1999, we completed restructuring plans, including several programs to reduce costs, improve operations and enhance customer satisfaction. The costs accrued for these plans were based on estimates using the latest information available at the time that the accrual was established. The components of the charges are as follows:

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

The product rationalization charge represents a write-down of certain product lines that were discontinued as part of a program to streamline and optimize our global metalworking product offering. This charge is net of salvage value and was recorded as a component of cost of goods sold. Estimated salvage values were based on estimates of proceeds to be realized through the sale of this inventory outside the normal course of business.

The program resulted in a reduction in the number of products offered from an estimated 58,000 to 38,000 and was an extension of our initiative to reduce the number of our North American warehouses. By streamlining the product offering, we have improved customer service and inventory turnover, allowed for more efficient operations, thereby reducing costs and improving capacity utilization, and eliminated redundancy in our product offering. Sales of these products represented less than five percent of global metalworking sales. We proactively converted customers from these older products to newer products.

We also initiated plans to close a drill manufacturing plant in Solon, Ohio. The manufacturing of products made at this plant was relocated to other existing plants in the United States. The closure eliminated excess capacity at other plant locations. We decommissioned the existing plant and sold the property in 2001. The charge consists of employee termination benefits for 155 hourly and salaried employees, which is substantially all employees at this plant, and the write-down of assets included in property, plant and equipment, net of salvage value.

The costs resulting from the relocation of employees, hiring and training new employees and other costs resulting from the temporary duplication of certain operations incurred in 2000 and 1999 were \$2.1 million and \$0.4 million, respectively, and were included in cost of goods sold as incurred.

An asset impairment charge was recorded to write-down, to fair market value, an investment in and net receivables from certain mining and construction international operations in emerging markets as a result of changing market conditions in the regions these operations serve. In the March 1999 quarter, we completed a study of these operations, the markets for these products, and the current economic situation in these regions, to provide recommendations for solving operational concerns. As a result of this study and continued economic deterioration in these regions, we determined that the carrying amount of our investment in and net receivables from these operations would not be recoverable.

A voluntary early retirement benefit program was offered to and accepted by 34 domestic employees. In exchange for their retirement, we will provide those employees pension and health benefits that would have been earned by the employees through their normal retirement date. As a result of providing these additional pension benefits, \$2.4 million of the total cost was funded through our pension plan. There are no tax benefits associated with this cost as we may only deduct actual cash payments made to the pension plan.

The charges for the plant closure, the write-down of the investment in and net receivables from certain international operations, and the voluntary early retirement benefit program are recorded as the restructuring and asset impairment charges. The costs charged against the restructuring accrual as of June 30, 2001, 2000 and 1999 were as follows:

=====	=====	=====	=====

In 2001, the adjustment to the plant closure is due to incremental costs incurred to close this plant, prior to its disposition in 2001. Additionally, we recorded an adjustment of \$0.4 million related to the recovery of accounts receivable associated with the write-down of an investment in and net receivables from certain mining and construction operations in emerging markets. These net adjustments of \$0.1 million are recorded as a component of restructuring and asset impairment charge.

In 2000, the adjustment to the accrual for the plant closure is due to the receipt of more value upon disposition of equipment than initially anticipated. This adjustment was not included in the determination of net income for 2000.

NOTE 14--FINANCIAL INSTRUMENTS

The fair values of our financial instruments at June 30, 2001 and 2000 approximate the carrying values of such instruments. The methods used to estimate the fair value of our financial instruments are as follows:

CASH AND EQUIVALENTS, CURRENT MATURITIES OF LONG-TERM DEBT AND NOTES PAYABLE TO BANKS

The carrying amounts approximate their fair value because of the short maturity of the instruments.

MARKETABLE EQUITY SECURITIES

The fair value is estimated based on the quoted market price of this security, as adjusted for the currency exchange rate at June 30.

LONG-TERM DEBT

Fair value was determined using discounted cash flow analysis and our incremental borrowing rates for similar types of arrangements.

FOREIGN EXCHANGE CONTRACTS

The notional amount of outstanding foreign exchange contracts, translated at current exchange rates, were \$109.7 million and \$148.4 million at June 30, 2001 and 2000, respectively. We would have received \$1.6 million and \$2.0 million at June 30, 2001 and 2000, respectively, to settle these contracts, representing the fair value of these agreements. Due to the adoption of SFAS No. 133 effective July 1, 2000, the carrying value equals the fair value for these contracts at June 30, 2001. Fair value approximated the carrying value at June 30, 2000. Fair value was estimated based on quoted market prices of comparable instruments.

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

INTEREST RATE SWAP AGREEMENTS

At June 30, 2001 and 2000, we had interest rate swap agreements outstanding that effectively convert a notional amount of \$200.0 million and \$300.0 million, respectively, of debt from floating to fixed interest rates. The agreements outstanding at June 30, 2001 mature at various times between April 2002 and June 2003. At June 30, 2001, we would have paid \$6.6 million, and at June 30, 2000, we would have received \$1.8 million, to settle our interest rate swap agreements, which represents the fair value of these agreements. Due to the adoption of SFAS No. 133 effective July 1, 2000, the carrying value equals the fair value for these contracts at June 30, 2001. Fair value was estimated based on the mark-to-market value of the contracts which closely approximates the amount that we would receive or pay to terminate the agreements at year end.

CONCENTRATIONS OF CREDIT RISK

Financial instruments that potentially subject us to concentrations of credit risk consist primarily of temporary cash investments and trade receivables. By policy, we make temporary cash investments with high credit quality financial institutions. With respect to trade receivables, concentrations of credit risk are significantly reduced because we serve numerous customers in many industries and geographic areas.

We are exposed to counterparty credit risk for nonperformance and, in the unlikely event of nonperformance, to market risk for changes in interest and currency rates. We manage exposure to counterparty credit risk through credit standards, diversification of counterparties and procedures to monitor concentrations of credit risk. We do not anticipate nonperformance by any of the counterparties. As of June 30, 2001 and 2000, we had no significant concentrations of credit risk.

NOTE 15--STOCK OPTIONS, AWARDS AND PURCHASE PLAN

Stock options generally are granted to eligible employees at fair market value at the date of grant. Options are exercisable under specified conditions for up to ten years from the date of grant. We have four plans under which options may be granted: the 1992 plan, the 1996 plan and two 1999 plans. No options may be granted under the 1992 plan after October 2002, no options may be granted under the 1996 plan after October 2006 and no options may be granted under the 1999 plans after April and October 2009. No charges to income have resulted from grants under the 1992 and 1996 plans.

Under provisions of the plans, participants may deliver our stock, owned by the holder for at least six months, in payment of the option price and receive credit for the fair market value of the shares on the date of delivery. The fair value of shares delivered in 2001 were \$0.2 million. Shares delivered in 2000 and 1999 were not significant.

We measure compensation expense related to stock options in accordance with Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees." Accordingly, at the time options are granted, no compensation expense was recognized in the accompanying consolidated financial statements due to the option strike price being greater than or equal to the market value of the stock on the grant date. If compensation expense was determined based on the estimated fair value of options granted in 2001, 2000 and 1999, consistent with the methodology in SFAS No. 123, "Accounting for Stock Based Compensation," our 2001, 2000 and

In addition to stock option grants, several plans permit the award of restricted stock to directors, officers and key employees. During 2001, 2000 and 1999, we granted restricted stock awards of 75,790, 34,800 and 113,000 shares, respectively, which vest over periods of two to six years from the grant date. For some grants, vesting may accelerate due to achieving certain performance goals. Accordingly, a portion of the total cost of these awards of \$1.9 million, \$1.1 million and \$3.1 million for 2001, 2000 and 1999, respectively, is considered unearned compensation. In 1999, additional unearned compensation of \$0.4 million was recognized related to the difference in the stock price between the date of an option grant and the date the employee commenced employment. This option award vests over a three-year period from the grant date. Unearned compensation is amortized to expense over the vesting period. Compensation expense related to these awards was \$2.6 million, \$1.6 million and \$0.1 million in 2001, 2000 and 1999, respectively.

On October 24, 2000, our shareowners approved the Employee Stock Purchase Plan (ESPP), which provides for the purchase by employees of up to 1.5 million shares of capital stock through payroll deductions. Employees who choose to participate in the ESPP receive an option to purchase capital stock at a discount equal to the lower of 85 percent of the fair market value of the capital stock on the first or last day of a purchase period. The ESPP was launched on February 1, 2001 and employees purchased 11,538 shares under the ESPP through June 30, 2001.

NOTE 16--ENVIRONMENTAL MATTERS

We are involved in various environmental cleanup and remediation activities at several of our manufacturing facilities. In addition, we are currently named as a potentially responsible party (PRP) at several Superfund sites in the United States. In December 1999, we recorded a remediation reserve of \$3.0 million with respect to our involvement in these matters, which is recorded as a component of operating expense. This represents our best estimate of the

undiscounted future obligation based on our evaluations and discussions with outside counsel and independent consultants, and the current facts and circumstances related to these matters. We recorded this liability because certain events occurred, including the identification of other PRPs, an assessment of potential remediation solutions and direction from the government for the remedial action plan, that clarified our level of involvement in these matters and our relationship to other PRPs. This led us to conclude that it was probable that a liability had been

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

incurred. Through June 30, 2001, we have incurred costs of \$0.4 million, which were charged against this accrual.

In addition to the amount currently reserved, we may be subject to loss contingencies related to these matters estimated to be up to an additional \$3.0 million. We believe that such undiscounted unreserved losses are reasonably possible but are not currently considered to be probable of occurrence. The reserved and unreserved liabilities could change substantially in the near term due to factors such as the nature and extent of contamination, changes in remedial requirements, technological changes, discovery of new information, the financial strength of other PRPs, the identification of new PRPs and the involvement of and direction taken by the government on these matters.

We maintain a Corporate Environmental, Health and Safety (EH&S) Department, as well as an EH&S Policy Committee, to ensure compliance with environmental regulations and to monitor and oversee remediation activities. In addition, we have established an EH&S administrator at all our global manufacturing facilities. Our financial management team periodically meets with members of the Corporate EH&S Department and the Corporate Legal Department to review and evaluate the status of environmental projects and contingencies. On a quarterly basis, we establish or adjust financial provisions and reserves for environmental contingencies in accordance with SFAS No. 5, "Accounting for Contingencies."

NOTE 17--RIGHTS PLAN

On July 24, 2000, our Board of Directors adopted a new shareowner rights plan to replace our existing plan, which has been in effect since 1990. The new plan became effective upon the expiration of the existing plan on November 2, 2000 and provided for the distribution to shareowners of one stock purchase right for each share of capital stock held as of September 5, 2000. Each right entitles a shareowner to buy 1/100th of a share of a new series of preferred stock at a price of \$120 (subject to adjustment).

The rights are exercisable only if a person or group of persons acquires or intends to make a tender offer for 20 percent or more of our capital stock. If any person acquires 20 percent of the capital stock, each right will entitle the shareowner to receive that number of shares of capital stock having a market value of two times the exercise price. If we are acquired in a merger or other business combination, each right will entitle the shareowner to purchase at the exercise price that number of shares of the acquiring company having a market value of two times the exercise price. The rights will expire on November 2, 2010 and are subject to redemption at \$0.01 per right.

NOTE 18--SEGMENT DATA

In September 2000, we reorganized the financial reporting of our operations to focus on global business units consisting of Metalworking Solutions & Services Group (MSSG), Advanced Materials Solutions Group (AMSG) and JLK/Industrial Supply, and corporate functional shared services. Subsequent to the acquisition of the minority shares of JLK, we split the financial reporting of these operations into two units, J&L and FSS. We also changed our internal reporting structure to add the operations of an integrated supply business to FSS, that was previously reported in J&L. The results of all periods presented have been restated to conform to the new reporting structure. The presentation of segment information reflects the manner in which we organize segments for making operating decisions and assessing performance.

Intersegment sales are accounted for at arm's-length prices, reflecting prevailing market conditions within the various geographic areas. Such sales and associated costs are eliminated in the consolidated financial statements.

NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

Sales to a single customer did not aggregate 10 percent or more of total sales in 2001, 2000 or 1999. Export sales from U.S. operations to unaffiliated customers were \$78.7 million, \$75.8 million and \$69.9 million in 2001, 2000 and 1999, respectively.

METALWORKING SOLUTIONS & SERVICES GROUP

In the MSSG segment, we provide consumable metalcutting tools and tooling systems to manufacturing companies in a wide range of industries throughout the world. Metalcutting operations include turning, boring, threading, grooving, milling and drilling. Our tooling systems consist of a steel toolholder and an indexable cutting tool such as an insert or drill made from cemented tungsten carbides, high-speed steel and other hard materials. We also provide solutions to our customers' metalcutting needs through engineering services aimed at improving their competitiveness.

ADVANCED MATERIALS SOLUTIONS GROUP

In the AMMSG segment, the principal business is the production and sale of cemented tungsten carbide products used in mining and highway construction, engineered applications, including circuit board drills, compacts and other similar applications. These products have technical commonality to our core metalworking products. We also sell metallurgical powders to manufacturers of cemented tungsten carbide products.

J&L INDUSTRIAL SUPPLY

In this segment, we provide metalworking consumables and related products to small- and medium-sized manufacturers in the United States and the United Kingdom. J&L markets products and services through annual mail-order catalogs and monthly sale flyers, telemarketing, retail stores, the Internet and field sales.

FULL SERVICE SUPPLY

In the FSS segment, we provide metalworking consumables and related products to medium- and large-sized manufacturers in the United States and Canada. FSS offers integrated supply programs that provide inventory management systems, just-in-time availability and programs that focus on total cost savings.

J&L operating income for 2001 was reduced by \$5.0 million related to restructuring and asset impairment charges, \$3.0 million related to product pruning initiatives (see Note 13), and \$2.1 million of costs primarily related to the tender offer to acquire the minority shares of JLK (see Note 3). MSSG, AMSG, FSS and Corporate operating income for 2001 was reduced by \$3.3 million, \$0.9 million, \$0.6 million and \$0.4 million, respectively, related to restructuring charges (see Note 13).

MSSG operating income for 2000 was reduced by \$11.0 million related to asset impairment charges, costs associated with facility and product rationalizations, and employee severance (see Note 13). AMSG operating income for 2000 was reduced by \$4.8 million related to costs associated with facility rationalizations including costs to exit a related joint venture, employee severance and asset impairment charges (see Note 13). J&L operating income for 2000 was reduced by \$0.6 million related to employee severance costs (see Note 13) and \$0.2 million related to the evaluation of strategic alternatives (see Note 3). Corporate operating income for 2000 was reduced by \$3.0 million related to environmental remediation costs (see Note 16), \$2.2 million related to employee severance costs (see Note 13), and \$0.6 million related to the evaluation of strategic alternatives (see Note 3).

MSSG operating income for 1999 was reduced by \$11.1 million related to the product rationalization program and to close a drill manufacturing plant in Solon, Ohio (see Note 13) and a \$3.8 million one-time charge incurred in the acquisition of 4.9 percent of Toshiba Tungaloy (see Note 4). AMSG operating income for 1999 was reduced by \$5.8 million related to a write-down of an investment in and net receivables from certain international operations in emerging markets (see Note 13). Corporate operating income for 1999 was reduced by \$3.9 million related to a voluntary early retirement benefit program (see Note 13).

KENNAMETAL INC.
STOCK PURCHASE CONTRACTS
STOCK PURCHASE UNITS
DEBT SECURITIES
COMMON STOCK

KENNAMETAL FINANCING I
PREFERRED SECURITIES
GUARANTEED AS SET FORTH HEREIN BY
KENNAMETAL INC.

Kennametal Inc., a Pennsylvania corporation ("Kennametal" or the "Company"), from time to time may offer together or separately: (i) Stock Purchase Contracts ("Stock Purchase Contracts") to purchase shares of capital stock, par value \$1.25 per share ("Common Stock"), of the Company; (ii) Stock Purchase Units ("Stock Purchase Units"), each representing ownership of a Stock Purchase Contract and Preferred Securities (as defined herein) or debt obligations of third parties, including U.S. Treasury securities, securing the holder's obligation to purchase Common Stock under the Stock Purchase Contracts; (iii) its debentures (the "Trust Debentures") to be purchased with the proceeds from the sale of preferred securities representing preferred undivided beneficial interests in Kennametal Financing I ("Preferred Securities"), a statutory business trust created under the laws of the State of Delaware (the "Trust"), and its other debentures, notes and other debt securities in one or more series, (the "Senior Debt Securities;" and together with the Trust Debentures, the "Debt Securities"); (iv) Common Stock; and (v) the Trust may offer, from time to time, its Preferred Securities, in each case in amounts, at prices and on terms to be determined at the time or times of offering. The aggregate initial offering price of all of the Securities (as defined herein) which may be sold pursuant to this Prospectus will not exceed U.S. \$1,400,000,000 (or its equivalent based on the applicable exchange rate at the time of issue in one or more foreign currencies or currency units as shall be designated by Kennametal). The Stock Purchase Contracts, Stock Purchase Units, Debt Securities, Common Stock and Preferred Securities are collectively called the "Securities."

(continued on next page)

The Common Stock is listed on the New York Stock Exchange (the "NYSE") under the trading symbol "KMT." An accompanying Prospectus Supplement will state whether any Securities offered thereby will be listed on any national securities exchange. If such Securities are not listed on any national securities exchange, there can be no assurance that there will be a secondary market for any such Securities.

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION NOR HAS THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The Company may sell the Securities to or through underwriters, through dealers or agents, directly to purchasers or through a combination of such methods. See "Plan of Distribution." An accompanying Prospectus Supplement sets forth the names of any underwriters, dealers or agents, if any, involved in the sale of the Securities in respect of which this Prospectus is being delivered, and any applicable fee, commission or discount arrangements with them.

THIS PROSPECTUS MAY NOT BE USED TO CONSUMMATE SALES OF SECURITIES UNLESS ACCOMPANIED BY A PROSPECTUS SUPPLEMENT.

THE DATE OF THIS PROSPECTUS IS JANUARY 22, 1998.

(continued from prior page)

Certain specific terms of the particular Securities in respect of which this Prospectus is being delivered are set forth in an accompanying prospectus supplement (the "Prospectus Supplement"), including, where applicable: (i) in the case of Stock Purchase Contracts, the number of shares of Common Stock issuable thereunder, the purchase price of the Common Stock, the date or dates on which the Common Stock is required to be purchased by the holders of the Stock Purchase Contracts, any periodic payments required to be made by the Company to the holders of the Stock Purchase Contracts or vice versa, and the terms of the offering and sale thereof; (ii) in the case of Stock Purchase Units, the specific terms of the Stock Purchase Contracts and any Preferred Securities or debt obligations of third parties securing the holder's obligation to purchase the Common Stock under the Stock Purchase Contracts, and the terms of the offering and sale thereof; (iii) in the case of Debt Securities, the specific designation, aggregate principal amount, denominations, maturity, interest payment dates, interest rate (which may be fixed or variable) or method of calculating interest, if any, applicable Extension Period (as defined below) or interest deferral terms, if any, place or places where principal, premium, if any, and interest, if any, will be payable, any terms of redemption, any sinking fund provisions, terms for any conversion or exchange into other securities, initial offering or purchase price, methods of distribution and any other special terms; (iv) in the case of Preferred Securities, the specific title, aggregate amount, stated liquidation preference, number of securities, the rate of payment of periodic cash distributions ("Distributions") or method of calculating such rate, applicable Extension Period or Distribution deferral terms, if any, place or places where Distributions will be payable, any terms of redemption, initial offering or purchase price, methods of distribution and any other special terms; and (v) in the case of Common Stock, the number of shares offered, the methods of distribution and the public offering or purchase price. If so specified in the applicable Prospectus Supplement, the Securities offered thereby may be issued in whole or in part in the form of one or more temporary or permanent global securities ("Global Securities").

Unless otherwise specified in a Prospectus Supplement, the Debt Securities will be senior unsecured obligations of the Company and will rank pari passu in right of payment with all of the Company's other senior unsecured obligations. If provided in an accompanying Prospectus Supplement, the Company will have the right to defer principal payments or payments of interest on any series of Debt Securities by extending the interest payment period thereon at any time or from time to time for such number of consecutive interest payment periods (which shall not extend beyond the maturity of the Debt Securities) with respect to each deferral period as may be specified in such Prospectus Supplement (each, an "Extension Period"). See "Description of Debt Securities--Option to Defer Interest Payments". The Debt Securities may be denominated in U.S. Dollars, or at the option of Kennametal, to the extent described herein and in the applicable Prospectus Supplement, in one or more foreign currencies or currency units.

The Company will be the owner of the common securities (the "Common Securities" and, together with the Preferred Securities, the "Trust Securities") of the Trust. The payment of Distributions with respect to the Preferred Securities and payments on liquidation or redemption with respect to the Preferred Securities, in each case out of funds held by the Trust, will be irrevocably guaranteed by the Company to the extent described herein (the "Guarantee"). Certain payments in respect of the Common Securities may also be guaranteed by the Company. See "Description of the Guarantee." Unless otherwise specified in a Prospectus Supplement, the obligations of the Company under the Guarantee will be senior unsecured obligations of the Company and will rank pari passu with all of the Company's other senior unsecured obligations. Concurrently with the issuance by the Trust of the Preferred Securities, the Trust will invest the proceeds thereof and any contributions made in respect of the Common Securities in the Trust Debentures, which will have terms corresponding to the terms of the Preferred Securities. The Trust Debentures will be the sole assets of the Trust, and payments under the Trust Debentures and those made by the Company in respect of fees and expenses incurred by the Trust will be the only revenues of the Trust. Upon the occurrence of certain events as are described herein and in the applicable Prospectus Supplement, the Company may redeem the Trust Debentures and cause the redemption of the Trust Securities. In addition, if provided in the applicable Prospectus Supplement, the Company may dissolve the Trust at any time and, after satisfaction of the liabilities to creditors of the Trust as provided by applicable law, cause the Trust Debentures to be distributed to the holders of the Preferred Securities in liquidation of their interests in

the Trust. See "Description of Preferred Securities--Redemption--Distribution of Trust Debentures" and "--Liquidation Distribution Upon Dissolution."

Holders of the Preferred Securities will be entitled to receive preferential cumulative cash Distributions accruing from the date of original issuance and payable periodically as specified in an accompanying Prospectus Supplement. If provided in an accompanying Prospectus Supplement, the Company will have the right to defer payments of interest on the Trust Debentures by extending the interest payment period thereon at any time or from time to time for one or more Extension Periods (which shall not extend beyond the maturity of the Trust Debentures). If interest payments are so deferred, Distributions on the Preferred Securities will also be deferred and the Company will not be permitted, subject to certain exceptions set forth herein, to declare or pay any cash distributions with respect to the Company's capital stock or debt securities that rank junior to the Trust Debentures. During an Extension Period, Distributions will continue to accumulate (and the Preferred Securities will accumulate additional Distributions thereon at the rate per annum if and as specified in the related Prospectus Supplement). See "Description of Preferred Securities--Distributions."

Taken together, the Company's obligations under the Trust Debentures, the Indenture (as defined herein), the Declaration (as defined herein) and the Guarantee, in the aggregate, have the effect of providing a full, irrevocable and unconditional guarantee of payments of Distributions and other amounts due on the Preferred Securities. See "Relationship Among the Preferred Securities, the Trust Debentures and the Guarantee."

No dealer, salesman or other individual has been authorized to give any information or to make any representations not contained in this Prospectus, any accompanying Prospectus Supplement or the documents incorporated or deemed incorporated by reference herein. If given or made, such information or representations must not be relied upon as having been authorized by the Company or any underwriter, dealer or agent. This Prospectus does not constitute an offer to sell, or a solicitation of an offer to buy, any securities other than the registered securities to which it relates, or an offer to sell or a solicitation of an offer to buy those securities to which it relates, in any jurisdiction where, or to any person to whom, it is unlawful to make such offer or solicitation. Neither the delivery of this Prospectus or any Prospectus Supplement nor any sale made hereunder shall, under any circumstances, create any implication that there has not been any change in the facts set forth in this Prospectus or in the affairs of the Company since the date hereof.

AVAILABLE INFORMATION

The Company is subject to the informational requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and in accordance therewith files reports, proxy statements and other information with the Securities and Exchange Commission (the "Commission"). Such reports, proxy statements and other information can be inspected and copied at the public reference facilities maintained by the Commission at 450 Fifth Street, N.W., Room 1024, Washington, D.C. 20549, and at the Commission's regional offices at Seven World Trade Center, New York, New York 10048 and Citicorp Center, 500 West Madison Street, Suite 1400, Chicago, Illinois 60661, and copies may be obtained at prescribed rates from the Public Reference Section of the Commission at its principal office in Washington, D.C. In addition, the Registration Statement may be accessed electronically at the Commission's site on the World Wide Web at <http://www.sec.gov>. The Company's reports are also on file at the offices of the NYSE, 20 Broad Street, New York, New York 10005.

The Company has filed with the Commission a Registration Statement on Form S-3 (herein, together with all amendments and exhibits, referred to as the "Registration Statement") under the Securities Act of 1933, as amended (the "Securities Act"). This Prospectus does not contain all of the information set forth in the Registration Statement and the exhibits and schedules thereto, as permitted by the rules and regulations of the Commission. For further information with respect to the Securities being offered, reference is made to the Registration Statement which can be inspected at the public reference facilities at the offices of the Commission. No separate financial statements of the Trust have been included herein. The Company and the Trust do not consider that such financial statements would be material to holders of the Preferred Securities because the Trust is a newly formed special purpose entity, has no operating history or independent operations and is not engaged in and does not propose to engage in any activity other than its holding as trust assets the Trust Debentures, and the issuance of the Trust Securities. See "The Trust," "Description of Preferred Securities" and "Description of the Guarantee."

The Trust is not currently subject to the information reporting requirements of the Exchange Act.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The following documents filed with the Commission are incorporated herein by reference:

- (1) Kennametal's Annual Report on Form 10-K for the fiscal year ended June 30, 1997, and Greenfield Industries, Inc.'s ("Greenfield") Annual Report on Form 10-K for the fiscal year ended December 31, 1996;
- (2) Kennametal's Proxy Statement dated September 12, 1997, and Greenfield's Information Statement pursuant to Section 14(f) dated October 17, 1997;
- (3) Kennametal's Current Report on Form 8-K dated November 20, 1997, as amended on December 31, 1997;
- (4) Kennametal's Quarterly Report on Form 10-Q for the period ended September 30, 1997, and Greenfield's Quarterly Reports on Form 10-Q for the periods ended March 31, 1997, June 30, 1997 and September 30, 1997; and
- (5) the descriptions of Kennametal's Common Stock and Preferred Stock Purchase Rights contained in Kennametal's Registration Statements filed under Section 12(b) of the Exchange Act, including any amendments or reports filed for the purpose of updating such descriptions.

All documents filed by the Company pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act subsequent to the date of this Prospectus and prior to the termination of the offering of the Securities shall be deemed to be incorporated by reference in this Prospectus and to be a part hereof from the date of filing of such documents. Any statement contained in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for purposes of this Prospectus to the extent that a statement contained herein or in any other subsequently filed document which also is or is deemed to be incorporated by reference herein modifies or supersedes such statement. Any such statement so modified or superseded shall not

be deemed, except as so modified or superseded, to constitute a part of this Prospectus or any such amendment or supplement.

The Company will provide without charge to each person to whom a copy of this Prospectus is delivered, upon the written or oral request of such person, a copy of any or all of the documents incorporated herein, other than exhibits to such documents unless such exhibits are specifically incorporated by reference into such documents. Requests for such documents should be directed to: Kennametal Inc., Route 981 South at Westmoreland County Airport, Latrobe, Pennsylvania 15650, Attention: David T. Cofer, Vice President, Secretary and General Counsel, telephone (412) 539-5000.

KENNAMETAL INC.

The Company is a vertically integrated global manufacturer, marketer and distributor of a broad range of consumable tools, supplies and services for the metalworking, mining and highway construction industries. Kennametal specializes in developing and manufacturing tools utilizing tungsten carbide powder metallurgy for the three primary metalcutting methods: turning, milling and drilling. In addition, through its 80%-owned subsidiary, JLK Direct Distribution Inc. ("JLK"), the Company markets and distributes a broad line of consumable metalcutting tools, as well as abrasives, machine tool accessories, hand tools, measuring equipment and other industrial supplies used in the metalworking industry. The Company is a recognized leader in turning and milling consumable metalcutting tools and believes it is the largest North American and the second largest global provider of consumable metalcutting tools and supplies. Leveraging its expertise in tungsten carbide powder metallurgy, the Company has developed innovative consumable tools for the mining and construction industries and believes it is the largest global manufacturer, marketer and distributor of such tools to these markets. End users of the Company's metalworking products include manufacturers and suppliers in the aerospace, automotive, construction and farm machinery, railroad equipment, power generation and transmission equipment, home appliance, electrical equipment and oil field services and gas exploration industries.

The address of the Company's principal executive office is Route 981 South at Westmoreland County Airport, Latrobe, Pennsylvania 15650 and its telephone number is (412) 539-5000.

THE TRUST

The Trust is a statutory business trust created under the laws of the State of Delaware pursuant to (i) an agreement of trust, dated as of November 12, 1997, executed by the Company, as sponsor (the "Sponsor") and certain of the trustees of the Trust (the "Kennametal Trustees") and (ii) the filing of a certificate of trust with the Secretary of State of the State of Delaware on November 12, 1997. Such agreement of trust will be amended and restated in its entirety (the "Declaration") substantially in the form filed as an exhibit to the Registration Statement of which this Prospectus forms a part. The Declaration will be qualified as an indenture under the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act"). The Company will directly or indirectly acquire Common Securities in an aggregate liquidation amount equal to 3% of the total capital of the Trust. The Trust exists for the exclusive purposes of (i) issuing the Trust Securities representing undivided beneficial interests in the assets of the Trust, (ii) investing the proceeds of the Trust Securities in the Trust Debentures and (iii) engaging in only those other activities necessary or incidental thereto unless otherwise specified in the applicable Prospectus Supplement. The Trust has a term of approximately seven (7) years, but may dissolve earlier as provided in the Declaration.

Pursuant to the Declaration, the number of Kennametal Trustees initially is five. Three of the Kennametal Trustees (the "Regular Trustees") are persons who are employees or officers of or who are affiliated with the Company. Pursuant to the Declaration, the fourth trustee will be a financial institution that is unaffiliated with the Company, which trustee serves as institutional trustee under the Declaration and as indenture trustee for the purposes of compliance with the provisions of the Trust Indenture Act (the "Institutional Trustee"). For the purpose of compliance with the provisions of the Trust Indenture Act, the Institutional Trustee will also act as trustee (the "Guarantee Trustee") under the Guarantee for the purposes of the Trust Act (as defined herein), until

removed or replaced by the holder of the Common Securities. See "Description of the Guarantee" and "Description of Preferred Securities--Voting Rights; Amendment of Declaration."

The Institutional Trustee will hold title to the Trust Debentures for the benefit of the holders of the Trust Securities and the Institutional Trustee will have the power to exercise all rights, powers and privileges under the Indenture as the holder of the Trust Debentures. In addition, the Institutional Trustee will maintain exclusive control of a segregated non-interest bearing bank account (the "Property Account") to hold all payments made in respect of the Trust Debentures for the benefit of the holders of the Trust Securities. The Institutional Trustee will make payments of distributions and payments on liquidation, redemption and otherwise to the holders of the Trust Securities out of funds from the Property Account. The Guarantee Trustee will hold the Guarantee for the benefit of the holders of the Preferred Securities. The Company, as the direct or indirect holder of all the Common Securities, will have the right to appoint, remove or replace any Kennametal Trustee and to increase or decrease the number of Kennametal Trustees; provided, that the number of Kennametal Trustees shall be at least three, a majority of which shall be Regular Trustees. The Company will pay all fees and expenses related to the Trust and the offering of the Trust Securities. See "Description of the Guarantee."

The rights of the holders of the Preferred Securities, including economic rights, rights to information and voting rights, are set forth in the Declaration, the Delaware Business Trust Act, as amended (the "Trust Act"), and the Trust Indenture Act. See "Description of the Preferred Securities."

The trustee in the State of Delaware (the "Delaware Trustee") is First Chicago Delaware, Inc., Wilmington, Delaware. The principal place of business of the Trust is c/o Kennametal Inc., Route 981 South, at Westmoreland County Airport, Latrobe, PA 15650, and its telephone number is (412) 539-5000.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratio of earnings to fixed charges of Kennametal for the periods indicated. For the purpose of the calculation of this ratio, earnings represents income from continuing operations before fixed charges, minority interest, provision for income taxes and the cumulative effect of accounting changes. Fixed charges includes interest expense, including amounts capitalized and the portion (one-third) of rental expenses deemed to be representative of interest expense.

USE OF PROCEEDS

Unless otherwise specified in the applicable Prospectus Supplement, Kennametal intends to apply the net proceeds from the sale of the Securities (including Trust Debentures issued to the Trust in connection with the investment by the Trust of all of the proceeds from the sale of the Preferred Securities) to which this Prospectus relates to its general funds to be used for general corporate purposes including capital expenditures, acquisitions, the reduction of indebtedness and other purposes. Funds not required immediately for such purposes may be invested in short-term obligations or used to reduce the future level of the Company's indebtedness.

DESCRIPTION OF DEBT SECURITIES

The following description sets forth certain general terms and provisions of the Debt Securities to which any Prospectus Supplement may relate. The particular terms and provisions of the series of Debt Securities offered by a Prospectus Supplement, and the extent to which such general terms and provisions described below may apply thereto, will be described in the Prospectus Supplement relating to such series of Debt Securities.

The Debt Securities are to be issued in one or more series under an Indenture, as supplemented or amended from time to time (as supplemented or amended, the "Indenture"), between the Company and The First National Bank of Chicago, as trustee (the "Debt Trustee"). This summary of certain terms and provisions of the Debt Securities and the Indenture is not necessarily complete, and reference is hereby made to the copy of the form of the Indenture which is filed as an exhibit to the Registration Statement of which this Prospectus forms a part, and to the Trust Indenture Act. Whenever particular defined terms of the Indenture are referred to in this Section or in a Prospectus Supplement, such defined terms are incorporated herein or therein by reference.

GENERAL

Unless otherwise specified in the applicable Prospectus Supplement, each series of Debt Securities will be issued as senior unsecured debt under the Indenture and will rank pari passu in right of payment with all of the Company's other senior unsecured obligations. Except as otherwise provided in the applicable Prospectus Supplement, the Indenture does not limit the incurrence or issuance of other secured or unsecured debt of the Company, whether under the Indenture, any other indenture that the Company may enter into in the future or otherwise. See the Prospectus Supplement relating to any offering of Securities.

The Debt Securities will be issuable in one or more series pursuant to an indenture supplemental to the Indenture or a resolution of the Company's Board of Directors or a committee thereof.

The applicable Prospectus Supplement or Prospectus Supplements will describe the following terms of each series of Debt Securities: (i) the title of the Debt Securities; (ii) any limit upon the aggregate principal amount of the Debt Securities; (iii) the date or dates on which the principal of the Debt Securities is payable or the method of determination thereof or the right, if any, of the Company to defer payment of principal; (iv) the rate or rates, if any, at which the Debt Securities shall bear interest (including reset rates, if any, and the method by which any such rate will be determined), the Interest Payment Dates on which any such interest shall be payable and the right, if any, of the Company to defer any interest payment; (v) the place or places where, subject to the terms of the Indenture as described below under "--Payment and Paying Agents," the principal of and premium, if any, and interest, if any, on the Debt Securities will be payable ("Place of Payment") and where, subject to the terms of the Indenture as described below under "--Denominations, Registration and Transfer," the Company will maintain an office or agency where Debt Securities may be presented for registration of transfer or exchange and the place or places where notices and demands to or upon the Company in respect of the Debt Securities and the Indenture may be made; (vi) any period or periods within, or date or dates on which, the price or prices at which and the terms and conditions upon which Debt Securities may be redeemed, in whole or in part, at the option of the Company pursuant to any sinking fund or otherwise; (vii) the obligation, if any, of the Company to redeem or purchase the Debt Securities pursuant to any sinking fund or analogous provisions or at the option of a holder and the period or periods within which, the price or prices at which, the currency or currencies (including currency unit or units) in which and the other terms and conditions upon which the Debt Securities shall be redeemed or purchased, in whole or in part, pursuant to such obligation; (viii) the denominations in which any Debt Securities shall be issuable if other than denominations of \$1,000 and any integral multiple thereof; (ix) if other than in U.S. Dollars, the currency or currencies (including currency unit or units) in which the principal of (and premium, if any) and interest, if any, on the Debt Securities shall be payable, or in which the Debt Securities shall be denominated; (x) any additions, modifications or deletions in the Events of Default or covenants of the Company specified in the Indenture with respect to the Debt Securities; (xi) if other than the principal amount thereof, the portion of the principal amount of Debt Securities that shall be payable upon declaration of acceleration of the maturity thereof; (xii) any additions or changes to the Indenture with respect to a series of Debt Securities as shall be necessary to permit or facilitate the issuance of such series in bearer form, registrable or not registrable as to principal, and with or without interest coupons; (xiii) any index or indices used to determine the amount of

payments of principal of and premium, if any, on the Debt Securities and the manner in which such amounts will be determined; (xiv) subject to the terms described under "--Global Debt Securities," whether the Debt Securities of the series shall be issued in whole or in part in the form of one or more Global Securities and, in such case, the depository for such Global Securities; (xv) the appointment of any trustee, registrar, paying agent or agents; (xvi) the terms and conditions of any obligation or right of the Company or a holder to convert or exchange Debt Securities into Preferred Securities or other securities; (xvii) whether the defeasance and covenant defeasance provisions described under "--Satisfaction and Discharge; Defeasance" shall be inapplicable; and (xviii) any other terms of the Debt Securities not inconsistent with the provisions of the Indenture.

Debt Securities may be sold at a substantial discount below their stated principal amount, bearing no interest or interest at a rate which at the time of issuance is below market rates. Certain material U.S. federal income tax consequences and special considerations applicable to any such Debt Securities will be described in the applicable Prospectus Supplement.

If the purchase price of any of the Debt Securities is payable in one or more foreign currencies or currency units or if any Debt Securities are denominated in one or more foreign currencies or currency units or if the principal of, premium, if any, or interest, if any, on any Debt Securities is payable in one or more foreign currencies or currency units, the restrictions, elections, certain material U.S. federal income tax considerations, specific terms and other information with respect to such issue of Debt Securities and such foreign currency or currency units will be set forth in the applicable Prospectus Supplement.

If any index is used to determine the amount of payments of principal, premium, if any, or interest on any series of Debt Securities, certain material U.S. federal income tax, accounting and other considerations applicable thereto will be described in the applicable Prospectus Supplement.

DENOMINATIONS, REGISTRATION AND TRANSFER

Unless otherwise specified in the applicable Prospectus Supplement, the Debt Securities will be issuable only in registered form without coupons in denominations of \$1,000 and any integral multiple thereof. Debt Securities of any series will be exchangeable for other Debt Securities of the same issue and series, of any authorized denominations of a like aggregate principal amount, the same original issue date ("Original Issue Date"), stated maturity ("Stated Maturity") and bearing the same interest rate.

Each series of Debt Securities may be presented for exchange as provided above, and may be presented for registration of transfer (with the form of transfer endorsed thereon, or a satisfactory written instrument of transfer, duly executed), at the office of the appropriate Securities Registrar or at the office of any transfer agent designated by the Company for such purpose with respect to such series of Debt Securities and referred to in the applicable Prospectus Supplement, without service charge and upon payment of any taxes and other governmental charges as described in the Indenture. The Company will appoint the Debt Trustee of each series of Debt Securities as Securities Registrar for such series under the Indenture. If the applicable Prospectus Supplement refers to any transfer agents (in addition to the Securities Registrar) initially designated by the Company with respect to any series of Debt Securities, the Company may at any time rescind the designation of any such transfer agent or approve a change in the location through which any such transfer agent acts, provided that the Company maintains a transfer agent in each Place of Payment for such series. The Company may at any time designate additional transfer agents with respect to any series of Debt Securities.

In the event of any redemption, neither the Company nor the Debt Trustee shall be required to (i) issue, register the transfer of or exchange Debt Securities of any series during a period beginning at the opening of business 15 days before the day of mailing of a notice for redemption of Debt Securities of that series, and ending at the close of business on the day of mailing of the relevant notice of redemption or (ii) transfer or exchange any Debt Securities so selected for redemption, except, in the case of any Debt Securities being redeemed in part, any portion thereof not to be redeemed.

GLOBAL DEBT SECURITIES

Unless otherwise specified in the applicable Prospectus Supplement, the Debt Securities of a series may be issued in whole or in part in the form of one or more global securities ("Global Debt Securities") that will be deposited with, or on behalf of, a depository identified in the Prospectus Supplement relating to such series. Global Debt Securities may be issued only in fully registered form and in either temporary or permanent form. Unless and until it is exchanged in whole or in part for the individual Debt Securities represented thereby, a Global Debt Security may not be transferred except as a whole by the depository for such Global Debt Security to a nominee of such depository or by a nominee of such depository to such depository or another nominee of such depository or by the depository or any nominee to a successor depository or any nominee of such successor.

The specific terms of the depository arrangement with respect to a series of Debt Securities will be described in the Prospectus Supplement relating to such series. The Company anticipates that the following provisions will generally apply to depository arrangements.

Upon the issuance of a Global Debt Security, and the deposit of such Global Debt Security with or on behalf of the applicable depository, the depository for such Global Debt Security or its nominee will credit on its book-entry registration and transfer system, the respective principal amounts of the individual Debt Securities represented by such Global Debt Security to the accounts of persons that have accounts with such depository ("Participants"). Such accounts shall be designated by the dealers, underwriters or agents with respect to such Debt Securities or by the Company if such Debt Securities are offered and sold directly by the Company. Ownership of beneficial interests in a Global Debt Security will be limited to participants or persons that may hold interests through Participants. Ownership of beneficial interests in such Global Debt Security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the applicable depository or its nominee (with respect to interests of Participants) and the records of Participants (with respect to interests of persons who hold through Participants). The laws of some states require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and such laws may impair the ability to transfer beneficial interests in a Global Debt Security.

So long as the depository for a Global Debt Security, or its nominee, is the registered owner of such Global Debt Security, such depository or such nominee, as the case may be, will be considered the sole owner or holder of the Debt Securities represented by such Global Debt Security for all purposes under the Indenture. Except as provided below, owners of beneficial interests in a Global Debt Security will not be entitled to have any of the individual Debt Securities of the series represented by such Global Debt Security registered in their names, will not receive or be entitled to receive physical delivery of any such Debt Securities of such series in definitive form and will not be considered the owners or holders thereof under the Indenture.

Payments of principal of (and premium, if any) and interest on individual Debt Securities represented by a Global Debt Security registered in the name of a depository or its nominee will be made to such depository or its nominee, as the case may be, as the registered owner of the Global Debt Security representing such Debt Securities. None of the Company, the Debt Trustee, any paying agent, or the Securities Registrar for such Debt Securities will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interest of the Global Debt Security for such Debt Securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Company expects that the depository for a series of Debt Securities or its nominee, upon receipt of any payment of principal, premium or interest in respect of a permanent Global Debt Security representing any of such Debt Securities, immediately will credit Participants' accounts with payments in amounts proportionate to their respective beneficial interest in the principal amount of such Global Debt Security for such Debt Securities as shown on the records of such depository or its nominee. The Company also expects that payments by Participants to owners of beneficial interests in such Global Debt Security held through such Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in "street name." Such payments will be the responsibility of such Participants.

Unless otherwise specified in the applicable Prospectus Supplement, if the depositary for a series of Debt Securities is at any time unwilling, unable or ineligible to continue as depositary and a successor depositary is not appointed by the Company within 90 days, the Company will issue individual Debt Securities of such series in exchange for the Global Debt Security representing such series of Debt Securities. In addition, unless otherwise specified in the applicable Prospectus Supplement, the Company may at any time and in its sole discretion, subject to any limitations described in the Prospectus Supplement relating to such Debt Securities, determine not to have any Debt Securities of such series represented by one or more Global Debt Securities and, in such event, will issue individual Debt Securities of such series in exchange for such Global Debt Securities. Further, if the Company so specifies with respect to the Debt Securities of a series, an owner of a beneficial interest in a Global Debt Security representing Debt Securities of such series may, on terms acceptable to the Company, the Debt Trustee and the depositary for such Global Debt Security, receive individual Debt Securities of such series in exchange for such beneficial interests, subject to any limitations described in the Prospectus Supplement relating to such Debt Securities. In any such instance, an owner of a beneficial interest in a Global Debt Security will be entitled to physical delivery of individual Debt Securities of the series represented by such Global Debt Security equal in principal amount to such beneficial interest and to have such Debt Securities registered in its name. Individual Debt Securities of such series so issued will be issued in denominations, unless otherwise specified by the Company, of \$1,000 and integral multiples thereof. The applicable Prospectus Supplement may specify other circumstances under which individual Debt Securities may be issued in exchange for the Global Debt Security representing any Debt Securities.

PAYMENT AND PAYING AGENTS

Unless otherwise indicated in the applicable Prospectus Supplement, payment of principal of (and premium, if any) and any interest on Debt Securities will be made at the office of the Debt Trustee in Delaware or at the office of such paying agent or paying agents as the Company may designate from time to time in the applicable Prospectus Supplement, except that at the option of the Company payment of any interest may be made (i) except in the case of Global Debt Securities, by check mailed to the address of the person or entity entitled thereto as such address shall appear in the Securities Register or (ii) by transfer to an account maintained by the person or entity entitled thereto as specified in the Securities Register, provided that proper transfer instructions have been received by the Regular Record Date. Unless otherwise indicated in the applicable Prospectus Supplement, payment of any interest on Debt Securities will be made to the person or entity in whose name such Debt Security is registered at the close of business on the Regular Record Date for such interest, except in the case of defaulted interest ("Defaulted Interest"). The Company may at any time designate additional paying agents or rescind the designation of any paying agent; however, the Company will at all times be required to maintain a paying agent in each Place of Payment for each series of Debt Securities.

Any moneys deposited with the Debt Trustee or any paying agent, or held by the Company in trust, for the payment of the principal of (and premium, if any) or interest on any Debt Security and remaining unclaimed for two years after such principal (and premium, if any) or interest has become due and payable shall, at the request of the Company, be repaid to the Company or released from such trust, as applicable, and the holder of such Debt Security shall thereafter look, as a general unsecured creditor, only to the Company for payment thereof.

OPTION TO DEFER INTEREST PAYMENTS

If provided in the applicable Prospectus Supplement, the Company shall have the right, at any time and from time to time during the term of any series of Debt Securities, to defer the payment of interest for such number of consecutive interest payment periods as may be specified in the applicable Prospectus Supplement (each, an "Extension Period"), subject to the terms, conditions and covenants, if any, specified in such Prospectus Supplement, provided that such Extension Period may not extend beyond the Stated Maturity of the final installment of principal of such series of Debt Securities. Certain material U.S. federal income tax consequences and special considerations applicable to any such Debt Securities will be described in the applicable Prospectus Supplement.

MODIFICATION OF INDENTURE

From time to time, the Indenture may be modified by the Company and the Debt Trustee without the consent of any holders of any series of Debt Securities with respect to certain matters, including (i) to cure any ambiguity, defect or inconsistency or to correct or supplement any provision which may be inconsistent with any other provision of the Indenture, (ii) to qualify, or maintain the qualification of, the Indenture under the Trust Indenture Act and (iii) to make any change that does not materially adversely affect the interests of any holder of such series of Debt Securities. In addition, under the Indenture, certain rights, covenants and obligations of the Company and the rights of holders of any series of Debt Securities may be modified by the Company and the Debt Trustee with the written consent of the holders of at least a majority in aggregate principal amount of such series of outstanding Debt Securities; but no extension of the maturity of any series of Debt Securities, reduction in the interest rate or extension of the time for payment of interest, change in the optional redemption or repurchase provisions in a manner adverse to any holder of such series of Debt Securities, other modification in the terms of payment of the principal of, or interest on, such series of Debt Securities, or reduction of the percentage required for modification, will be effective against any holder of such series of outstanding Debt Securities without such holder's consent.

In addition, the Company and the Debt Trustee may execute, without the consent of any holder of the Debt Securities, any supplemental Indenture for the purpose of creating any new series of Debt Securities.

INDENTURE EVENTS OF DEFAULT

The Indenture provides that any one or more of the following described events with respect to a series of Debt Securities that has occurred and is continuing constitutes an "Indenture Event of Default" with respect to such series of Debt Securities:

(i) failure for 30 days to pay any interest or any sinking fund payment on such series of the Debt Securities when due (subject to the deferral of any due date in the case of an Extension Period); or

(ii) failure to pay any principal or premium, if any, on such series of the Debt Securities when due whether at maturity, upon redemption, by declaration or otherwise; or

(iii) failure to observe or perform in any material respect certain other covenants contained in the Indenture for 90 days after written notice has been given to the Company from the Debt Trustee or the holders of at least 25% in principal amount of such series of outstanding Debt Securities; or

(iv) default resulting in acceleration of other indebtedness of the Company for borrowed money where the aggregate principal amount so accelerated exceeds \$25 million and such acceleration is not rescinded or annulled within 30 days after the written notice thereof to the Company by the Trustee or to the Company and the Trustee by the holders of 25% in aggregate principal amount of the Debt Securities of such series then outstanding, provided that such Event of Default will be remedied, cured or waived if the default that resulted in the acceleration of such other indebtedness is remedied, cured or waived; or

(v) certain events in bankruptcy, insolvency or reorganization of the Company.

The holders of a majority in outstanding principal amount of such series of Debt Securities have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Debt Trustee. The Debt Trustee or the holders of not less than 25% in aggregate outstanding principal amount of such series of Debt Securities may declare the principal due and payable immediately upon an Indenture Event of Default. The holders of a majority in aggregate outstanding principal amount of such series of Debt Securities may annul such declaration and waive the default if the default (other than the non-payment of the principal of such series of Debt Securities which has become due solely by such acceleration) has been cured and a sum sufficient to pay all matured installments of interest and principal due otherwise than by acceleration has been deposited with the Debt Trustee.

The holders of a majority in outstanding principal amount of a series of Debt Securities affected thereby may, on behalf of the holders of all the holders of such series of Debt Securities, waive any past default, except a default in the payment of principal or interest (unless such default has been cured and a sum sufficient to pay all

matured installments of interest and principal due otherwise than by acceleration has been deposited with the Debt Trustee) or a default in respect of a covenant or provision which under the Indenture cannot be modified or amended without the consent of the holder of each outstanding Debt Security of such series of Debt Securities. The Company is required to file annually with the Debt Trustee a certificate as to whether or not the Company is in compliance with all the conditions and covenants applicable to it under the Indenture.

In case an Indenture Event of Default shall occur and be continuing as to a series of Debt Securities, all of which are held by the Trust, the Institutional Trustee will have the right to declare the principal of and the interest on such Debt Securities, and any other amounts payable under the Indenture, to be forthwith due and payable and to enforce its other rights as a creditor with respect to such Debt Securities.

CONSOLIDATION, MERGER, SALE OF ASSETS AND OTHER TRANSACTIONS

The Indenture provides that the Company shall not consolidate with or merge into any other person or entity or sell, assign, convey, transfer or lease its properties and assets substantially as an entirety to any person or entity unless (i) either the Company is the continuing corporation, or any successor or purchaser is a corporation, partnership, or trust or other entity organized under the laws of the United States of America, any State thereof or the District of Columbia, and any such successor or purchaser expressly assumes the Company's obligations on the Debt Securities under a supplemental indenture; and (ii) immediately before and after giving effect thereto, no Indenture Event of Default, and no event which, after notice or lapse of time or both, would become an Indenture Event of Default, shall have happened and be continuing.

The general provisions of the Indenture do not afford holders of the Debt Securities protection in the event of a highly leveraged or other transaction involving the Company that may adversely affect holders of the Debt Securities.

SATISFACTION AND DISCHARGE; DEFEASANCE

The Indenture provides that when, among other things, all Debt Securities not previously delivered to the Debt Trustee for cancellation (i) have become due and payable or (ii) will become due and payable at their Stated Maturity within one year, and the Company deposits or causes to be deposited with the Debt Trustee, as trust funds in trust for the purpose, an amount in the currency or currencies in which the Debt Securities are payable sufficient to pay and discharge the entire indebtedness on the Debt Securities not previously delivered to the Debt Trustee for cancellation, for the principal (and premium, if any) and interest to the date of the deposit or to the Stated Maturity, as the case may be, then the Indenture will cease to be of further effect (except as to the Company's obligations to pay all other sums due pursuant to the Indenture and to provide the officers' certificates and opinions of counsel described therein), and the Company will be deemed to have satisfied and discharged the Indenture.

The Indenture provides that the Company may elect either (a) to terminate (and be deemed to have satisfied) all its obligations with respect to any series of Debt Securities (except for the obligations to register the transfer or exchange of such Debt Securities, to replace mutilated, destroyed, lost or stolen Debt Securities, to maintain an office or agency in respect of the Debt Securities, to compensate and indemnify the Trustee ("defeasance") or (b) to be released from its obligations with respect to certain covenants, ("covenant defeasance"), upon the deposit with the Trustee, in trust for such purpose, of money and/or U.S. Government Obligations (as defined in the Indenture) which through the payment of principal and interest in accordance with their terms will provide money, in an amount sufficient (in the opinion of a nationally recognized firm of independent public accountants) to pay the principal of, interest on and any other amounts payable in respect of the outstanding Debt Securities of such series. Such a trust may be established only if, among other things, the Company has delivered to the Trustee an opinion of counsel (as specified in the Indenture) with regard to certain matters, including an opinion to the effect that the holders of such Debt Securities will not recognize income, gain or loss for Federal income tax purposes as a result of such deposit and discharge and will be subject to Federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance or covenant defeasance, as the case may be, had not occurred.

REDEMPTION

Unless otherwise indicated in the applicable Prospectus Supplement, Debt Securities will not be subject to any sinking fund.

Unless otherwise indicated in the applicable Prospectus Supplement, the Company may, at its option, redeem the Debt Securities of any series in whole at any time or in part from time to time, at the redemption price set forth in the applicable Prospectus Supplement plus accrued and unpaid interest to the date fixed for redemption, and Debt Securities in denominations larger than \$50 may be redeemed in part but only in integral multiples of \$50. If the Debt Securities of any series are so redeemable only on or after a specified date or upon the satisfaction of additional conditions, the applicable Prospectus Supplement will specify such date or describe such conditions.

Notice of any redemption will be mailed at least 30 days but not more than 60 days before the redemption date to each holder of Debt Securities to be redeemed at such holder's registered address. Unless the Company defaults in the payment of the redemption price, on and after the redemption date interest shall cease to accrue on such Debt Securities or portions thereof called for redemption.

CONVERSION OR EXCHANGE

If and to the extent indicated in the applicable Prospectus Supplement, the Debt Securities of any series may be convertible or exchangeable into other securities. The specific terms on which Debt Securities of any series may be so converted or exchanged will be set forth in the applicable Prospectus Supplement. Such terms may include provisions for conversion or exchange, either mandatory, at the option of the holder, or at the option of the Company, in which case the number of shares of other securities to be received by the holders of Debt Securities would be calculated as of a time and in the manner stated in the applicable Prospectus Supplement.

CERTAIN COVENANTS

The Indenture contains certain covenants regarding, among other matters, corporate existence, payment of taxes and reports to holders of Debt Securities. If and to the extent indicated in the applicable Prospectus Supplement, these covenants may be removed or additional covenants added with respect to any series of Debt Securities.

GOVERNING LAW

The Indenture and the Debt Securities will be governed by and construed in accordance with the laws of the State of New York.

MISCELLANEOUS

The Company will pay all fees and expenses related to (i) the offering of the Trust Securities and the Debt Securities, (ii) the organization, maintenance and dissolution of the Trust, (iii) the retention of the Kennametal Trustees and (iv) the enforcement by the Institutional Trustee of the rights of the holders of the Preferred Securities.

INFORMATION CONCERNING THE DEBT TRUSTEE

The Debt Trustee shall have and be subject to all the duties and responsibilities specified with respect to an indenture trustee under the Trust Indenture Act. Subject to such provisions, the Debt Trustee is under no obligation to exercise any of the powers vested in it by the Indenture at the request of any holder of the Debt Securities, unless offered reasonable indemnity by such holder against the costs, expenses and liabilities which might be incurred thereby. The Debt Trustee is not required to expend or risk its own funds or otherwise incur personal financial liability in the performance of its duties if the Debt Trustee reasonably believes that repayment or adequate indemnity is not reasonably assured to it.

The First National Bank of Chicago, the Debt Trustee, is also Institutional Trustee under the Declaration and Guarantee Trustee under the Guarantee. The Company maintains trust and other business relationships in the ordinary course of business with The First National Bank of Chicago. Pursuant to the provisions of the Trust Indenture Act, upon the occurrence of certain events, The First National Bank of Chicago may be deemed to have a conflicting interest, by virtue of its acting as the Institutional Trustee, the Debt Trustee and the Guarantee Trustee, its other business relationships with the Company, and by virtue of its subsidiary acting as Delaware Trustee, and thereby may be required to resign and be replaced by a successor trustee under the Indenture, the Declaration and the Guarantee.

DESCRIPTION OF PREFERRED SECURITIES

Pursuant to the terms of the Declaration, the Kennametal Trustees on behalf of the Trust will issue the Preferred Securities and the Common Securities. The Preferred Securities will represent preferred undivided beneficial interests in the assets of the Trust and the holders thereof will be entitled to a preference in certain circumstances with respect to Distributions and amounts payable on redemption or liquidation over the Common Securities, as well as other benefits as described in the Declaration. This summary of certain provisions of the Preferred Securities and the Declaration is not necessarily complete, and reference is hereby made to the copy of the Declaration, including the definitions therein of certain terms, which is filed as an exhibit to the Registration Statement of which this Prospectus forms a part, and to the Trust Indenture Act. Wherever particular defined terms of the Declaration are referred to in this Section or in a Prospectus Supplement, such defined terms are incorporated herein by reference.

GENERAL

The Preferred Securities of the Trust will rank pari passu, and payments will be made thereon pro rata, with the Common Securities of the Trust except as described under "--Subordination of Common Securities." Legal title to the Trust Debentures will be held by the Institutional Trustee in trust for the benefit of the holders of the Preferred Securities and Common Securities. The Guarantee Agreement executed by the Company for the benefit of the holders of the Trust's Preferred Securities (the "Guarantee") will be a guarantee with respect to the Preferred Securities but will not guarantee payment of Distributions or amounts payable on redemption or liquidation of the Preferred Securities when the Trust does not have funds on hand available to make such payments. See "Description of the Guarantee."

DISTRIBUTIONS

The Trust's Preferred Securities will represent preferred undivided beneficial interests in the assets of the Trust, and the Distributions on each Preferred Security will be payable at a rate specified in the Prospectus Supplement for the Preferred Securities. The amount of Distributions payable for any period will be computed on the basis of a 360-day year of twelve 30-day months unless otherwise specified in the applicable Prospectus Supplement. Distributions that are in arrears will accumulate additional Distributions thereon at the rate per annum if and as specified in the applicable Prospectus Supplement ("Additional Amounts"). The term "Distributions" as used herein includes any Additional Amounts unless otherwise stated.

Distributions on the Preferred Securities will be cumulative, will accumulate from the date of original issuance and will be payable on such dates as specified in the applicable Prospectus Supplement. In the event that any date on which Distributions are payable on the Preferred Securities is not a Business Day (as defined below), payment of the Distribution payable on such date will be made on the next succeeding day that is a Business Day (and without any interest or other payment in respect of any such delay) except that, if such Business Day is in the next succeeding calendar year, payment of such Distribution shall be made on the immediately preceding Business Day, in each case with the same force and effect as if made on such date (each date on which Distributions are payable in accordance with the foregoing, a "Distribution Date"). A "Business Day" shall mean any day other than a Saturday or a Sunday, or a day on which banking institutions in The City of New York are authorized or required by law or executive order to remain closed or a day on which the corporate trust office of the Institutional Trustee or the Debt Trustee is closed for business.

If provided in the applicable Prospectus Supplement, the Company has the right under the Indenture to defer payments of interest on the Trust Debentures by extending the interest payment period thereon from time to time for a period or periods that will be specified in the applicable Prospectus Supplement. Such extension right, if exercised, would result in the deferral of Distributions on the Preferred Securities (though such Distributions would continue to accumulate additional Distributions thereon at the rate per annum if and as specified in the applicable Prospectus Supplement) during any such extended interest payment period. Such right to extend the interest payment period for the Trust Debentures is limited to a period not extending beyond the Stated Maturity of the Trust Debentures. In the event that the Company exercises this right, then (a) the Company shall not declare or pay dividends on, make distributions with respect to, or redeem, purchase or acquire, or make a

liquidation payment with respect to, any of its capital stock other than (i) purchases or acquisitions of capital stock (of the Company in connection with the satisfaction by the Company of its obligations under any employee or agent benefit plans or the satisfaction by the Company of its obligations pursuant to any contract or security outstanding on the date of such event requiring the Company to purchase capital stock of the Company), (ii) as a result of a reclassification of the Company's capital stock or the exchange or conversion of one class or a series of the Company's capital stock for another class or a series of the Company's capital stock, (iii) the purchase of fractional interests in shares of the Company's capital stock pursuant to the conversion or exchange provisions of such capital stock or the security being converted or exchanged, (iv) dividends or distributions in capital stock of the Company (or rights to acquire capital stock) or repurchases or redemptions of capital stock solely from the issuance or exchange of capital stock and (v) redemptions or repurchases of any rights pursuant to the Rights Agreement, and the declaration thereunder of a dividend of rights in the future), (b) the Company shall not make any payment of interest, principal or premium, if any, on or repay, repurchase or redeem any debt securities issued by the Company that rank junior to the Trust Debentures, although it may make any such payments or repay, repurchase or redeem any debt securities that rank pari passu with the Trust Debentures and (c) the Company shall not make any guarantee payments with respect to the foregoing (other than payments pursuant to the Guarantee or the Common Securities Guarantee (as defined herein)). Prior to the termination of any such Extension Period, the Company may further extend the interest payment period; provided, that such Extension Period, together with all such previous and further extensions thereof, may not extend beyond the Stated Maturity of the Trust Debentures. Upon the termination of any Extension Period and the payment of all amounts then due, the Company may select a new Extension Period, subject to the above requirements. See "Description of the Debentures--Option to Defer Interest Payments." If Distributions are deferred, the deferred Distributions and accumulated additional Distributions thereon shall be paid to holders of record of the Preferred Securities as they appear on the books and records of the Trust on the record date next following the termination of such deferral period.

It is anticipated that the revenue of the Trust available for distribution to holders of its Preferred Securities will be limited to payments under the Trust Debentures in which the Trust will invest the proceeds from the issuance and sale of the Preferred Securities and the Common Securities. If the Company does not make interest payments on such Trust Debentures, the Institutional Trustee will not have funds available to pay Distributions on the Preferred Securities. The payment of Distributions (if and to the extent the Trust has funds legally available for the payment of such Distributions and cash sufficient to make such payments) is guaranteed by the Company on a limited basis as set forth herein under "Description of the Guarantee."

Distributions on the Preferred Securities will be payable to the holders thereof as they appear on the register of the Trust on the relevant record dates, which, as long as the Preferred Securities remain in book-entry form, will be one Business Day prior to the relevant Distribution Date. Subject to any applicable laws and regulations and the provisions of the Declaration, unless otherwise specified in the applicable Prospectus Supplement, each such payment will be made as described under "Book-Entry Issuance." In the event any Preferred Securities are not in book-entry form, the relevant record date for such Preferred Securities shall be the date, at least 15 days prior to the relevant Distribution Date, that is specified in the applicable Prospectus Supplement.

REDEMPTION

MANDATORY REDEMPTION. Unless otherwise specified in the applicable Prospectus Supplement, upon any repayment, redemption, in whole or in part, of any Trust Debentures that are held by the Trust unless otherwise specified in the applicable Prospectus Supplement, whether at maturity or upon earlier redemption as provided in the Indenture, the proceeds from such repayment or redemption shall be applied by the Institutional Trustee to redeem a Like Amount (as defined below) of the related Trust Securities, upon not less than 30 nor more than 60 days notice, at a redemption price (the "Redemption Price") equal to the aggregate liquidation amount of such Trust Securities plus accumulated and unpaid Distributions thereon to the date of redemption (the "Redemption Date") and the related amount of the premium, if any, paid by the Company upon the concurrent redemption of such Trust Debentures. If less than all of any series of Trust Debentures that are held by the Trust are to be repaid or redeemed on a Redemption Date, then the proceeds from such repayment or redemption shall be allocated to the redemption pro rata of the Preferred Securities and the Common Securities. The amount of premium, if any,

paid by the Company upon the redemption of all or any part of any Trust Debentures held by the Trust shall be allocated pro rata to the Preferred Securities and the Common Securities.

DISTRIBUTION OF TRUST DEBENTURES. Unless otherwise specified in the applicable Prospectus Supplement, the Company will have the right at any time to dissolve the Trust and, after satisfaction of the liabilities of creditors of the Trust as provided by applicable law, to cause the Trust Debentures in respect of the Trust Securities issued by the Trust to be distributed to the holders of the Trust Securities in liquidation of the Trust.

After the liquidation date fixed for any distribution of Trust Debentures held by the Trust, (i) the Preferred Securities will no longer be deemed to be outstanding, (ii) the depository (if any) for the Preferred Securities, as the record holder of the Preferred Securities, will receive a registered global certificate or certificates representing the Trust Debentures to be delivered upon such distribution and (iii) any certificates representing such Preferred Securities not held by or on behalf of such depository will be deemed to represent the Trust Debentures having a principal amount equal to the liquidation amount of the Preferred Securities, and bearing accrued and unpaid interest in an amount equal to the accrued and unpaid Distributions on the Preferred Securities, until such certificates are presented to the Regular Trustees or their agent for transfer or reissuance.

There can be no assurance as to the market prices for the Preferred Securities or the Trust Debentures that may be distributed in exchange for Preferred Securities if a dissolution or liquidation of the Trust were to occur. Accordingly, the Preferred Securities that an investor may purchase, or the Trust Debentures that the investor may receive on dissolution or liquidation of the Trust, may trade at a discount to the price that the investor paid to purchase the Preferred Securities offered hereby.

SPECIAL EVENT REDEMPTION. If a Tax Event or an Investment Company Event (each as defined below or in the applicable Prospectus Supplement, a "Special Event") shall occur and be continuing, unless otherwise specified in the applicable Prospectus Supplement, the Company will have the right to redeem the Trust Debentures in whole (but not in part) and therefore cause a mandatory redemption of the Trust Securities in whole (but not in part) at the Redemption Price within 90 days following the occurrence of such Special Event.

If provided in the applicable Prospectus Supplement, the Company shall have the right to extend or shorten the maturity of any series of Trust Debentures held by the Trust at the time that the Company exercises its right to elect to dissolve the Trust and, after satisfaction of the liability to creditors of the Trust as provided by applicable law, cause such Trust Debentures to be distributed to the holders of the Preferred Securities and Common Securities of the Trust in liquidation of the Trust, provided that it can extend the maturity only if certain conditions specified in the applicable Prospectus Supplement are met at the time such election is made and at the time of such extension.

"Tax Event" means the receipt by the Trust of an opinion of counsel experienced in such matters to the effect that, as a result of (i) any amendment to, or change (including any announced prospective change) in, the laws (or any regulations thereunder) of the United States or any political subdivision or taxing authority thereof or therein affecting taxation, (ii) any amendment to or change in an interpretation or application of such laws or regulations by any legislative body, court, governmental agency or regulatory authority or (iii) any interpretation or pronouncement that provides for a position with respect to such laws or regulations that differs from the generally accepted position on the date the Preferred Securities are issued, which amendment or change is effective or which interpretation or pronouncement is announced on or after the date of issuance of the Preferred Securities under the Declaration, there is more than an insubstantial risk that (x) the Trust is, or will be within 90 days of the date thereof, subject to U.S. federal income tax with respect to income received or accrued on the Trust Debentures, (y) interest payable by the Company on the Debentures is not, or within 90 days of the date thereof, will not be, deductible, in whole or in part, for U.S. federal income tax purposes, or (z) the Trust is, or will be within 90 days of the date thereof, subject to more than a de minimis amount of other taxes, duties or other governmental charges.

"Investment Company Event" means the occurrence of a change in law or regulation or a written change in interpretation or application of law or regulation by any legislative body, court, governmental agency or regulatory authority (a "Change in 1940 Act Law") to the effect that there is a more than insubstantial risk that the Trust is or will be considered an "investment company" that is required to be registered under the Investment

Company Act of 1940, as amended (the "Investment Company Act"), which Change in 1940 Act Law becomes effective on or after the date of original issuance of the Preferred Securities.

"Like Amount" means (i) with respect to a redemption of any Trust Securities, Trust Securities having a liquidation amount equal to that portion of the principal amount of Trust Debentures to be contemporaneously redeemed in accordance with the Indenture, allocated to the Common Securities and to the Preferred Securities based upon the relative liquidation amounts of such classes of Trust Securities, and the proceeds of which will be used to pay the Redemption Price of such Trust Securities, and (ii) with respect to a distribution of Trust Debentures to holders of any Trust Securities in connection with a dissolution or liquidation of Trust, Trust Debentures having a principal amount equal to the liquidation amount of the Trust Securities of the holder to whom such Trust Debentures are distributed.

REDEMPTION PROCEDURES

Preferred Securities redeemed on each Redemption Date shall be redeemed at the Redemption Price with the applicable proceeds from the contemporaneous redemption of the Trust Debentures. Redemptions of Preferred Securities shall be made and the Redemption Price shall be payable on each Redemption Date only to the extent that the Trust has funds on hand available for the payment of such Redemption Price. See also "--Subordination of Common Securities."

If the Trust gives a notice of redemption in respect of the Preferred Securities, then, on the Redemption Date, to the extent funds are available, the Institutional Trustee will deposit irrevocably with the Depositary for the Preferred Securities (if such Preferred Securities are issued in the form of one or more Global Preferred Securities) funds sufficient to pay the applicable Redemption Price and will give such Depositary irrevocable instructions and authority to pay the Redemption Price to the beneficial owners of the Preferred Securities. See "--Global Preferred Securities" and "Book-Entry Issuance." If the Preferred Securities are not issued in the form of one or more Global Preferred Securities, the Trust, to the extent funds are available, will irrevocably deposit with the paying agent for the Preferred Securities funds sufficient to pay the applicable Redemption Price and will give such paying agent irrevocable instructions and authority to pay the Redemption Price to the holders thereof upon surrender of their certificates evidencing the Preferred Securities. Notwithstanding the foregoing, Distributions payable on or prior to the Redemption Date for the Preferred Securities called for redemption shall be payable to the holders of the Preferred Securities on the relevant record dates for the related Distribution Dates. If a notice of redemption shall have been given and funds deposited as required, then upon the date of such deposit, all rights of the holders of the Preferred Securities so called for redemption will cease, except the right of the holders of the Preferred Securities to receive the Redemption Price, but without interest on such Redemption Price, and the Preferred Securities will cease to be outstanding. In the event that any date fixed for redemption of Preferred Securities is not a Business Day, then payment of the Redemption Price payable on such date will be made on the next succeeding day which is a Business Day (and without any interest or other payment in respect of any such delay), except that, if such Business Day falls in the next calendar year, such payment will be made on the immediately preceding Business Day. In the event that payment of the Redemption Price in respect of Preferred Securities called for redemption is improperly withheld or refused and not paid either by the Trust or by the Company pursuant to the Guarantee as described under "Description of the Guarantee", Distributions on such Preferred Securities will continue to accumulate at the then applicable rate, from the Redemption Date originally established by the Trust for the Preferred Securities to the date such Redemption Price is actually paid, in which case the actual payment date will be the date fixed for redemption for purposes of calculating the Redemption Price.

Subject to applicable law (including, without limitation, U.S. federal securities law), the Company or its subsidiaries may at any time and from time to time purchase outstanding Preferred Securities by tender, in the open market or by private agreement.

If less than all of the Preferred Securities and Common Securities issued by the Trust are to be redeemed on a Redemption Date, then the aggregate liquidation amount of such Preferred Securities and Common Securities to be redeemed shall be allocated pro rata among the Preferred Securities and Common Securities of such Trust based on the relative liquidation amounts of such classes of Trust Securities. The particular Preferred Securities to

be redeemed shall be selected on a pro rata basis not more than 60 days prior to the Redemption Date by the Institutional Trustee from the outstanding Preferred Securities not previously called for redemption, by such method as the Institutional Trustee shall deem fair and appropriate and which may provide for the selection for redemption of portions (equal to \$50 or an integral multiple of \$50 in excess thereof) of the liquidation amount of Preferred Securities of a denomination larger than \$50. The Institutional Trustee shall promptly notify the registrar in writing of the Preferred Securities selected for redemption and, in the case of any Preferred Securities selected for partial redemption, the liquidation amount thereof to be redeemed. For all purposes of each Declaration, unless the context otherwise requires, all provisions relating to the redemption of Preferred Securities shall relate, in case of any Preferred Securities redeemed or to be redeemed only in part, to the portion of the aggregate liquidation amount of Preferred Securities which has been or is to be redeemed.

Notice of any redemption will be mailed at least 30 days but not more than 60 days before the Redemption Date to each holder of Preferred Securities to be redeemed at its registered address. Unless the Company defaults in payment of the Redemption Price on the Trust Debentures, on and after the Redemption Date interest will cease to accrue on the Trust Debentures or portions thereof (and Distributions will cease to accumulate on the Preferred Securities or portions thereof) called for redemption.

SUBORDINATION OF COMMON SECURITIES

Payment of Distributions (including Additional Amounts, if applicable) on, and the Redemption Price of, the Trust's Preferred Securities and Common Securities, as applicable, shall be made pro rata based on the liquidation amount of such Trust Securities; provided, however, that if on any Distribution Date or Redemption Date, an Indenture Event of Default shall have occurred and be continuing, no payment of any Distribution (including Additional Amounts, if applicable) on, or Redemption Price of, any of the Trust's Common Securities, and no other payment on account of the redemption, liquidation or other acquisition of such Common Securities, shall be made unless payment in full in cash of all accumulated and unpaid Distributions (including Additional Amounts, if applicable) on all of the Trust's outstanding Preferred Securities for all Distribution periods terminating on or prior thereto, or in the case of payment of the Redemption Price the full amount of such Redemption Price on all of the Trust's outstanding Preferred Securities then called for redemption, shall have been made or provided for, and all funds available to the Institutional Trustee shall first be applied to the payment in full in cash of all Distributions (including Additional Amounts, if applicable) on, or Redemption Price of, the Trust's Preferred Securities then due and payable.

In the case of any Event of Default under the Declaration resulting from an Indenture Event of Default, the Company as holder of the Trust's Common Securities will be deemed to have waived any right to act with respect to any such Event of Default under the Declaration until the effect of all such Events of Default with respect to the Preferred Securities have been cured, waived or otherwise eliminated. Until any such Events of Default under the Declaration have been so cured, waived or otherwise eliminated, the Institutional Trustee shall act solely on behalf of the holders of the Preferred Securities and not on behalf of the Company as holder of the Trust's Common Securities, and only the holders of the Preferred Securities will have the right to direct the Institutional Trustee to act on their behalf.

LIQUIDATION DISTRIBUTION UPON DISSOLUTION

Unless otherwise specified in the applicable Prospectus Supplement, pursuant to the Declaration, the Trust shall dissolve (i) on November 12, 2004, the expiration of the term of the Trust, (ii) upon the bankruptcy of the Company, (iii) upon the filing of a certificate of dissolution or its equivalent with respect to the Company, after receipt by the Institutional Trustee of written direction from the Company to dissolve the Trust or after obtaining the consent of the holders of at least a majority in liquidation amount of the Trust Securities affected thereby voting together as a single class to dissolve the Trust, or the revocation of the charter of the Company and the expiration of 90 days after the date of revocation without a reinstatement thereof, (iv) upon the distribution of Trust Debentures, (v) upon the entry of a decree of a judicial dissolution of the holder of the Common Securities, the Company or the Trust, or (vi) upon the redemption of all the Trust Securities.

If an early dissolution occurs as described in clause (ii), (iii) or (v) above, the Trust shall be liquidated by the Kennametal Trustees as expeditiously as the Kennametal Trustees determine to be possible by distributing, after satisfaction of liabilities to creditors of the Trust as provided by applicable law, to the holders of the applicable Trust Securities a Like Amount of the Trust Debentures that are then held by the Trust, unless such distribution is determined by the Institutional Trustee not to be practical, in which event such holders will be entitled to receive out of the assets of the Trust available for distribution to holders, after satisfaction of liabilities to creditors of the Trust as provided by applicable law, an amount equal to, in the case of holders of Preferred Securities, the aggregate of the liquidation amount plus accrued and unpaid Distributions thereon to the date of payment (such amount being the "Liquidation Distribution"). If such Liquidation Distribution can be paid only in part because the Trust has insufficient assets available to pay in full the aggregate Liquidation Distribution, then the amounts payable directly by the Trust on the Preferred Securities shall be paid on a pro rata basis. The holder(s) of the Trust's Common Securities will be entitled to receive distributions upon any such liquidation pro rata with the holders of the Preferred Securities, except that if an Indenture Event of Default has occurred and is continuing, the Preferred Securities shall have a priority over the Common Securities. If specified in the applicable Prospectus Supplement, a supplemental Indenture may provide that if an early dissolution occurs as described in clause (v) above, the Trust Debentures that are then held by the Trust may be subject to optional redemption in whole (but not in part).

EVENTS OF DEFAULT; NOTICE

Any one of the following events constitutes an "Event of Default" under the Declaration (an "Event of Default") with respect to the Preferred Securities issued thereunder (whatever the reason for such Event of Default and whether it shall be voluntary or involuntary or be effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body):

(i) the occurrence of an Indenture Event of Default under the Indenture; or

(ii) default by the Trust in the payment of any Distribution when it becomes due and payable, and continuation of such default for a period of 30 days; or

(iii) default by the Trust in the Payment of any Redemption Price of any Trust Security when it becomes due and payable; or

(iv) default in the performance, or breach, in any material respect, of any covenant or warranty of the Kennametal Trustees in the Declaration (other than a covenant or warranty a default in the performance of which or the breach of which is dealt with in clause (ii) or (iii) above), and continuation of such default or breach for a period of 90 days after written notice has been given to the defaulting Kennametal Trustee or Trustees by the holders of at least 25% in aggregate liquidation amount of the outstanding Preferred Securities, which notice shall specify such default or breach and require it to be remedied and shall state that such notice is a "Notice of Default" under the Declaration; or

(v) the occurrence of certain events of bankruptcy or insolvency with respect to the Institutional Trustee and the failure by the Company to appoint a successor Institutional Trustee within 60 days thereof.

Within five Business Days after the occurrence of any Event of Default actually known to the Institutional Trustee, the Institutional Trustee shall transmit notice of such Event of Default to the holders of the Preferred Securities, the Regular Trustees and the Company, as Sponsor, unless such Event of Default shall have been cured or waived. The Company, as Sponsor, and the Regular Trustees are required to file annually with the Institutional Trustee a certificate as to whether or not they are in compliance with all the conditions and covenants applicable to them under the Declaration.

If an Indenture Event of Default has occurred and is continuing, the Preferred Securities of the Trust shall have a preference over the Common Securities of the Trust upon dissolution of the Trust as described above. See "--Liquidation Distribution Upon Dissolution." The existence of an Event of Default does not entitle the holders of Preferred Securities to accelerate the maturity thereof.

REMOVAL OF KENNAMETAL TRUSTEES

Unless an Indenture Event of Default shall have occurred and be continuing with respect to the Trust Debentures, any Kennametal Trustee may be removed at any time by the holder of the Common Securities. If an Indenture Event of Default with respect to any series of Trust Debentures has occurred and is continuing, the Institutional Trustee and the Delaware Trustee may be removed at such time by the holders of a majority in liquidation amount of the outstanding Preferred Securities of the Trust. In no event will the holders of the Preferred Securities of the Trust have the right to vote to appoint, remove or replace the Administrative Trustees, which voting rights are vested exclusively in the Company as the holder of the Common Securities of the Trust. No resignation or removal of a Kennametal Trustee and no appointment of a successor trustee shall be effective until the acceptance of appointment by the successor trustee in accordance with the provisions of the Declaration.

CO-TRUSTEES AND SEPARATE INSTITUTIONAL TRUSTEE

Unless an Event of Default with respect to the Preferred Securities of the Trust shall have occurred and be continuing, at any time or times, for the purpose of meeting the legal requirements of the Trust Indenture Act or of any jurisdiction in which any part of the trust property ("Trust Property") may at the time be located, the Company, as the holder of the Common Securities of the Trust, and the Regular Trustees shall have power to appoint one or more persons either to act as a co-trustee, jointly with the Institutional Trustee, of all or any part of such Trust Property, or to act as separate trustee of any such property, in either case with such powers as may be provided in the instrument of appointment, and to vest in such person or persons in such capacity any property, title, right or power deemed necessary or desirable, subject to the provisions of the applicable Declaration. In case an Indenture Event of Default with respect to the Trust Debentures has occurred and is continuing, the Institutional Trustee alone shall have power to make such appointment.

MERGER OR CONSOLIDATION OF TRUST TRUSTEES

Any entity into which the Institutional Trustee, the Delaware Trustee or any Regular Trustee that is not a natural person may be merged or converted or with which it may be consolidated, or any entity resulting from any merger, conversion or consolidation to which such Trustee shall be a party, or any entity succeeding to all or substantially all the corporate trust business of such Trustee, shall be the successor of such Trustee under the Declaration, provided such entity shall be otherwise qualified and eligible.

MERGERS, CONSOLIDATIONS OR AMALGAMATIONS

The Trust may not consolidate, amalgamate, merge with or into, or be replaced by, or convey, transfer or lease its properties and assets substantially as an entirety, to any corporation or other body, except as described below or as described in "--Liquidation Distribution Upon Dissolution". The Trust may, with the consent of the Regular Trustees and without the consent of the holders of the Trust Securities, consolidate, amalgamate, merge with or into, or be replaced by a trust organized as such under the laws of any State; provided, that (i) if the Trust is not the survivor, such successor entity either (x) assumes all of the obligations of the Trust under the Trust Securities or (y) substitutes for the Trust Securities other securities having substantially the same terms as the Trust Securities (the "Successor Securities"), so long as the Successor Securities rank the same as the Trust Securities rank with respect to distributions and payments upon liquidation, redemption and otherwise, (ii) the Company expressly acknowledges a trustee of such successor entity possessing the same powers and duties as the Institutional Trustee as the holder of the Trust Debentures, (iii) the Preferred Securities or any Successor Securities are listed, or any Successor Securities will be listed upon notification of issuance, on any national securities exchange or with another organization on which the Preferred Securities are then listed or quoted, (iv) such merger, consolidation, amalgamation or replacement does not cause the Preferred Securities (including any Successor Securities) to be downgraded by any nationally recognized statistical rating organization, (v) such merger, consolidation, amalgamation or replacement does not adversely affect the rights, preferences and privileges of the holders of the Trust Securities (including any Successor Securities) in any material respect (other than with respect to any dilution of the holders' interest in the new entity), (vi) such successor entity has a purpose substantially identical to that of the Trust, (vii) prior to such merger, consolidation, amalgamation or replacement, the Company has received an opinion of independent counsel to the Trust experienced in such

matters to the effect that, (A) such merger, consolidation, amalgamation or replacement does not adversely affect the rights, preferences and privileges of the holders of the Trust Securities (including any Successor Securities) in any material respect (other than with respect to any dilution of the holders' interest in the new entity), (B) following such merger, consolidation, amalgamation or replacement, neither the Trust nor such successor entity will be required to register as an investment company under the 1940 Act and (C) following such merger, consolidation, amalgamation or replacement, the Trust (or the successor entity) will continue to be classified as a grantor trust for United States federal income tax purposes and (viii) the Company guarantees the obligations of such successor entity under the Successor Securities at least to the extent provided by the Guarantee and the Common Securities Guarantee. Notwithstanding the foregoing, the Trust shall not, except with the consent of holders of 100% in liquidation amount of the Trust Securities, consolidate, amalgamate, merge with or into, or be replaced by any other entity or permit any other entity to consolidate, amalgamate, merge with or into, or replace it, if such consolidation, amalgamation, merger or replacement would cause the Trust or the successor entity to be classified as other than a grantor trust for United States federal income tax purposes.

VOTING RIGHTS; AMENDMENT OF DECLARATION

Except as provided below and under "Description of the Guarantee--Modification of the Guarantee; Assignment" and as otherwise required by law and the Declaration, the holders of the Preferred Securities will have no voting rights.

Subject to the requirement of the Institutional Trustee obtaining a tax opinion in certain circumstances set forth in the last sentence of this paragraph, the holders of a majority in aggregate liquidation amount of the Preferred Securities have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Institutional Trustee, or direct the exercise of any trust or power conferred upon the Institutional Trustee under the Declaration including the right to direct the Institutional Trustee, as holder of the Trust Debentures, to (i) exercise the remedies available under the Indenture with respect to the Trust Debentures, (ii) waive any past Indenture Event of Default that is waivable under Section 513 of the Indenture, (iii) exercise any right to rescind or annul a declaration that the principal of all the Trust Debentures shall be due and payable or (iv) consent to any amendment, modification or termination of the Indenture or the Trust Debentures where such consent shall be required; provided, however, that, where a consent or action under the Indenture would require the consent or act of holders of more than a majority in principal amount of the Trust Debentures (a "Super-Majority") affected thereby, only the holders of at least such Super-Majority in aggregate liquidation amount of the Preferred Securities may direct the Institutional Trustee to give such consent or take such action. The Institutional Trustee shall notify all holders of the Preferred Securities of any notice of default received from the Debt Trustee with respect to the Trust Debentures. Such notice shall state that such Indenture Event of Default also constitutes an Event of Default. Except with respect to directing the time, method and place of conducting a proceeding for a remedy, the Institutional Trustee shall not take any of the actions described in clause (i), (ii) or (iii) above unless the Institutional Trustee has obtained an opinion of tax counsel experienced in such matters to the effect that, as a result of such action, the Trust will not fail to be classified as a grantor trust for United States federal income tax purposes.

In the event the consent of the Institutional Trustee, as a holder of the Trust Debentures, is required under the Indenture with respect to any amendment, modification or termination of the Indenture, the Institutional Trustee shall request the direction of the holders of the Trust Securities with respect to such amendment, modification or termination and shall vote with respect to such amendment, modification or termination as directed by a majority in liquidation amount of the Trust Securities voting together as a single class; provided, however, that where a consent under the Indenture would require the consent of a Super-Majority, the Institutional Trustee may only give such consent at the direction of the holders of at least the proportion in liquidation amount of the Trust Securities which the relevant Super-Majority represents of the aggregate principal amount of the Trust Debentures outstanding. The Institutional Trustee shall be under no obligation to take any such action in accordance with the directions of the holders of the Trust Securities unless the Institutional Trustee has obtained an opinion of tax counsel experienced in such matters to the effect that for the purposes of United States federal income tax, the Trust will not be classified as other than a grantor trust.

A waiver of an Indenture Event of Default will constitute a waiver of the corresponding Event of Default.

Any required approval or direction of holders of Preferred Securities may be given at a separate meeting of holders of Preferred Securities convened for such purpose, at a meeting of all of the holders of Trust Securities or pursuant to written consent. The Regular Trustees will cause a notice of any meeting at which holders of Preferred Securities are entitled to vote, or of any matter upon which action by written consent of such holders is to be taken, to be mailed to each holder of record of Preferred Securities. Each such notice will include a statement setting forth the following information: (i) the date of such meeting or the date by which such action is to be taken; (ii) a description of any resolution proposed for adoption at such meeting on which such holders are entitled to vote or of such matter upon which written consent is sought; and (iii) instructions for the delivery of proxies or consents. No vote or consent of the holders of Preferred Securities will be required for the Trust to redeem and cancel Preferred Securities or distribute Trust Debentures in accordance with the Declaration.

Notwithstanding that holders of Preferred Securities are entitled to vote or consent under any of the circumstances described above, any of the Preferred Securities that are owned at such time by the Company or any entity directly or indirectly controlling or controlled by, or under direct or indirect common control with, the Company, shall not be entitled to vote or consent and shall, for purposes of such vote or consent, be treated as if such Preferred Securities were not outstanding.

The procedures by which holders of Preferred Securities may exercise their voting rights are described below. See "Book-Entry Issuance."

Holders of the Preferred Securities will have no rights to appoint or remove the Kennametal Trustees, who may be appointed, removed or replaced solely by the Company as the indirect or direct holder of all of the Common Securities.

GLOBAL PREFERRED SECURITIES

The Preferred Securities of the Trust may be issued in whole or in part in the form of one or more Global Preferred Securities that will be deposited with, or on behalf of, the depository identified in the Prospectus Supplement relating to the Preferred Securities. Unless otherwise indicated in the applicable Prospectus Supplement for the Preferred Securities, the depository will be The Depository Trust Company ("DTC"). Global Preferred Securities may be issued only in fully registered form and in either temporary or permanent form. Unless and until it is exchanged in whole or in part for the individual Preferred Securities represented thereby, a Global Preferred Security may not be transferred except as a whole by the depository for such Global Preferred Security to a nominee of such depository or by a nominee of such depository to such depository or another nominee of such depository or by such depository or any nominee to a successor depository or any nominee of such successor.

While the specific terms of the depository arrangement with respect to the Preferred Securities of the Trust (if other than as described under "Book-Entry Issuance") will be described in the Prospectus Supplement relating to the Preferred Securities, the Company anticipates that the following provisions will generally apply to depository arrangements.

Upon the issuance of a Global Preferred Security, and the deposit of such Global Preferred Security with or on behalf of the applicable depository, the depository for such Global Preferred Security or its nominee will credit, on its book-entry registration and transfer system, the respective aggregate liquidation amounts of the individual Preferred Securities represented by such Global Preferred Securities to the accounts of Participants. Such accounts shall be designated by the dealers, underwriters or agents with respect to such Preferred Securities or by the Company if such Preferred Securities are offered and sold directly by the Company. Ownership of beneficial interests in a Global Preferred Security will be limited to Participants or persons that may hold interests through Participants. Ownership of beneficial interests in such Global Preferred Security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the applicable depository or its nominee (with respect to interests of Participants) and the records of Participants (with respect to interests of persons who hold through Participants). The laws of some states require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and such laws may impair the ability to transfer beneficial interests in a Global Preferred Security.

So long as the depository for a Global Preferred Security, or its nominee, is the registered owner of such Global Preferred Security, such depository or such nominee, as the case may be, will be considered the sole owner or holder of the Preferred Securities represented by such Global Preferred Security for all purposes under the Declaration. Except as provided below, owners of beneficial interests in a Global Preferred Security will not be entitled to have any of the individual Preferred Securities represented by such Global Preferred Security registered in their names, will not receive or be entitled to receive physical delivery of any such Preferred Securities in definitive form and will not be considered the owners or holders thereof under the Declaration.

Payments of liquidation amount, premium or Distributions in respect of individual Preferred Securities represented by a Global Preferred Security registered in the name of a depository or its nominee will be made to such depository or its nominee, as the case may be, as the registered owner of the Global Preferred Security representing such Preferred Securities. None of the Company, the Institutional Trustee, any paying agent or the registrar for such Preferred Securities will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests of the Global Preferred Security representing such Preferred Securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Company expects that the depository for the Preferred Securities of the Trust, or its nominee, upon receipt of any payment of liquidation amount, premium or Distributions in respect of a Global Preferred Security representing any of such Preferred Securities, immediately will credit Participants' accounts with payments in amounts proportionate to their respective beneficial interest in the aggregate of such Global Preferred Security for such Preferred Securities as shown on the records of such depository or its nominee. The Company also expects that payments by Participants to owners of beneficial interests in such Global Preferred Security held through such Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in "street name." Such payments will be the responsibility of such Participants.

Unless otherwise specified in the applicable Prospectus Supplement, if a Depository for the Preferred Securities of a Trust is at any time unwilling, unable or ineligible to continue as a depository and a successor depository is not appointed by the Company within 90 days, the Trust will issue individual Preferred Securities of the Trust in exchange for the Global Preferred Security representing such Preferred Securities. In addition, the Company may at any time and in its sole discretion, subject to any limitations described in the Prospectus Supplement relating to the Preferred Securities, determine not to have any Preferred Securities of the Trust represented by one or more Global Preferred Securities and, in such event, the Trust will issue individual Preferred Securities in exchange for the Global Preferred Security or Securities representing such Preferred Securities. Further, if the Company so specifies with respect to the Preferred Securities of the Trust, an owner of a beneficial interest in a Global Preferred Security representing such Preferred Securities may, on terms acceptable to the Company, the Institutional Trustee and the Depository for such Global Preferred Security, receive individual Preferred Securities in exchange for such beneficial interests, subject to any limitations described in the Prospectus Supplement relating to such Preferred Securities. In any such instance, an owner of a beneficial interest in a Global Preferred Security will be entitled to physical delivery of individual Preferred Securities represented by such Global Preferred Security equal in liquidation amount to such beneficial interest and to have such Preferred Securities registered in its name. Individual Preferred Securities so issued will be issued in denominations, unless otherwise specified by the Company, of \$50 and integral multiples thereof.

PAYMENT AND PAYING AGENCY

Payments in respect of the Preferred Securities shall be made to the applicable depository, which shall credit the relevant accounts at such depository on the applicable Distribution Dates or, if the Preferred Securities are not held by a depository, such payments shall be made by check mailed to the address of the holder entitled thereto as such address shall appear on the Register. Unless otherwise specified in the applicable Prospectus Supplement, the paying agent for the Preferred Securities shall initially be the Institutional Trustee and any co-paying agent chosen by the Institutional Trustee and acceptable to the Regular Trustees and the Company. The paying agent shall be permitted to resign as paying agent upon 30 days' written notice to the Institutional Trustees and the Company. In the event that the Institutional Trustee shall no longer be the paying agent, the Regular Trustees

shall appoint a successor to act as paying agent (which shall be a bank or trust company acceptable to the Regular Trustees and the Company).

REGISTRAR AND TRANSFER AGENT

Unless otherwise specified in the applicable Prospectus Supplement, the Institutional Trustee will act as registrar and transfer agent for the Preferred Securities.

Registration of transfers of Preferred Securities will be effected without charge by or on behalf of the Trust, but upon payment of any tax or other governmental charges that may be imposed in connection with any transfer or exchange. The Trust will not be required to register or cause to be registered the transfer of the Preferred Securities after the Preferred Securities have been called for redemption.

INFORMATION CONCERNING THE INSTITUTIONAL TRUSTEE

The Institutional Trustee, other than during the occurrence and continuance of an Event of Default, undertakes to perform only such duties as are specifically set forth in the Declaration and, after such Event of Default, must exercise the same degree of care and skill as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to this provision, the Institutional Trustee is under no obligation to exercise any of the powers vested in it by the Declaration at the request of any holder of Preferred Securities unless it is offered reasonable indemnity against the costs, expenses and liabilities that might be incurred thereby. If no Event of Default has occurred and is continuing and the Institutional Trustee is required to decide between alternative causes of action, construe ambiguous provisions in the Declaration or is unsure of the application of any provision of the Declaration, and the matter is not one on which holders of Preferred Securities are entitled under the Declaration to vote, then the Institutional Trustee shall take such action as is directed by the Company and if not so directed, shall take such action as it deems advisable and in the best interests of the holders of the Trust Securities and will have no liability except for its own bad faith, negligence or willful misconduct.

MISCELLANEOUS

The Regular Trustees are authorized and directed to conduct the affairs of and to operate the Trust in such a way that the Trust will not be deemed to be an "investment company" required to be registered under the Investment Company Act or fail to be classified as a grantor trust for U.S. federal income tax purposes and so that the Debentures will be treated as indebtedness of the Company for U.S. federal income tax purposes. In this connection, the Company and the Regular Trustees are authorized to take any action, not inconsistent with applicable law, the certificate of trust of the Trust or the Declaration, that the Company and the Regular Trustees determine in their discretion to be necessary or desirable for such purposes, as long as such action does not materially adversely affect the interests of the holders of the Preferred Securities.

Holders of the Preferred Securities have no preemptive or similar rights.

The Trust may not borrow money or issue debt or mortgage or pledge any of its assets.

DESCRIPTION OF THE GUARANTEE

Set forth below is a summary of information concerning the Guarantee which will be executed and delivered by the Company for the benefit of the holders from time to time of Preferred Securities. The Guarantee will be qualified as an indenture under the Trust Indenture Act. The First National Bank of Chicago, an independent trustee, will act as indenture trustee under the Guarantee (the "Guarantee Trustee") for the purposes of compliance with the provisions of the Trust Indenture Act. The terms of the Guarantee will be those set forth in the Guarantee and those made part of the Guarantee by the Trust Indenture Act. The following summary is not necessarily complete, and reference is hereby made to the copy of the form of the Guarantee (including the definitions therein of certain terms) which is filed as an exhibit to the Registration Statement of which this Prospectus forms a part, and to the Trust Indenture Act. Whenever particular defined terms of the Guarantee are referred to in this Prospectus, such defined terms are incorporated herein by reference. The Guarantee will be held by the Trustee for the benefit of the holders of the Preferred Securities.

GENERAL

Pursuant to the Guarantee, unless otherwise specified in the applicable Prospectus Supplement, the Company will irrevocably and unconditionally agree, to the extent set forth therein, to pay in full to the holders of the Preferred Securities issued by the Trust, the Guarantee Payments (as defined herein) (except to the extent paid by the Trust), as and when due, regardless of any defense, right of set-off or counterclaim which the Trust may have or assert. The following payments or distributions with respect to Preferred Securities issued by the Trust, to the extent not paid by or on behalf of the Trust (the "Guarantee Payments"), will be subject to the Guarantee (without duplication): (i) any accrued and unpaid distributions which are required to be paid on the Preferred Securities, to the extent the Trust shall have funds available therefor; (ii) with respect to any Preferred Securities called for redemption by the Trust, the redemption price (the "Redemption Price") and all accrued and unpaid distributions to the date of redemption, to the extent the Trust has funds available therefor and (iii) upon a voluntary or involuntary dissolution, winding-up or termination of the Trust (other than in connection with the distribution of Trust Debentures to the holders of Preferred Securities or the redemption of all of the Preferred Securities), the lesser of (a) the aggregate of the liquidation amount and all accrued and unpaid distributions on the Preferred Securities to the date of payment, to the extent the Trust has funds available therefor, and (b) the amount of assets of the Trust remaining available for distribution to holders of the Preferred Securities in liquidation of the Trust. The Company's obligation to make a Guarantee Payment may be satisfied by direct payment of the required amounts by the Company to the holders of Preferred Securities or by causing the Trust to pay such amounts to such holders.

The Guarantee will be a full and unconditional guarantee of the Guarantee Payments with respect to the Preferred Securities, but will not apply to any payment of distributions except to the extent the Trust shall have funds available therefor. If the Company does not make interest payments on the Trust Debentures purchased by the Trust, the Trust will not pay distributions on the Preferred Securities issued by the Trust and will not have funds available therefor. See "Relationship Among the Preferred Securities, the Trust Debentures and the Guarantee." The Guarantee, when taken together with the Company's obligations under the Indenture and the Declaration, will have the effect of providing a full and unconditional guarantee on a subordinated basis by the Company of payments due on the Preferred Securities.

The Company has also agreed separately to irrevocably and unconditionally guarantee the obligations of the Trust with respect to the Common Securities (the "Common Securities Guarantee") to the same extent as the Guarantee, except that upon an Indenture Event of Default, holders of the Preferred Securities shall have priority over holders of Common Securities with respect to distributions and payments on liquidation, redemption or otherwise.

CERTAIN COVENANTS OF THE COMPANY

In the Guarantee, the Company will covenant that, so long as any Preferred Securities issued by the Trust remain outstanding, if there shall have occurred any event that would constitute an event of default under the Guarantee or the Declaration, then (a) the Company shall not declare or pay any dividend on, make any distributions with respect to, or redeem, purchase, acquire or make a liquidation payment with respect to, any of

its capital stock (other than (i) purchases or acquisitions of capital stock of the Company in connection with the satisfaction by the Company of its obligations under any employee benefit plans or the satisfaction by the Company of its obligations pursuant to any contract or security outstanding on the date of such event requiring the Company to purchase capital stock of the Company, (ii) as a result of a reclassification of the Company's capital stock or the exchange or conversion of one class or series of the Company's capital stock for another class or series of the Company's capital stock, (iii) the purchase of fractional interests in shares of the Company's capital stock pursuant to the conversion or exchange provisions of such capital stock or the security being converted or exchanged, (iv) dividends or distributions in capital stock of the Company and (v) redemptions or purchases of any rights pursuant to the Rights Agreement, any successor to the Rights Agreement, and the declaration thereunder of a dividend of rights in the future), (b) the Company shall not make any payment of interest, principal or premium, if any, on or repay, repurchase or redeem any debt securities issued by the Company which rank junior to the Trust Debentures, although it may make any such payments or repay, repurchase or redeem any debt securities that rank pari passu with the Trust Debentures and (c) the Company shall not make any guarantee payments with respect to the foregoing (other than payments pursuant to the Guarantee or the Common Securities Guarantee).

MODIFICATION OF THE GUARANTEE; ASSIGNMENT

Except with respect to any changes which do not adversely affect the rights of holders of Preferred Securities (in which case no vote will be required), the Guarantee may be amended only with the prior approval of the holders of not less than a majority in liquidation amount of the outstanding Preferred Securities issued by the Trust. All guarantees and agreements contained in the Guarantee shall bind the successors, assigns, receivers, trustees and representatives of the Company and shall inure to the benefit of the holders of the Preferred Securities then outstanding.

TERMINATION

The Guarantee will terminate as to the Preferred Securities (i) upon full payment of the Redemption Price of all Preferred Securities then outstanding, (ii) upon distribution of the Trust Debentures held by the Trust to the holders of the Preferred Securities of the Trust or (iii) upon full payment of the amounts payable in accordance with the Declaration upon liquidation of the Trust. The Guarantee will continue to be effective or will be reinstated, as the case may be, if at any time any holder of Preferred Securities must return payment of any sums paid under such Preferred Securities or the Guarantee.

EVENTS OF DEFAULT

An event of default under the Guarantee will occur upon the failure of the Company to perform any of its payment or other obligations thereunder.

The holders of a majority in liquidation amount of the Preferred Securities have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Guarantee Trustee in respect of the Guarantee or to direct the exercise of any trust or power conferred upon the Guarantee Trustee under the Guarantee. If the Guarantee Trustee fails to enforce the Guarantee, any holder of Preferred Securities may institute a legal proceeding directly against the Company to enforce such holder's rights under the Guarantee, without first instituting a legal proceeding against the Trust, the Guarantee Trustee or any other person or entity. Notwithstanding the foregoing, if the Company has failed to make a required guarantee payment, a holder of Preferred Securities may directly institute a proceeding against the Company for enforcement of the Guarantee for such payment. The Company waives any right or remedy to require that any action be brought first against the Trust or any other person or entity before proceeding directly against the Company.

STATUS OF THE GUARANTEE

The Guarantee will constitute a senior unsecured obligation of the Company and will rank pari passu with all of the Company's other senior unsecured obligations. The terms of the Preferred Securities provide that each holder of Preferred Securities issued by the Trust by acceptance thereof agrees to the subordination provisions and other terms of the Guarantee.

The Guarantee will constitute a guarantee of payment and not of collection (that is, the guaranteed party may institute a legal proceeding directly against the Guarantor to enforce its rights under the guarantee without instituting a legal proceeding against any other person or entity).

INFORMATION CONCERNING THE GUARANTEE TRUSTEE

The Guarantee Trustee, prior to the occurrence of a default with respect to the Guarantee, undertakes to perform only such duties as are specifically set forth in the Guarantee and, after default, shall exercise the same degree of care as a prudent individual would exercise in the conduct of his or her own affairs. Subject to such provisions, the Guarantee Trustee is under no obligation to exercise any of the powers vested in it by the Guarantee at the request of any holder of Preferred Securities, unless offered reasonable indemnity against the costs, expenses and liabilities which might be incurred thereby; but the foregoing shall not relieve the Guarantee Trustee, upon the occurrence of an event of default under the Guarantee, from exercising the rights and powers vested in it by the Guarantee.

GOVERNING LAW

The Guarantee will be governed by and construed in accordance with the internal laws of the State of New York.

RELATIONSHIP AMONG THE PREFERRED SECURITIES, THE TRUST DEBENTURES
AND THE GUARANTEE

As long as payments of interest and other payments are made when due on the Trust Debentures, such payments will be sufficient to cover Distributions and other payments due on the Preferred Securities, primarily because (i) the aggregate principal amount of the Trust Debentures will be equal to the sum of the aggregate stated liquidation amount of the Preferred Securities and Common Securities; (ii) the interest rate and interest and other payment dates on the Trust Debentures will match the Distribution rate and Distribution and other payment dates for the Preferred Securities; (iii) the Company shall be obligated to pay, directly or indirectly, all costs, expenses, debts and obligations of the Trust (other than with respect to the Trust Securities); and (iv) the Declaration further provides that the Trust will not engage in any activity that is not consistent with the limited purposes of the Trust.

Payments of Distributions and other amounts due on the Preferred Securities (to the extent the Trust has funds available for the payment of such Distributions) are irrevocably guaranteed by the Company as and to the extent set forth under "Description of the Guarantee." Taken together, the Company's obligations under the Trust Debentures, the Indenture, the Declaration and the Guarantee have the effect of providing a full, irrevocable and unconditional guarantee of payments of Distributions and other amounts due on the Preferred Securities. No single document standing alone or operating in conjunction with fewer than all of the other documents constitutes such guarantee. It is only the combined operation of these documents that has the effect of providing a full, irrevocable and unconditional guarantee of the Trust's obligations under the Preferred Securities. If and to the extent that the Company does not make payments on the Trust Debentures, the Trust will not pay Distributions or other amounts due on the Preferred Securities. The Guarantee does not cover payment of Distributions when the Trust does not have sufficient funds to pay such Distributions.

Notwithstanding anything to the contrary in the Indenture, the Company has the right to set-off any payment it is otherwise required to make thereunder with and to the extent the Company has theretofore made, or is concurrently on the date of such payment making, a payment under the Guarantee.

A holder of any Preferred Security may institute a legal proceeding directly against the Company to enforce its rights under the Guarantee without first instituting a legal proceeding against the Guarantee Trustee, the Trust or any other person or entity.

The Trust's Preferred Securities evidence preferred undivided beneficial interests in the assets of the Trust, and the Trust exists for the sole purpose of issuing the Preferred Securities and Common Securities and investing the proceeds thereof in Trust Debentures. A principal difference between the rights of a holder of a Preferred Security and a holder of a Trust Debenture is that a holder of a Trust Debenture will accrue, and (subject to the permissible extension of the interest period) is entitled to receive, interest on the principal amount of Trust Debentures held, while a holder of Preferred Securities is only entitled to receive Distributions if and to the extent the Trust has funds available for the payment of such Distributions.

Upon any voluntary or involuntary dissolution of the Trust involving the liquidation of the Trust Debentures, the holders of Preferred Securities of the Trust will be entitled to receive, out of assets held by the Trust, the Liquidation Distribution in cash. See "Description of Preferred Securities--Liquidation Distribution Upon Dissolution." Upon any voluntary or involuntary liquidation or bankruptcy of the Company, the Institutional Trustee as holder of the Trust Debentures would be entitled to receive payment in full of principal and interest, before any shareholders of the Company receive payments or distributions.

DESCRIPTION OF COMMON STOCK

The following brief description of the Company's capital stock does not purport to be complete and is subject in all respects to applicable Pennsylvania law and to the provisions of the Company's Amended and Restated Articles of Incorporation (the "Restated Articles") and its By-Laws (the "By-Laws"), copies of which have been filed with the Commission.

COMMON STOCK

The Company has authorized 70,000,000 shares of capital stock, par value \$1.25 per share ("Common Stock"). As of November 30, 1997, there were 26,284,093 shares of Common Stock outstanding. Holders of Common Stock are entitled to such dividends as may be declared by the Board of Directors out of funds legally available therefor after payment of dividends on any outstanding Preferred Stock and are entitled to one vote for each share of Common Stock held by them with respect to all matters upon which they are entitled to vote.

PREFERRED STOCK

The Company has authorized 5,000,000 shares of Class A Preferred Stock, no par value per share (the "Preferred Stock"). At present, there are no shares of Preferred Stock outstanding. The Board of Directors of the Company, without further action by the stockholders, is authorized to designate and issue in series Preferred Stock and to fix as to any series the dividend rate, redemption prices, preferences on dissolution, the terms of any sinking fund, conversion rights, voting rights, and any other preferences or special rights and qualifications. The Board of Directors of the Company has authorized 200,000 shares of Series One Preferred Stock for use in the Rights Agreement. See "Rights Agreement."

Any Preferred Stock so issued may rank senior to the Common Stock with respect to the payment of dividends or amounts upon liquidation, dissolution or winding up, or both. In addition, any such shares of Preferred Stock may have class or series voting rights. Issuances of Preferred Stock, while providing the Company with flexibility in connection with general corporate purposes, may, among other things, have an adverse effect on the rights of holders of Common Stock. The Company has no present plans to issue any Preferred Stock.

COVENANT RESTRICTIONS

In connection with the acquisition of Greenfield, the Company, on November 17, 1997, entered into a bank credit facility with BankBoston, N.A., Deutsche Bank AG, New York Branch, Mellon Bank, N.A. and PNC Bank, National Association (the "New Bank Credit Facility"). The Company's New Bank Credit Facility contains financial and operating covenants, including restrictions on the ability of the Company to, among other things, incur additional debt, make advances and investments, create, incur or permit the existence of certain liens, make loans or guarantees and requires the Company to achieve and maintain certain financial ratios, including minimum net worth, maximum leverage ratio and minimum fixed charge coverage ratio.

Securities issued by the Company in the future, including the Debt Securities and future credit agreements, may contain various restrictive covenants similar or in addition to the covenants above described.

CERTAIN CHARTER AND BY-LAW PROVISIONS

Certain provisions of the Restated Articles and By-Laws could have an anti-takeover effect. These provisions are intended to enhance the likelihood of continuity and stability in the composition of the Company's Board of Directors and in the policies formulated by the Board and to discourage an unsolicited takeover of the Company if the Board determines that such takeover is not in the best interests of the Company and its shareholders. However, these provisions could have the effect of discouraging certain attempts to acquire the Company or remove incumbent management even if some or a majority of shareholders deemed such an attempt to be in their best interests.

The provisions in the Restated Articles and By-Laws include: (i) the classification of the Board of Directors into three classes; (ii) a procedure which requires shareholders to nominate directors in advance of a meeting to

elect such directors; and (iii) the authority to issue additional shares of Common Stock or Preferred Stock without shareholder approval.

The Restated Articles also include a provision requiring a 75 percent shareholder vote for certain mergers or other business combinations or transactions with five percent shareholders; a provision requiring a 75 percent shareholder vote to remove the entire Board, a class of the Board, any individual member of the Board without cause, or to increase the size of the Board to more than twelve members or decrease the size of the Board to fewer than eight members; a provision requiring disinterested shareholder approval of stock repurchases at a premium over market by the Company from certain four percent Shareholders (as defined in the Restated Articles); and a provision requiring a majority of disinterested shareholders to approve certain business combinations involving a stockholder who beneficially owns more than 10 percent of the voting power of the Company, unless certain minimum price, form of consideration and procedural requirements are satisfied or the transaction is approved by a majority of disinterested directors.

Pursuant to the Restated Articles, the Board of Directors is permitted to consider the effects of a change in control on non-shareholder constituencies of the Company, such as its employees, suppliers, creditors, customers and the communities in which it operates. Pursuant to this provision, the Board may be guided by factors in addition to price and other financial considerations.

PBCL Anti-Takeover Provisions. The Pennsylvania Business Corporation Law (the "PBCL") contains a number of statutory "anti-takeover" provisions, including Subchapters E, F, G and H of Chapter 25 and Section 2538 of the PBCL, which apply automatically to a Pennsylvania registered corporation (usually a public company) unless such corporation elects to opt-out as provided in such provisions. The Company, as a Pennsylvania registered corporation, has elected in its By-Laws to opt-out of certain of the anti-takeover provisions entirely, namely Subchapters G and H.

The following descriptions are qualified in their entirety by reference to such provisions of the PBCL:

Subchapter E (relating to control transactions) generally provides that if any person or group acquires 20% or more of the voting power of a covered corporation, the remaining shareholders may demand from such person or group the fair value of their shares, including a proportionate amount of any control premium.

Subchapter F (relating to business combinations) generally delays for five years and imposes conditions upon "business combinations" between an "interested shareholder" and the corporation. The term "business combination" is defined broadly to include various transactions between a corporation and an interested shareholder including mergers, sales or leases of specified amounts of assets, liquidations, reclassifications and issuances of specified amounts of additional shares of stock of the corporation. An "interested shareholder" is defined generally as the beneficial owner of at least 20% of a corporation's voting shares.

Section 2538 of the PBCL generally establishes certain shareholder approval requirements with respect to specified transactions with "interested shareholders."

TRANSFER AGENT AND REGISTRAR

ChaseMellon Shareholder Services, L.L.C. is the Transfer Agent and Registrar for the Common Stock.

RIGHTS AGREEMENT

The Company has adopted a rights plan pursuant to which the Board of Directors authorized and the Company distributed one preferred stock purchase right (each a "right") for each outstanding share of Common Stock of the Company. The terms of the rights are governed by a Rights Agreement between the Company and Mellon Bank, N.A., as Rights Agent, dated as of October 25, 1990 (the "Rights Agreement"). The rights, which currently are automatically transferred with the related shares of Common Stock and are not separately transferable, will entitle the holder thereof to purchase one-hundredth of a share of a new series of preferred stock of the Company at a price of \$105 (subject to certain adjustments).

Subject to certain restrictions, the rights become exercisable only if a person or group of persons acquires or intends to make a tender offer for 20 percent or more of the Company's Common Stock. If any person acquires 20 percent of the Common Stock, each right will entitle the shareholder to receive upon exercise that number of shares of Common Stock having a market value of two times the exercise price. If the Company is acquired in a merger or certain other business combinations, each right then will entitle the shareholder to purchase at the exercise price, that number of shares of the acquiring company having a market value of two times the exercise price.

The rights will expire on November 2, 2000, and are subject to redemption in certain circumstances by the Company at a redemption price of \$0.01 per right.

The foregoing summary description of the Rights Agreement does not purport to be complete and is qualified in its entirety by reference to the Rights Agreement, a copy of which has been filed with the Commission as an exhibit in the Registration Statement of which this Prospectus forms a part. For a more detailed description of the Rights Agreement, see the Company's Form 8-A filed with the Commission with respect to the rights and incorporated by reference into this Prospectus.

DESCRIPTION OF STOCK PURCHASE CONTRACTS AND STOCK PURCHASE UNITS

The Company may issue Stock Purchase Contracts, including contracts obligating holders to purchase from the Company, and the Company to sell to the holders, a specified number of shares of Common Stock or Preferred Stock at a future date or dates. The consideration per share of Preferred Stock or Common Stock may be fixed at the time the Stock Purchase Contracts are issued or may be determined by reference to a specific formula set forth in the Stock Purchase Contracts. The Stock Purchase Contracts may be issued separately or as Stock Purchase Units consisting of a Stock Purchase Contract and Preferred Securities or debt obligations of third parties, including U.S. Treasury securities, securing the holders' obligations to purchase the Common Stock under the Stock Purchase Contracts. The Stock Purchase Contracts may require the Company to make periodic payments to the holders of the Stock Purchase Units or vice versa, and such payments may be unsecured or prefunded on some basis. The Stock Purchase Contracts may require holders to secure their obligations thereunder in a specified manner.

The applicable Prospectus Supplement will describe the terms of any Stock Purchase Contracts or Stock Purchase Units. The description in the applicable Prospectus Supplement will not necessarily be complete, and reference will be made to the Stock Purchase Contracts, and, if applicable, collateral arrangements and depositary arrangements, relating to such Stock Purchase Contracts or Stock Purchase Units.

BOOK ENTRY ISSUANCE

Unless otherwise specified in the applicable Prospectus Supplement, DTC will act as depository for Securities issued in the form of Global Securities. Such Securities will be issued only as fully-registered securities registered in the name of Cede & Co. (DTC's nominee). One or more fully-registered Global Securities will be issued for such Securities representing in the aggregate the total number of such Securities, and will be deposited with or on behalf of DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants ("Participants") deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations ("Direct Participants"). DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, the American Stock Exchange and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain custodial relationships with Direct Participants, either directly or indirectly ("Indirect Participants"). The rules applicable to DTC and its Participants are on file with the Commission.

Purchases of Securities within the DTC system must be made by or through Direct Participants, which will receive a credit for such Securities on DTC's records. The ownership interest of each actual purchaser of each Security ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchases, but Beneficial Owners are expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings, from the Direct or Indirect Participants through which the Beneficial Owners purchased Securities. Transfers of ownership interests in Securities issued in the form of Global Securities are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in such Securities, except in the event that use of the book-entry system for such Securities is discontinued.

DTC has no knowledge of the actual Beneficial Owners of the Securities issued in the form of Global Securities. DTC's records reflect only the identity of the Direct Participants to whose accounts such Securities are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. as the registered holder of Securities issued in the form of Global Securities. If less than all of a series of such Securities are being redeemed, DTC's current practice is to determine by lot the amount of the interest of each Direct Participant to be redeemed.

Although voting with respect to Securities issued in the form of Global Securities is limited to the holders of record of such Securities, in those instances in which a vote is required, neither DTC nor Cede & Co. will itself consent or vote with respect to such Securities. Under its usual procedures, DTC would mail an omnibus proxy (the "Omnibus Proxy") to the issuer of such Securities as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts such Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Payments in respect of Securities issued in the form of Global Securities will be made by the issuer of such Securities to DTC. DTC's practice is to credit Direct Participants' accounts on the relevant payment date in

accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payments on such payment date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices and will be the responsibility of such Participant and not of DTC, the Institutional Trustee, either Trust or the Company, subject to any statutory or regulatory requirements as may be in effect from time to time. Payments to DTC are the responsibility of the issuer of the applicable Securities, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursements of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depositary with respect to any Securities at any time by giving reasonable notice to the issuer of such Securities. In the event that a successor depositary is not obtained, individual Security certificates representing such Securities are required to be printed and delivered. The Company, at its option, may decide to discontinue use of the system of book-entry transfers through DTC (or a successor depositary).

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the Trust and the Company believe to be accurate, but the Trust and the Company assume no responsibility for the accuracy thereof. Neither the Trust nor the Company has any responsibility for the performance by DTC or its Participants of their respective obligations as described herein or under the rules and procedures governing their respective operations.

PLAN OF DISTRIBUTION

Any of the Securities being offered hereby may be sold in any one or more of the following ways from time to time: (i) through agents; (ii) to or through underwriters; (iii) through dealers; and (iv) directly by the Company or, in the case of Preferred Securities, by the Trust to purchasers.

The distribution of the Securities may be effected from time to time in one or more transactions at a fixed price or prices, which may be changed, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices.

Offers to purchase Securities may be solicited by agents designated by the Company from time to time. Any such agent involved in the offer or sale of the Securities in respect of which this Prospectus is delivered will be named, and any commissions payable by the Company or the Trust to such agent will be set forth, in the applicable Prospectus Supplement. Unless otherwise indicated in such Prospectus Supplement, any such agent will be acting on a reasonable best efforts basis for the period of its appointment. Any such agent may be deemed to be an underwriter, as that term is defined in the Securities Act, of the Securities so offered and sold.

If Securities are sold by means of an underwritten offering, the Company and, in the case of an offering of Preferred Securities, the Trust will execute an underwriting agreement with an underwriter or underwriters at the time an agreement for such sale is reached, and the names of the specific managing underwriter or underwriters, as well as any other underwriters, the respective amounts underwritten and the terms of the transaction, including commissions, discounts and any other compensation of the underwriters and dealers, if any, will be set forth in the applicable Prospectus Supplement which will be used by the underwriters to make resales of the Securities in respect of which this Prospectus is being delivered to the public. If underwriters are utilized in the sale of any Securities in respect of which this Prospectus is being delivered, such Securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at fixed public offering prices or at varying prices determined by the underwriters and the Company or the Trust, as applicable, at the time of sale. Securities may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by one or more underwriters. If any underwriter or underwriters are utilized in the sale of Securities, unless otherwise indicated in the applicable Prospectus Supplement, the underwriting agreement will provide that the obligations of the underwriters are subject to certain conditions precedent and that the underwriters with respect to a sale of such Securities will be obligated to purchase all such Securities if any are purchased.

The Company or the Trust, as applicable, may grant to the underwriters options to purchase additional Securities, to cover over-allotments, if any, at the initial public offering price (with additional underwriting

commissions or discounts), as may be set forth in the Prospectus Supplement relating thereto. If the Company or the Trust, as applicable, grants any over-allotment option, the terms of such over-allotment option will be set forth in the Prospectus Supplement for such Securities.

If a dealer is utilized in the sale of the Securities in respect of which this Prospectus is delivered, the Company or the Trust, as applicable, will sell such Securities to the dealer as principal. The dealer may then resell such Securities to the public at varying prices to be determined by such dealer at the time of resale. Any such dealer may be deemed to be an underwriter, as such term is defined in the Securities Act, of the Securities so offered and sold. The name of the dealer and the terms of the transaction will be set forth in the Prospectus Supplement relating thereto.

Offers to purchase Securities may be solicited directly by the Company or the Trust, as applicable, and the sale thereof may be made by the Company or the Trust directly to institutional investors or others, who may be deemed to be underwriters within the meaning of the Securities Act with respect to any resale thereof. The terms of any such sales will be described in the Prospectus Supplement relating thereto.

Securities may also be offered and sold, if so indicated in the applicable Prospectus Supplement, in connection with a remarketing upon their purchase, in accordance with a redemption or repayment pursuant to their terms, or otherwise, by one or more firms ("remarketing firms"), acting as principals for their own accounts or as agents for the Company or the Trust, as applicable. Any remarketing firm will be identified and the terms of its agreement, if any, with the Company or the Trust and its compensation will be described in the applicable Prospectus Supplement. Remarketing firms may be deemed to be underwriters, as that term is defined in the Securities Act, in connection with the Securities remarketed thereby.

If so indicated in the applicable Prospectus Supplement, the Company or the Trust, as applicable, may authorize agents and underwriters to solicit offers by certain institutions to purchase Securities from the Company or the Trust at the public offering price set forth in the applicable Prospectus Supplement pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the applicable Prospectus Supplement. Such delayed delivery contracts will be subject to only those conditions set forth in the applicable Prospectus Supplement. A commission indicated in the applicable Prospectus Supplement will be paid to underwriters and agents soliciting purchases of Securities pursuant to delayed delivery contracts accepted by the Company or the Trust, as applicable.

Agents, underwriters, dealers and remarketing firms may be entitled under relevant agreements with the Company or the Trust, as applicable, to indemnification by the Company or the Trust, as applicable, against certain liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which such agents, underwriters, dealers and remarketing firms may be required to make in respect thereof.

Each series of Securities will be a new issue and, other than the Common Stock, which is listed on the NYSE, will have no established trading market. The Company may elect to list any series of Securities on an exchange, and in the case of the Common Stock, except as set forth in the applicable Prospectus Supplement, on any additional exchange, but, unless otherwise specified in the applicable Prospectus Supplement, the Company shall not be obligated to do so. No assurance can be given as to the liquidity of the trading market for any of the Securities.

Agents, underwriters, dealers and remarketing firms may be customers of, engage in transactions with, or perform services for, the Company and its subsidiaries in the ordinary course of business.

LEGAL MATTERS

The validity of the Securities will be passed upon by Buchanan Ingersoll Professional Corporation, Pittsburgh, Pennsylvania. William R. Newlin, Chairman of the Board of the Company, is a shareholder in Buchanan Ingersoll Professional Corporation. As of July 30, 1997, Mr. Newlin owned 24,385 shares of Common Stock, stock credits representing the right to acquire 9,260 shares of Common Stock pursuant to the Company's directors deferred fee plan, 20,000 shares of JLK common stock and held options to acquire 1,500 shares of Common Stock and 15,000 shares of JLK common stock. Except as provided in the applicable Prospectus

Supplement, if the Securities are underwritten, the validity of the Securities will be passed upon for the underwriters by Simpson Thacher & Bartlett, New York, New York. Simpson Thacher & Bartlett will rely on Buchanan Ingersoll Professional Corporation with respect to matters of Pennsylvania law.

EXPERTS

The consolidated financial statements of the Company as of June 30, 1996 and June 30, 1997 and for each of the three years in the period ended June 30, 1997, incorporated in this Registration Statement by reference to the Form 10-K for the fiscal year ended June 30, 1997, of which this Prospectus is a part, have been audited by Arthur Andersen LLP, independent public accountants, as indicated in their reports with respect thereto, and are included herein in reliance upon the authority of said firm as experts in accounting and auditing in giving said reports. The consolidated financial statements of Greenfield as of December 31, 1995 and December 31, 1996 and for each of the three years in the period ended December 31, 1996, incorporated in this Registration Statement by reference to the Form 8-K dated November 20, 1997, as amended, have been so included in reliance on the report of Price Waterhouse LLP, independent accountants, given on the authority of said firm as experts in auditing and accounting.

No dealer, salesperson or other person is authorized to give any information or to represent anything not contained in this prospectus supplement or the accompanying prospectus. You must not rely on any unauthorized information or representations. This prospectus supplement is an offer to sell only the notes offered hereby, but only under circumstances and in jurisdictions where it is lawful to do so. The information contained in this prospectus supplement and the accompanying prospectus is current only as of their respective dates.
